## REBELS PUSH BACK LOYAL ARMY SOUTH OF TORTOSA

Checked in Battle for the City, Insurgents Move From Right Side of Line to Try to Outflank Government Troops.

### VALLIBONA TAKEN IN VINAROZ REGION

Village Is 22 Miles From Sea—In Northern Catalonia Franco's Men Control Balaguer and March on Power Center.

By the Associated Press. HENDAYE, France, April 7.—Government defenses crumbled before a fresh insurgent march to Spain's east coast today.

Insurgents occupied the village of Vallibona, which is 22 miles from the seacoast city of Vinaroz. Gen. Francisco Franco's column in that region threatened to outflank the Government left wing defending the Ebro River delta city of Tortosa from positions in the Razas and Montenegrino mountains. Vinaroz is south of Tortosa.

The insurgent right wing marched from Morella while counter-attacks from entrenched Government units sent off further frontal advances in Tortosa.

In Northern Catalonia. Simultaneous action along the Northern Catalonia front brought the city of Balaguer—northern end of the Government's new defense line between Lerida and Barcelona—under insurgent control.

Gen. Jose Moscardo's men, attempting an encirclement to outflank the strong positions of the Government, reached southward to Borjas Blancas.

North of Balaguer, rebel troops were reported to be at the gates of Tarragona, important electric power source for much of Catalonia and Valencia. Tremp is on the Noguera Pallaresa River.

Action Yesterday at Tortosa. In yesterday's fighting, Government troops streamed down from mountain fastnesses in flank attacks on insurgents hammering at Tortosa. While militiamen held approaches to the walled city, wave after wave of Government troops struck from the heights which hemmed in Gen. Franco's column. They drove insurgents out of several positions previously occupied by the rebels in hand-to-hand fighting.

Drop squads continued operations in Northern Aragon. French border officials massed troops at Port de Plan, Bagneres de Luchon and Foix as a precaution.

At the southeastern frontier families of Catalonia and other Government officials, including the wife and son of Luis Companys, President and Premier of the autonomous Catalonia government, were beginning to arrive.

Government Begins Offensive Southwest of Madrid. By the Associated Press. MADRID, April 7.—A surprise offensive was launched yesterday by the Government 100 miles southwest of Madrid and nearly 100 miles east of the Portuguese border, where a successful offensive would threaten to cut insurgent Spain in two.

Advancing from the south, Government troops moved toward the Badajoz-Toledo highway, capturing Calera y Chozas, surrounding the town of Villar del Pedroso and Carrascalio and threatening Puentel Arzobispo, 30 miles southwest of Talavera de la Reina.

Fuente del Arzobispo lies only eight miles south of the Badajoz railway toward which the Government forces were aiming.

The reorganized Cabinet granted Premier Juan Negrin full power to act with greatest speed and severity against all anti-Government factions and activity.

200 Spanish Refugees, Mostly Civilians, Cross Into France. By the Associated Press. TARRAS, France, April 7.—More than 200 Spanish refugees, mostly civilians, crossed into France between 6 p.m. yesterday and 3 p.m. today. The military refugees included a Colonel and five other officers.

First Cantaloupes of Season. The first cantaloupes of the season were on the St. Louis market today, wholesaling at \$9.50 a crate of 45 melons. They were grown in Mexico. Five crates were in the shipment.

## Billion and Half Bond Issue In Prospect for Work Relief

Money Would Be Lent Without Interest to Cities and Counties—Roosevelt to Submit Idea to Congress Soon.

By the Associated Press.

WASHINGTON, April 7.—A high administration official said today that President Roosevelt contemplates recommending to Congress a \$1,500,000,000 Public Works program in a new "recovery drive" in an attempt to restore employment.

At the same time the White House announced that Harry Hopkins, administrator, and Aubrey Williams, deputy administrator, of the Works Progress Administration, would confer with the President to-day on work relief.

Williams has said that a much greater emergency relief fund would be needed soon if the Government is to care for the new thousands of unemployed, born of the "recession." The new Public Works program

plan, it was learned authoritatively, calls for Federal bond issues to raise the \$1,500,000,000. This money, in turn, would be lent to cities, counties and other political subdivisions to finance local building programs.

It was understood President Roosevelt would ask Congress to authorize raising the billion and half by sale of bonds.

It was understood the money would be lent to states and cities without interest for periods as long as 50 years and would be repayable in small annual amounts, probably about 2 per cent.

The Public Works loan plan would be one phase of the administration's program for aiding business and increasing employment.

### LIKELY LIGHT RAIN OR SNOW TONIGHT; CLOUDY TOMORROW

# 10,000 BACKERS OF BLUM FIGHT POLICE IN PARIS

Crying, "Down With Senate," They Make Demonstration in Front of Senate Building.

## MEET IN SPITE OF LEADER'S ORDER

Upper House Committee Rejects Premier's Plea 25 to 6—Fall of Cabinet Likely.

By the Associated Press.  
PARIS, April 7.—More than 10,000 Leftists protesting against Senate opposition to Premier Blum's demand for dictatorial financial powers fought police and Rightists outside the Senate late today. Crowds surged through the streets near Luxembourg Palace, in which the Senate sits, shouting: "Down with the Senate!"

The demonstrators attacked gendarmes with chairs and bottles snatched up from cafes along the way, while the police retaliated with their clubs.

More than 1000 police and steel-helmeted mobile guards were arrayed to prevent the masses of Socialists, Communists and Anarchists from making good the shouted threat to march on the Senate and "hang" Jean Caillaux, 74-year-old president of the Senate. Finance Committee and leaders of the opposition to Blum.

Safe Windows Broken.

Cafe windows were shattered and tables were taken from terraces to be used as shields in the assaults on the gendarmes.

The demonstrators also skirmished with a group of Rightist students who appeared with arms upraised in the Fascist salute.

Several injured policemen and demonstrators were taken to first-aid stations hastily set up in nearby cafes.

The police succeeded in separating the rioters into several groups and then pushed them into side streets away from Luxembourg Palace.

Mobile guards rode their horses into the shouting throng. Little by little the Leftists were forced back and about 8 p. m. only a few hundred stragglers were near the Senate building.

The fight occurred soon after the Senate Finance Committee rejected Blum's bill by a vote of 25 to 6.

Responding to the summons of Socialist extremists, Leftists moved late in the afternoon on the Luxembourg Palace, while police and guard reinforcements surrounded the building.

Bottles and Chairs vs. Clubs.

Leftists attacked police in an attempt to break through into the Senate grounds. The demonstrators used bottles and cafe chairs and the police their clubs. Leftists and police alike were knocked down. Several received first aid.

A small group of demonstrators, singing the Internationale, eluded the police and approached the Senate building only to be dispersed by mobile guards.

The Leftists gathered in defense of the Blum Government's order forbidding the mass meeting, issued by the Minister of the Interior with the Premier's approval.

Caillaux Leads Fight.

Inside the building, Caillaux, who overthrew the first Blum Cabinet last June and is leading the opposition now, quietly read a terse communiqué announcing the committee's rejection of the Blum bill.

The more militant Socialist element refused to cancel the demonstration call in spite of an order from the Ministry of the Interior, which Blum approved.

The Finance Committee's action foreshadowed defeat for the Premier in the Senate tomorrow—with the downfall of his Cabinet—on his finance bill, for which he won approval of the Chamber of Deputies yesterday by a majority of 61—the smallest ever given him by his supporters.

Call for Demonstration.

The call for the demonstration was made on huge red posters with which Paris was plastered this morning, signed by Marcel Pivert, militant leader of the Socialist Left Wing which planned thereby to show the mass strength of the Premier's popular support.

Pivert's group issued its call through the Socialist Federation of the Department of the Seine, regular organization of Socialists in the Paris region, which the Pivert

ST. LOUIS POST-DISPATCH  
Founded by Joseph Pulitzer  
Dec. 12, 1891

15,000 Soldiers and Civilian Marchers Pass Before Him.

VIENNA, April 7.—It was officially announced yesterday that storm troopers guarding former Chancellor Kurt Schuschnigg in Belvedere Palace had been withdrawn and replaced by detectives who keep watch from nearby buildings.

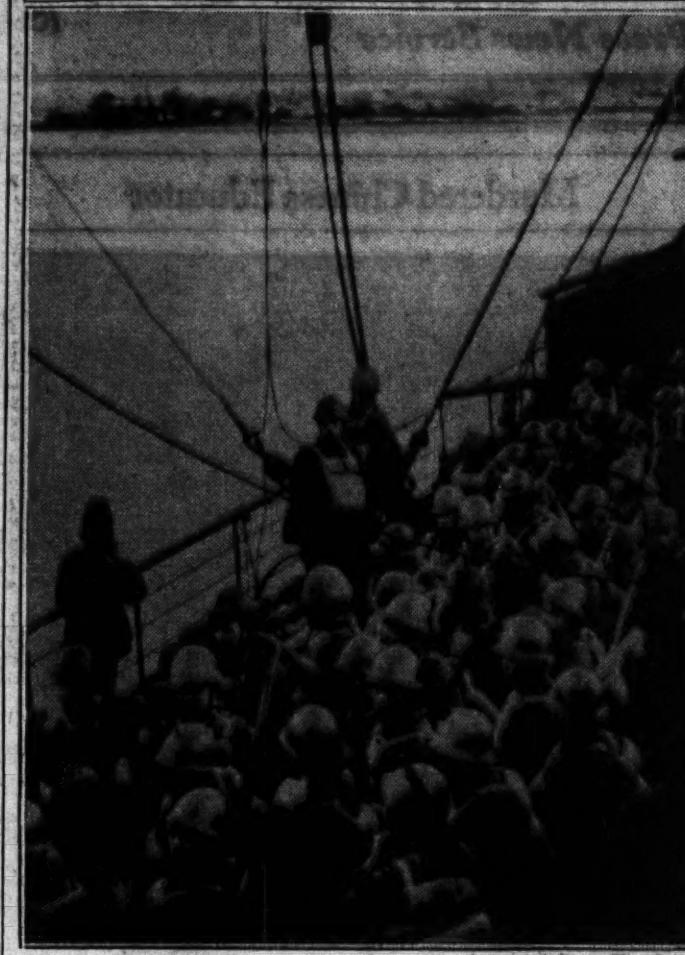

The announcement said Schuschnigg was being detained under a ruling he made as Minister of Justice during the administration of Engelbert Dollfuss. The ruling, based on old monarchic law, provided for "confined" hindering the subject's freedom but without a criminal stigma.

ROOSEVELT REVIEWS PARADE

WASHINGTON, April 7.—President Roosevelt stood for an hour and a half in a biting cold wind yesterday to review 15,000 troops, men and women of patriotic organizations, and school cadets, in the capital's observance of Army day.

In the reviewing stand with the President were Secretary of War Woodring and Gen. Malin Craig, chief of staff.

## More Japanese Troops to China

## JAPAN WORRIED OVER U. S. POLICY IN THE PACIFIC

Rear Admiral Noda Declares His Nation Must Watch "With Gravest Concern."

By the Associated Press.

TOKIO, April 7.—Japan feels it "imperative" it maintain command of the Western Pacific and is concerned gravely over the possibility the United States might expand its sphere of influence there, Rear Admiral Kiyoshi Noda, admiralty spokesman, said today.

The country, he said, "believes Fascism is with us, and that this bill is a further step in that direction. The people fear this bill will serve as an escalator to a dictatorship."

But the Communists are not the only friends of the bill he added.

He predicted members would be flooded with "propaganda" from W. P. A. workers in the next few days.

"The telephone wires are daubed

from all over the nation," O'Connor asserted.

"By national committees,

state chairmen and county

chairs, calling the members to

get behind the President on this bill."

Discussing the speech on foreign policy by Secretary of State Hull on March 17 and his letter on April 3, opposing a stay-at-home policy for the navy and holding it must be free to defend Americans anywhere, Admiral Noda asserted:

"The fact that Mr. Hull sent a letter at this particular time is of special interest to us. Formerly the United States seemed to regard the mainland coasts and Panama as the sole points necessary to defend."

"As late as Jan. 31, Admiral Leahy (chief of U. S. Naval operations) stated a strategical triangle running from the Aleutians to Hawaii, Samoa and Panama was the defense line."

"Now Mr. Hull expresses strong

opposition to any such theoretical

frontier. Hence, it appears Ameri-

ca is advancing her sphere rapidly

westward. Japan cannot but

watch with gravest concern."

He declined to say whether Japan saw the possibility of collision with United States expansion, and reaffirmed Japan's "attitude remains as before—one of non-aggression."

Declining to say exactly what

Japan regarded as under its

guardianship, the spokesman said

that "it is the area necessary to

defend from the standpoint of our

national security. From this view-

point it is imperative that we main-

tain command of the Western Pa-

cific. However, so long as others

do not take a position of defense

Japan will not do either."

"The present and discussions of

naval strength by Admiral Leahy

and interpreted part of them to be

an accusation that England started

the naval race."

He said the cry against the bill

came from all churches, from col-

leges, labor, veterans, leaders of

business and politics, irrespective of

class or party. He added:

"They fear the further breaking

down of the equality of the three

branches of Government, which our

forefathers worked out deliberately,

and may I say, reluctantly, because

if some of them had had their way,

the legislative branch would have

predominated as it does in Eng-

land today, where democracy con-

tinues intact."

Secretary Hull said that estab-

lishment of a "naval frontier" be-

yond which American warships

should not operate would "creat[e]

"an imaginary Chinese wall" and ex-

pose Americans to "attack" any-

where in the world outside this

wall."

Lindbergh Fly to France.

FOLKESTONE, England, April 7.—Col. and Mrs. Charles A. Lindbergh flew to France today. They

were from Lympne Airport to St. Inglebert, in Brittany, and took

off from there after a brief stop.

Their destination was not an-

nounced.

Albacete, 85 miles southwest of Va-

lenca, To Fight for Ideals.

They had been up to the

Gandesa sector and were almost

wiped out in the first battle," he

went on. "They paid us seven

peasants (about 40 men) a day but

most of us came to Spain to fight

for ideals."

As political commissar, Honey-

combe, who said he once worked in

the American Communist party in

California, was left in charge of

the battalion when its commander

was killed in Gandesa.

Leftists Are Finished.

"This cannot last," he said. "I

have seen more than 200 planes at

one time bombing and strafing our

area. That man Franco has every-

thing. The Spaniards don't want to

fight. They have nothing to fight

with. They are finished."

Honeycombe used an American

seaman's passport, dated several

years ago, to cross the border into

France from Northeastern Spain.

"I guess they couldn't read," he

commented.

He still wore a khaki uniform.

In the trousers showed shrap-

nell wounds he received in the ac-

tion at Belchite last month.

"They rushed us to the

Gandesa sector just in time to

get the full force of the offen-

sive April 1," he related. "It was

horrible. The whole republican

line—those that were left of us—

just crashed and Walked."

It took him four or five days of

hitch-hiking and walking to reach

the French frontier, Honeycombe

said.

"We Americans were surround-

ed by Fascist infantry 45 kilome-

ters (about nine miles) west of

Gandesa, but a few of us found

our way out. I saw only 28 men,

besides myself, escaping out of

the 500 who were captured.

"I guess we were surrounded

and captured by the 4000 men of

the Franco army," he said.

"We were surrounded and cap-

tured by the 4000 men of the

Franco army," he said.

"We were surrounded and cap-

## TWO STOP TRIAL, SAY NO CONTEST TO FRAUD CHARGE

### Victims of "Bad Legal Advice"

MISS MILDRED NEUMANN (left), JULIUS H. KLEINE.

Julius H. Kleine and Miss Mildred Neumann Get Six Months, but She Is Put on Probation.

### HE MAY BE ALSO, SAYS JUDGE DAVIS

Lawyers Agree Their Attempt to Hide Bankruptcy Assets Was Due to 'Bad Legal Advice.'

Julius H. Kleine, stock salesman, and his housekeeper and adopted daughter, Miss Mildred Neumann, entered a plea of no contest today, in United States District Judge Charles B. Davis' court, to the charge of conspiracy to conceal assets from the trustee who took charge of Kleine's affairs after he filed a petition in bankruptcy March 18, 1936.

Judge Davis entered, as a temporary order, a sentence of six months in jail for each, but said that both might apply for probation. Two hours later, the court issued an order placing Miss Neumann on probation for six months. He made no announcement as to Kleine. Jail sentences imposed by the court are served in Marion County Jail at Hannibal, or, in case of some short sentences, in St. Louis City Jail.

The maximum punishment under the statute for the offense admitted in this case is two years' imprisonment and \$10,000 fine.

Their lawyer, Bryan Purteet, and Edward Tobin, counsel for the trustee, stated to the court that Kleine and Miss Neumann were led to violate the law through "bad legal advice," and that the actions for which they were indicted were taken at the direction of their counsel. The attorney of record for the two, in their appearance before the Referee in Bankruptcy, was Shepard R. Evans. Purteet and Tobin did not name Evans in their statements to the court.

Evans appeared in court later and talked with the two lawyers. He said to a Post-Dispatch reporter that he did not enter the Kleine-Neumann case until after the consciousness of property which figured in the testimony were made and that he had nothing to do with the conspiracy.

The no-contest plea was entered the second day of the Kleine-Neumann trial and represented a change from their first plea of not guilty to the charge.

**Witnesses' Testimony.**

Testimony yesterday, and given previously before the Referee, was to the effect that Kleine had been at 4322-24 Natural Bridge avenue to Miss Neumann four months before he filed his voluntary petition in bankruptcy. He represented that the transfer made in payment of loans, which had extended over a period of years, Kleine, who is 65 years old, adopted Miss Neumann, 30, as his daughter. This, the lawyer said, was to insure his devotion to him, in the event of her death, of his manslaughter.

Judge Scott, in turning down the defense's plea, ignored Pekor's request that he be seen by San Quentin because "the educational advantages are better there."

Williamson was shot last Dec. 1. Pekor contended the shooting was accidental, while the State held the defendant killed Williamson to obtain possession of Williamson's automobile.

The reality has an assessed valuation of \$6,000, it was testified. Kleine listed assets of \$1,400 and liabilities of \$8,736 in his bankruptcy petition.

Purteet, in announcing the change of plea, said a state of facts existed which, if proved to the jury, might result in a prison sentence for both. This, he said, was because they had been badly advised, and because of such advice, had made statements before the late Referee John A. Hope which did not square with the facts.

"If properly advised," he said, "they would have turned over everything to the trustee in bankruptcy at the time."

**Down With the Depression.**

Kleine, the attorney said, was a former school teacher and stock broker, who "went down with the depression."

Miss Neumann, whom Kleine had taken from an orphan's home, looked on Kleine as her only friend, the lawyer said, and showed great loyalty to him. Summarizing their offense, Purteet said that Kleine "merely attempted to prefer Miss Neumann over other creditors."

Attorney Tobin, representing the trustee, Meyer Hessel, said: "There was a well devised plan to conceal assets, but in my opinion it was not conceived by either of these two. The first instance of the plan was when Kleine legally adopted Miss Neumann as his daughter. Another was the transferring to her in November, 1935, of two-tenths interest in the estate of his brother, Louis Kleine."

The whole scheme was conceived by a person who knew the law, and these people are now in the predicament because of this legal advice. Apparently everything they did was at the direction of their counsel."

G. Morris, Assistant United States Attorney, said he wished to call the court's attention to the facts found by Government investigators. They had said, that Miss Neumann lived in the Kleine home years, paying \$13 a month and that in the time when she was represented as having

### JURY SAYS PROMOTERS

### TOOK LOTTERY FUNDS

Money Taken in by Father Cox 'Garden Stakes' Not Used for Charity, Indictment Charges.

By the Associated Press.

ERIE, Pa., April 7.—Release of an impounded indictment charging the Rev. James R. Cox and 13 others with using the mails to defraud, disclosed yesterday a charge that the money they raised in the \$25,000 "Garden Stakes" never was used for charity and "was never intended to be so used."

A Federal grand jury here said that the greater part of the money was "divided among certain of said defendants for personal use."

It also charged that only \$6000 was distributed in prizes, although it was represented \$25,000 was to be awarded. The first prize of \$10,000 and the second prize of \$4000 were not awarded, the jury said.

The indictment stated the religious medals sent to contestants were not personally blessed by Father Cox, as advertisements promised they would be.

On the award of prizes the indictment charged:

"In many instances relatives and friends of the defendants and numerous other persons appear as prize-winners, many of whom were not paid. In several instances defendants induced alleged prize winners to say they were paid when in fact they were not paid; all of which was further calculated to deceive bona fide contestants."

Indicted with Father Cox once led a march of jobless persons to Washington, were two alleged promoters, E. J. Clifford of Cleveland and Thomas Harkins of Pasadena, Cal.; Arthur G. Wicks and 10 men represented to have been ticket salesmen. All but two are under bond.

### MAN WHO SOLD MARIJUANA GETS TWO YEARS IN PRISON

Murrell Manner Pleads Guilty; Five Others Sentenced in U. S. Court for Various Crimes.

Murrell Manner, a waiter, 401 Olive street, was sentenced to two years in a Federal reformatory by United States Judge Charles E. Davis today, when he pleaded guilty of sale and possession of marijuana.

His attorney made a plea for probation on ground that Manner had been "trapped" into making the sale, but it was rejected by Judge Davis after Patrolman Francis P. Penn testified he had purchased a quantity of the drug from Manner for \$3.50 on his second visit to him in an Olive street saloon.

Elisha T. Bond was sentenced to one year and a day in a Federal penitentiary when he pleaded guilty of stealing 24 pairs of hose in interstate shipment. He formerly was a chauffeur for the Columbia City Committee.

Arrested in his home at Ste. Genevieve where a still was in operation, John D. Lampman was sentenced to 18 months in a Federal penitentiary when he pleaded guilty of violating liquor laws.

For the theft of five sacks of potatos from an interstate shipment, Stanley Panus, former truck driver for the Russo Products Co., was sentenced to six months in jail.

William S. Long of Hannibal and Dan Ruffin, St. Louis Negro, were sentenced to six months each in jail when they pleaded guilty of possession of liquor on which no tax had been paid.

### WAYS OF RAISING CHINESE WAR FUND IN U. S. DISCUSSED

On Leong Tong Holding Its Annual Convention With Delegates From 25 Cities.

A discussion of more effective methods for the collection of funds to aid the Chinese Government in its war with Japan and for the relief of refugees was continued yesterday at the annual convention of the On Leong Chinese Merchants' and Laborers' Association, at 20 South 1st street.

Members of the tong said to a Post-Dispatch reporter that about \$1000 a week was contributed by the 300 Chinese in St. Louis, and more than \$5,000,000 had been contributed by American Chinese since the war began.

About 120 delegates from branches of the tong in 28 cities are attending the convention, which is expected to continue into next week. The association's three-story building is decorated with American flags and bunting and the stairways and meeting rooms are draped in American and Chinese colors.

Attorney Tobin, representing the trustee, Meyer Hessel, said: "There was a well devised plan to conceal assets, but in my opinion it was not conceived by either of these two. The first instance of the plan was when Kleine legally adopted Miss Neumann as his daughter. Another was the transferring to her in November, 1935, of two-tenths interest in the estate of his brother, Louis Kleine."

The whole scheme was conceived by a person who knew the law, and these people are now in the predicament because of this legal advice. Apparently everything they did was at the direction of their counsel."

G. Morris, Assistant United States Attorney, said he wished to call the court's attention to the facts found by Government investigators. They had said, that Miss Neumann lived in the Kleine home years, paying \$13 a month and that in the time when she was represented as having

been advised, "she was having

difficulty in getting along with

the trustee in bankruptcy.

**J.K. ROWLAND NAMED  
HEAD OF RELIEF OFFICE**

Will Administer State Direct Aid and Old Age Assistance in St. Louis.

The State program of direct relief, old age assistance and aid to dependent children in St. Louis is now under the administration of John K. Rowland, 31-year-old trained social worker who was until recently executive agent of the St. Louis Board of Children's Guardians.

Appointed yesterday by the State Social Security Commission as secretary-administrator of its St. Louis office, Rowland succeeded Proctor Carter, assistant State Administrator for the commission, who came here last summer to organize the office. Carter has returned to duties at Jefferson City.

The new administrator had been an assistant to Carter since November, when the Board of Children's Guardians lent his services at the request of the commission. He assisted Carter in a program of reorganization to consolidate the three phases of State aid in one administration.

This reorganization, Rowland said to a Post-Dispatch reporter today, "is only started" and will be his most pressing problem. It was slowed down during the winter, he said, by demands on the office for investigation of the needs of the thousands of applicants for new WPA jobs created in view of increasing unemployment.

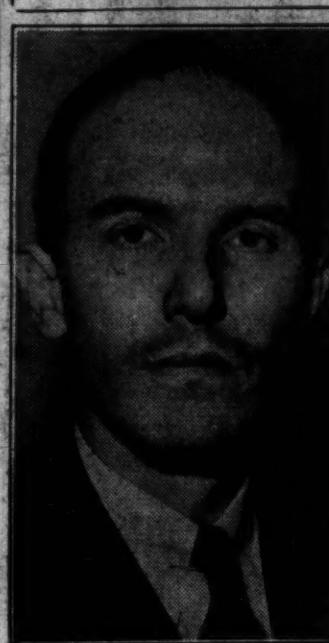

One Staff for Three Phases.

It is planned, Rowland explained, to have one staff of case workers manage all three phases of the program, with each worker handling the cases of direct relief, old age assistance and aid to dependent children in one district. The administrative office will be moved eventually from 2221 Locust street to the old City Hospital No. 2 at 2945 Lawton boulevard, where the hospital building is renovated.

Rowland will have the administrative responsibility for an extensive program. There are 19,300 persons in the city receiving direct relief, 3263 receiving old age pensions, and 661 families with a total of 1980 dependent children getting allotments under the third type of aid. The State will dispense about \$325,000 to these individuals this month.

The new administrator considers the aid to dependent children the most constructive part of the program from a social point of view. "St. Louis has, just as do other cities, a permanent body of unemployed which constitutes the bulk of the direct relief rolls," he said. "Those getting old age assistance

**Relief Director**

By a Post-Dispatch Staff Photographer.  
**JOHN K. ROWLAND.**

are nearing death, but the children who get help are of great importance socially."

**Advocates Trained Workers.**  
He expressed impatience with the popular accusation that social workers are impractical visionaries, remarking that the public assistance measures would have a better chance of success if put entirely in the hands of persons trained in social work.

Rowland has lived in St. Louis since he was a child, reared by an uncle, O. A. Rowland, a vice-president of the Mississippi Valley Trust Co. He was graduated from Notre Dame University in 1926 and did graduate study in sociology at St. Louis University. He joined the staff of the Board of Children's Guardians in 1932 and became executive agent in December, 1933. He is married, has one child, and resides at 5843 Carter avenue.

Baptist Women Meeting at Mexico.

MEXICO, Mo., April 7.—Mrs. George McWilliams of Kansas City, State president of the Baptist Women's Missionary Union, announced last night the members of the Golden Jubilee convention's nominating committee, which will recommend officers to serve the union in its fifty-first year. The committee: Mrs. Irving Bush of Clinton, Miss Sybil Pats of Kansas City, Mrs. W. W. Pollock of Mexico, Mrs. T. J. Mathis of Poplar Bluff, Mrs. F. M. Baker of St. Louis, Mrs. Carl Schneider of Atlanta, and Mrs. H. A. Young of Mountain Grove.

At the opening session of the Golden Jubilee meeting the union honored its first president, Mrs. O. P. Moss of Liberty, who served from 1877 to 1885.

CARBONDALE, Ill., April 7.—Plans are under way for holding the first annual music festival for Southern Illinois Normal University May 19. The festival will be under the direction of the recreational

projects division of the WPA and the music department of the Normal University.

High school bands from all the leading schools of Southern Illinois will compete in a band concert, and glee clubs, choral clubs, vocalists, violinists and harmonica players will

appear in the program. A baby show and a contest to select a queen from among young women representing several towns also will be held.

Prof. McIntosh, director of the department of music at the Southern Illinois Normal University, is in charge of the program.

**MONEY NEEDED FOR HIGHWAYS**

Chairman Says High-Speed Hazard Should Be Eliminated.

By the Associated Press.

KANSAS CITY, Mo., April 7.—Col.

Claude C. Earp, chairman of the Missouri Highway Commission, said

Col. Earp was here attending a

Tuesday additional road revenues routine meeting of the commission.

He also was guest speaker at a

## STATE UNDERTAKERS EXPEL 20 MEMBERS

Funeral Directors Dropped for  
Affiliating With Burial  
Societies.

Twenty undertakers were dropped yesterday from membership in the Missouri Funeral Directors' Association because they affiliated with burial societies in violation of the association's by-laws. Frank H. Niehaus, St. Louis, president of the association, announced this.

Niehaus said to a Post-Dispatch reporter that the executive committee took the action so there would be no burial society participants present at the organization's annual convention in Kansas City next month. Ten or 15 others will be expelled at another meeting in about two weeks, he said.

The undertakers' organization has been making an effort to eliminate

burial societies, which have been flourishing in rural Missouri, in return receive a promise that their funeral expenses or those of their dependents will be paid. In virtually all cases the undertaker who will provide the services is cited.

Attorney-General Roy McKittrick has suggested State supervision and regulation of the societies with provision for maintenance of such services and payment of death benefits in cash. The Better Business Bureau has advocated similar regulation.

Twenty-two members were cited to appear yesterday before the directors at Hotel Jefferson. Niehaus said none was present, but 17 sent letters telling why they were not able to be present. Most of them urged the board not to expel them, asserting the burial societies with which they were connected were "legitimate."

Two of the cited members resigned, one obtained a postponement of his hearing and the others were dropped from membership. The twentieth expelled was a director of the association, who had not been cited, but wrote saying he would resign from the board because he had recently affiliated with a burial association. Another director was also expelled, Niehaus said. Most of those who were expelled are in business in southeastern and southwestern sections of the State.

Members of the burial organiza-

## ACCOUNTANTS TESTIFY AT SHOE FIRM HEARING

Two Say New Hamilton-Brown  
Co. Head Has Good Grasp  
of Details.

Two public accountants testified today for the defense, in the receivership suit of stockholders against the Hamilton-Brown Shoe Co., in Circuit Judge William S. Connor's court.

The accountants, J. Harvey O'Connell and Thomas L. Perrine, told of examinations made by them of the company's plant and methods at the main office, and at plant in Union, Mo., at the instance of Presley W. Edwards, president of the shoe company. Their conclusion was that Edwards, a broker, was doing what was necessary to acquaint himself with the shoe business, and that he showed a good grasp of the necessary details.

The trouble started when an automobile occupied by union men forced another machine, in which three of the Negroes were riding, to the curb. Other men arrived on the scene and a knife and a piece of iron pipe were used as weapons. Policemen said the Negroes had worked on a moving job but became separated from a truck, which was being escorted out of the neighborhood by police.

Members of the St. Louis Van Owners' Association, meeting yesterday, voted to insist on a wage reduction to 75 cents an hour for drivers and packers and 70 cents for helpers. The union is demanding a renewal of last year's wage contract at 87½ cents an hour for drivers and packers and 82½ cents for helpers.

Four hundred movers went on strike last Friday, when the contract was not renewed, and subsequently voted to stay out until their demands were met. Both local and long distance moving is tied up. The union, Furniture, Piano and Movers and Packers Local 751, is affiliated with the A. F. of L.

Warrants for Two Independent  
Union Men at St. Charles.

Warrants charging common assault were issued at St. Charles late yesterday against Hubert Meyer and Paul Finch, members of the Independent Workers' Organization, as a result of the labor trouble at the St. Charles highway bridge.

The men are charged with participation in an assault on Owen L. Pemmer, business agent of an A. F. of L. laborers' union, in St. Charles Saturday after six Independent Workers had been stoned at the bridge. A hearing was set for April 22 before Justice of the Peace J. F. Mahon.

The Public Works Administration announced that Daniel A. Sullivan, of its labor relations staff, was being sent to St. Louis from Washington to investigate the strike on general construction jobs here, which was called by the Building Trades Council in an effort to force the employment of union men on the St. Charles bridge reconstruction.

Sullivan was instructed to report his findings to Washington. The bridge job, where disorders occurred last week, has been shut down by the contractor.

Actress Maxine Doyle wed.

By the Associated Press.

LOS ANGELES, April 7.—The marriage of Maxine Doyle, 22 years old, movie actress, and William Whitney, 21, a director, was disclosed yesterday by the bride's mother, Mrs. Laura Doyle. The wedding took place in Las Vegas, Nev., Monday.

NOMINEE USES ELECTION  
NOTICES TO AID CANDIDACY

T. F. Coonan, East St. Louis, encloses His Sample Ballot With  
Them and Defends Action.

Thomas F. Coonan, chief clerk of the East St. Louis Board of Education Commissioners, who is a candidate for the Board of Education in an election to be held Saturday, enclosed copies of his sample ballot in the official instructions received by judges and clerks of the 88 precincts today.

Coonan said to a Post-Dispatch reporter that he enclosed sample ballots in the instructions sent to two judges and three clerks in each precinct, explaining he was "using every means to secure election."

There are 15 candidates for four places in the school board election.

Coonan said to a Post-Dispatch reporter that he enclosed sample ballots in the instructions sent to two judges and three clerks in each precinct, explaining he was "using every means to secure election."

There are 15 candidates for four places in the school board election.

Members of the Board of Education have consulted their attorney in an effort to learn whether Coonan's act may invalidate the election. Superintendent of Instruction John A. Wieland has expressed the opinion it was incompatible for the chief clerk of the election board to be a candidate, asserting he may be called on to decide a disputed election. Coonan replied that a close contest would be decided by the Election Board and not by him.

The election will be held Saturday, April 14.

Use of New Propeller Produces  
Gain, Along With Reduction  
in Noise.

By the Associated Press.

NEW YORK, April 7.—United Air Lines announced last night that effective immediately it would increase the speed of its airliners to 205 miles an hour, or 25 miles an hour more than the cruising pace in the past.

Using only 60 per cent of available power, President W. A. Patterson said the transports would be capable of flying from Chicago to New York in less than four hours and of making three-stop transcontinental flights in less than 15 hours.

The gain in speed, he explained, was due to the use of new type propellers and two (Wasp) motors with an aggregate of 2100 horsepower. By gearing down propeller speeds, a 15 per cent reduction in cabin noise was accomplished. The new propellers are still on the United States Navy's "secret list."

## TWO HURT IN FIGHT OVER MOVERS' STRIKE

Police Break Up Melee in  
Street; Book 7 Union Men  
and 5 Others.

Two men were injured yesterday in a street fight at 5400 Page

Blvd., which resulted from the strike of union furniture movers.

Policemen broke up the melee and booked seven union movers,

four Negro non-union movers and a man who said he was a bystander for police court appearance on general peace disturbance charges.

The injured men were Harry Davis, a union mover, 5023

Maple avenue, cut over the left eye, and King Jones, Negro, 4241

Garfield avenue, scalp wounds.

The trouble started when an automobile occupied by union men

forced another machine, in which three of the Negroes were riding, to the curb.

Other men arrived on the scene and a knife and a piece of iron pipe were used as weapons.

Policemen said the Negroes had

worked on a moving job but became separated from a truck, which was being escorted out of the neighborhood by police.

The action was the outgrowth of

the strike of union furniture movers.

Police court records disclosed

COLLEGE BOARD FIRES MAN  
FOR WHOM STUDENTS STRUCK

Kalamazoo Trustees Also Accept

Resignation of Dr. S. G. Cole,

President.

By the Associated Press.

KALAMAZOO, Mich., April 7.—

The Kalamazoo College board of

trustees announced last night after

an all-day meeting that it had ac-

cepted the resignation of Dr. Stew-

art Grant Cole, president, and that

the contract of Dr. Carey K. Ga-

mong, professor of economics,

would not be renewed.

The action was the outgrowth of

the strike of union furniture movers.

Police court records disclosed

a student strike which started last Dec. 13 and lasted three days. At that time the students made their demonstration when it became known the president had decided against retention of Dr. Ganong, a popular professor.

Dr. Ganong, Canadian citizen but

a member of the faculty four years,

said his status as an alien was given

as the reason for his dismissal.

The strike ended when the presi-

dent announced the case would be

referred to the board of trustees.

Wife Sues Col. Robert Morse.

### REAL & McNAMARA CO. FILES BANKRUPTCY PETITION

Painting Concern Lists Assets at  
\$15,776 and Liabilities at  
\$77,338.

The Beal & McNamara Painting Co., 5078 Easton avenue, filed a voluntary petition in bankruptcy yesterday in United States District Court, listing assets of \$15,776 and liabilities of \$77,338.

The financial difficulties of the concern, which engaged in a paint contracting business, were attributed to the depression by the company's attorney, Otto Fleckman, who said it had made no money since 1923 and that its officers, who have drawn no salaries since 1923, personally advanced the firm money to keep it operating.

Liabilities listed in the schedules include claims of Oscar H. Beal, president-treasurer, for \$8273 salary due and \$3500 for funds advanced to the company, and claims of Andrew J. McNamara, vice-president, for \$14,215 salary and \$3500. Assets include \$6169 in stocks and bonds, \$2209 due on open ac-

ccts, merchandise, \$1000, and a claim on a contract for \$6107, pending in litigation at Memphis, Tenn.

Relief Levy on East Side Out.

The East St. Louis Township Board approved a tax levy of 30 cents a \$100 of assessed valuation for relief purposes yesterday, a reduction of 16 cents from the 1937 levy. Board members said the 46-cent assessment last year was made necessary by outstanding bills, now paid. The 1938 levy, expected to yield about \$160,000, will be collectable next spring.

This Beauty Secret

comes From A Doctor

A gentle balm producer might help\*

These women don't need beauty parlor,

our doctor will tell you that some

complexions and plump skins are

only matters for cosmetics. Because

skin blemishes are aggravated by

Dr. F. M. Edwards, during his years

practicing, treated hundreds of women

constipation and frequently noted

marked improvement in their ap-

pearance. He used a purely natural

laxative—Dr. Edwards' Olive Tab-

poumd. This laxative is gentle, yet pec-

uliarly effective because it increases the

flow without shocking the intesti-

nal system. Try Dr. Edwards' Olive

Tabpoumd. At all druggists, 15c, 30c and 60c.

All druggists require a special

order to aid in the digestion of fats and

oils. Dr. Edwards' Olive Tab-

poumd. This laxative regularly contains a special

## THE NEW MOVIES IN ST. LOUIS FOR THIS WEEK

PRE-EASTER PROGRAMS  
OF COMEDY AND MUSIC

"First Hundred Years" to Loew's, Bobby Breen's Latest to Fox.

WITH "The Goldwyn Follies" in "Old Chicago" and "College Swing" nominated to Easter attractions at major St. Louis film houses, the last week of Lent beginning tomorrow, finds the Ambassador, Missouri, with continued-run programs. Loew's with a new double bill and the Fox with a new picture feature and stage show.

Loew's main attraction will be a domestic comedy, "The First Hundred Years," starring Robert Montgomery and Virginia Bruce as husband and wife. He is a yacht designer, she a theatrical agent who makes more money than he. When he gets a new contract, he asks that she give up her job. She refuses and they are started on a separation that leads to many comedy situations. The screen play is from an original story by Norman Krasna. In the cast are Robert William, Blanche Barnes, Alan Dinehart, Harry Davenport, Lydia Westman and E. E. Clive. Richard Thorpe directed.

The second picture coming to Loew's, "Little Miss Roughneck," features Edith Fellows as a child vaudeville singer who gets a movie contract and causes the studio no end of trouble. Her major stunt is to fake her own kidnapping and write her own ransom notes. In the course of her adventures, she meets up with a good-natured Mexican, played by Leo Carrillo, who succeeds in teaching her to behave herself. Miss Fellows, who has been in movies most of her life and who has appeared in some 200 feature pictures, scored her first big hit as the brat in "She Married Her Boss."

In "Little Miss Roughneck," she brings several songs, including "La Golondrina," "Caro Nome," "The Wren" and "As Long as I Love." Supporting players are Scott Colton, George McKay, Jacqueline Wells and Thurston Hall.

Bobby Breen in "Hawaii."

Another child star, Bobby Breen, is the star of "Hawaii Calls," the Fox's film offering. As a San Francisco boy, Bobby and a Hawaiian pal, Pua Lani, stow away on an ocean liner bound for Honolulu, escaped the port authorities and soon found involved in a spy plot and kidnapping. Bobby Breen finds time, nevertheless, to sing "Aloha," "Macauhili," "Song of the Islands," "Hawaii Calls," "Down Where the Trade Winds Blow" and "That's the Hawaiian in Me."

Much of the action was photographed on location, aboard a Pacific steamer and in the Hawaiian Islands themselves. Views of the Pali, famous 1000-foot cliff, Waikiki Beach and the Oriental quarter of Honolulu are all authentic. The screen play is from the novel, "Stowaways in Paradise," by Don Blanding, so-called "poet laureate of Hawaii."

The Fox stage will be given over to radio entertainers from station KMOX. Among these are Pappy Cheshire, Al Cameron and Joe Karnes, the Six Harmonettes, Lorraine Grimm, the Ozark Mountainers, Harry Cool and Clark Sparks. An extra attraction on the program is the April issue of "The March of Time." Its two subjects are the development of Key West as a tourist city and the present status

of the Hawaiian in Me."

FILM TITLE CHANGES  
ALL FOR GOOD REASONS

Repetition, Censorship and Many Other Pitfalls Avoided.

Special to the Post-Dispatch  
HOLLYWOOD, Cal., April 7.—Two or three words may be worth a fortune in Hollywood.

The may be simple words. They may constitute a slang phrase or a quotation. They may be almost any combination, if they happen to strike the fickle fancy and unpredictable imagination of Mr. and Mrs. General Public.

"Titles of screen plays are among the most important factors and sometimes offer trying problems to the makers of screen entertainment."

Authors frequently complain because the titles of their books, plays or stories, are changed in translation to screen drama. Pictures go into production under one title, emerge under another. Title changes afford one of the puzzles of Hollywood.

Every change in title is made for definite reason. Foremost, of course, is the idea that a new title may have more "box office" appeal. Occasionally studios discover that a title has already been used in a book, story, or perhaps a silent picture of years ago. Sometimes the Hays organization objects to an author's title and a substitute must be found.

Again the original title fails to suggest the intent of story. A title containing foreign words is always undesirable.

Suggestions at Studio. Studio workers are requested to

suggest new titles. Sometimes, as in the case of "Of Human Hearts," a national title contest is staged. Sometimes the script writer, producer, or director, conceives a new title.

A foreign word usually means title trouble. As an instance, "Mile, Froufrou" was the original title for Metro-Goldwyn-Mayer's new picture starring Luisa Hainer. Americans thought it was spelled with two words, as "Frou-Frou."

French technicians said it was a single word. People pronounced it differently. The title was changed to "The Toy Wife."

"Madelon" is another instance.

The picture, with Wallace Beery and Maureen O'Sullivan, was a French seaport story.

"Madelon" suggested the French

wartime song, also "The Sin of Madelon Claudet."

Accordingly the picture will be released as "The Port of Seven Seas."

"Benefits Forgo" was the title of the pioneer Ohio drama directed by Clarence Brown, with Walter Huston, James Stewart and Beulah Bondi. Then a newspaper columnist, hearing the title over the telephone, printed it "Benefits of God." Studio officials promptly took cognizance. If the title could be so misunderstood, they argued, a new title was necessary. The national radio title contest resulted that gave it the title, "Of Human Hearts."

Similarly Avoided. "Wooden Wedding" was changed to "The First Hundred Years," because it was too similar to "Double Wedding," recently released. "The Ugly Duckling" suggested the Hans Anderson fairy story, so the picture became "Everybody Sing."

"Mme. Walewaka" was the title of Garbo's latest picture, until it was found not one person in 10 knew how to pronounce the word. Then it became "Conquest."

"A Family Vacation" was the title of the second "Judge Hardy Family" picture in the series. Then Alex Hyde

wrote a song for it, entitled "You're Only Young Once." This title proved so catchy that the producer substituted it for the other title.

"Slipping" the first of this same series, was the title of Aurora Rouvel's original play on which it was based. It intimated that the story dealt with failure in life, whereas Lionel Barrymore played anything but that, so "A Family Affair" was substituted.

"A title often is vital to the success of a picture," explained Harry Rapo, veteran producer. "It's as important to choose with care, for a good title as for a good script."

A title that suggests the story, intrigues popular imagination and creates an interest, is the ideal, of course. It is remarkable how many times the studio achieves it."

SCENARIO ON CHINESE WAR RUNS AFoul OF CENSORSHIP

Shanghai Correspondent of Walter Abel Gets Orders to Desist.

Special to the Post-Dispatch  
HOLLYWOOD, Cal., April 7.—Military censorship has clamped down on, and at least temporarily suspended, what is probably the longest-distaned scenario collaboration in screen history, between Walter Abel, the actor, and a female fan whose current address is Shanghai.

Month ago Abel began receiving fan letters from a girl of Spanish parentage who was then living in Manchukuo. Impressed by her command of English and apparent literary ability, the actor struck up a correspondence with her. The girl at length expressed the desire to become a scenarist or novelist.

Upon his suggestion she subsequently sent him first drafts of a story laid on the Sino-Japanese battlefield, asked him for criticisms and suggestions. Thus began a 6000-mile collaboration on a scenario which proved so promising

**SENATOR FRAZIER AGREES TO SERVE IN TVA INQUIRY**

One Vacancy on 10-Man Body Remains, With Davis of Pennsylvania Reported Slated for It.

**BRIDGES, WHO WANTS JOB, IGNORED SO FAR**

Donohey of Ohio Accepts Place, Saying Report Can Be Made on or Before Jan. 3, 1939.

By the Associated Press.  
WASHINGTON, April 7.—Senator Frazier (Rep.), North Dakota, announced today he would accept membership on the joint congressional committee to investigate the Tennessee Valley Authority.

Frazier's acceptance left only one vacancy on the 10-man body, with Senator Davis (Rep.), Pennsylvania, reliably reported as slated for the remaining appointment, to be made by Vice-President Garner.

Frazier said he was not anxious for the job, but felt "some one has to do it."

**Capper Too Busy.**  
Garner selected Senators Capper of Kansas and Frazier yesterday to be the Republican members on the Senate's half of the group, but Capper said he was too busy to serve.

Capper and Frazier were chosen to replace Senators McNary (Rep.), Oregon, and Borah (Rep.), Idaho, who had resigned immediately after their appointment.

"I have been trying to appoint a non-partisan committee and give Republicans fair representation," Garner said of the situation. "All I can do is to offer the appointments."

Garners thus far has ignored Senator Bridges (Rep.), New Hampshire, an openly receptive candidate who has attacked TVA in Senate debate.

**Ohioan Sees Big Job.**  
A Democrat, Senator Donahey of Ohio, who had been undecided whether he would serve, advised Garner he would accept the appointment.

"I am convinced that the joint committee named can and will make a thorough investigation without fear of favor and report their findings to Congress on or before Jan. 3, 1939," Donahey said, in telling reporters of his acceptance.

His statement was at variance with a prediction by Senator Norris (Ind.), Nebraska, that the TVA investigation could be speedily completed, possibly before this session of Congress adjourns. Senator Schwartz (Dem.), Wyoming, previously had notified Garner he would serve.

Another Democratic member, Senator Brown, said at his home at Somersworth, N. H., where he has been for a week, that he was willing to serve.

**FATHER HEARS FROM SON, HELD BY BEDOUINS FOR 15 YEARS**

Man, Victim of Turkish Raid in Armenia, Finds Parent in U. S. After 30 Years.

By the Associated Press.

**FRESNO, Cal.** April 7.—Mause Kalfayan left his wife and their 2-year-old son, Mosek, in a village in Armenia 30 years ago and emigrated to the United States to establish a new home. Before he could obtain enough money to send for his family the village was raided by Turkish soldiers and its 22 families killed or driven into the mountains. From missionaries Kalfayan heard his wife died of starvation but it was not until yesterday that Kalfayan learned what had happened to his son.

In a letter mailed from Jerusalem, the son told his father he was kidnapped by a tribe of Bedouins who held him captive 15 years. He said he managed to escape about nine years ago and made his way to missionaries who aided him in his attempts to find his father.

"He wants to come to America, but I have no money," said Kalfayan. "I can send him a little, maybe, but not enough to come here. I will write to him and tell him I would like to have him with me."

**HOOVER CONTINUES ATTACKS AGAINST REORGANIZATION BILL**

Roosevelt Administration's Proposals "Are the Attitude of Fascism," He Says.

By the Associated Press.  
**SAN FRANCISCO**, April 7.—Herbert Hoover returned to San Francisco today after his European tour and repeated his opposition to the Roosevelt administration's reorganization plan.

He denied that it was similar to a measure he once advocated and said, "You can't say it's Fascist, but it is fair to say it's in the attitude of Fascism."

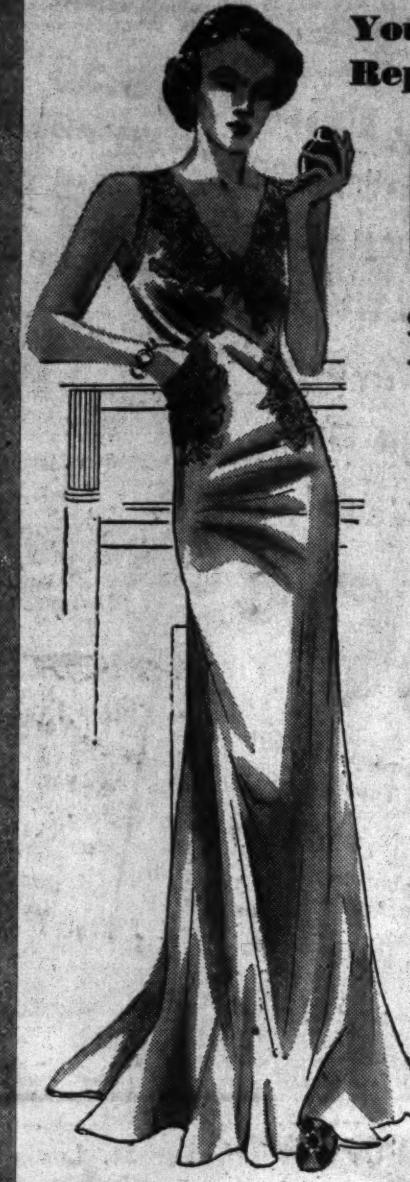

He commented that "the greatest danger here (in the United States) lies in direction; the present direction is the same as in every state in Europe that has lost its democracy as a result of economic misery, and the actions antecedent to that are a mixture of Government interference, Socialism, Fascism and various tendencies that demoralize the economic system."

DEAN P. RAMPOLA P.  
Umpires—Moore and Sears.

By a Special Correspondent of the Post-Dispatch.

ALBANY, Ga., April 7.—Dizzy Dean went to the mound here this afternoon as the Cardinals again met their Albany farm of the Class D Georgia-Florida League. The Redbirds were seeking their fifth straight spring training victory.

Frankie Frisch's Gashouse Gang was to have met Columbus, Ga., this afternoon, but heavy rains there brought about a cancellation.

Terry Moore was given another chance at third base. Herb Bremer was catching Dean's slants and Don Padgett played center field.

Rampola was the starting Albany hurler and Rhawn the catcher.

Twenty-two of the St. Louis Cardinal clan combined efforts here yesterday in an easy 7-2 victory over Albany.

Able to gain but one run during the first four innings off Albany's Hank Nowak, young right-hander, just starting his second year in the game, the Gas Housers swung well ahead in the fifth with four tallies on four hits at the expense of hurler Steven Vargo and went on, with a complete change of cast, to run up their comfortable final margin.

Albany had garnered but one run on a total of five blows in six frames of the Cards' starting moundsman, Bill McGee, who is expected to be a regular starter for the gang this season when he was relieved in favor of Ray Harrel. Working the last three innings, Harrel was touched for five singles and another marker in the eighth.

Stu Martin's right field double and Slaughter's single gave the Cardinals their first tally in the first inning.

After three hitless rounds, Johnny Mize cracked out a triple high on the right field bank of Albany's sunken park, and, after Padgett's free ticket, sauntered on in Peppermartin's two-bagger to the middle garden. Mickey Owen continued the onslaught against Vargo with a single.

McGee's sacrifice advanced Mickey to second and he went the rest of the route on the multiple error of Albany's Haney, who had replaced Manager Johnny Kean at shortstop after the latter had dislocated a rib sliding into third on his three-bagger in the third.

Padgett got a double following Medwick's single in the sixth, and an Albany miscue sent Medwick across the plate with the sixth score.

In Albany's turn of the same frame came the first Traveler tally. Haney, taking base and rounding to second on Moore's boot, came home on Bob Joratz's double.

Single runs were added by the contenders in the eighth. Two walks in a row sent Mize to second, and Moore's double gave the necessary scoring impetus. Slaughter had opened the inning with a double and a steal to third, but was caught napping at the corner a few moments later by Pitcher Bess.

With Harrel on the mound, Haney singled and advanced a lap on Mike Ryba's passed ball. Eddie Murphy's bingle put him home.

Albany's outfields, Joratz and Bill Endicott, distinguished their play with some spectacular catches on the steep slope of the Traveler bowl. Endicott robbed Padgett of an extra-base knock in the second by snaring the sphere after he had fallen flat on the incline. Joratz, backing into the bank, took a seemingly sure double off the bat of Slaughter after having tripped himself into a sitting position.

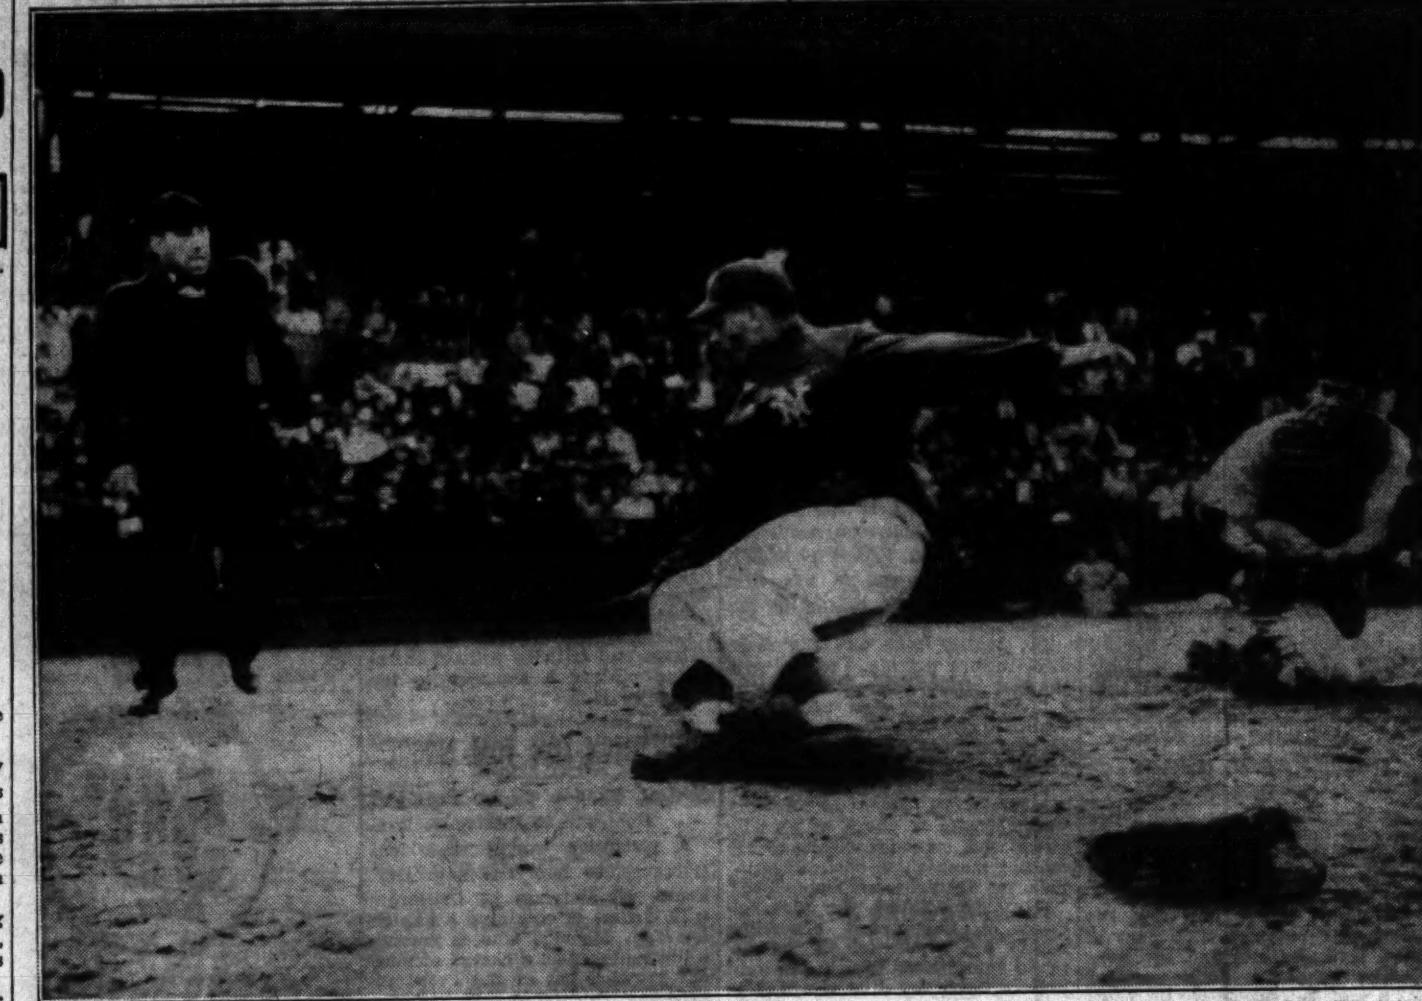

WASHINGTON U. AND CONCORDIA NINES STOPPED BY RAIN

Washington University and Concordia Seminary may have to wait until Saturday to open their 1938 collegiate baseball season. The schools tried to get started yesterday afternoon at Washington, but rain took a part in the contest and after the teams battled three innings to a 1-1 score it was decided to call the whole thing off.

Concordia is scheduled to play Eden Seminary tomorrow on the Concordia field, but it is doubtful that the teams will be able to play.

Saturday, Washington U. at Forest Park, while Concordia is due to meet the University of Iowa nine on the Seminary field.

## Cleveland Forfeited When This Run Scored

—Associated Press Wirephoto.  
Hal Schumacher is shown sliding across the plate with the fifth run for the Giants in their practice game with Cleveland at Longview, Texas, yesterday. Cleveland protested that Joe Moore's long fly which scored Schumacher should have been ruled an out but Umpire Tobin, shown at the plate, held that ground rules made Moore's drive a two-bagger. The Indians refused to accept the decision and walked off the field. Score was 5-4, in favor of the Giants.

## HAWKS ORDERED TO USE GOODMAN IN GOAL TONIGHT

By the Associated Press.

TORONTO, April 7.—Frank Calder, president of the National Hockey League, today notified the Chicago Blackhawks they could not play Alfie Moore as goalkeeper during the rest of the Stanley Cup final playoffs against the Toronto Maple Leafs.

Moore, drafted from the Pittsburgh club of the International-American League just before the opening game of the final playoffs Tuesday night, was hero of the Blackhawks' upset 3 to 1 victory that night. He had been summoned hurriedly as replacement for injured Mike Karakas, regular Black Hawk goalie, when the Leafs declined to let Chicago use Dave Kerr of the New York Rangers as a substitute.

Calder's decision today was based on the fact that the Black Hawks' regular spare goalie, Paul Goodman, was on hand and ready for duty in the game here tonight.

"Does that mean it looks like first division?" we ventured.

"Well, it looks like with pitching we're going to be hard to beat. If we get the pitching I expect and the co-operation of the players we have the men to make it tough. We've got good hitting—four men in clean-up positions all real hitters. They're Kress, Bell, Clift and West. Mills is a dangerous hitter and every day we have run-making power. And that wins games."

• • •

"THEY'RE NOT TO BLAME, ALTOGETHER," Gabby continued. "Part of the fault lies with the business offices of most baseball clubs. They drag in averages too often when arranging salaries with players."

"WHY, YOU ONLY BATTED .300 THIS YEAR AND THAT'S 10 POINTS LOWER THAN YOU HIT THE YEAR BEFORE," Gabby told the player. "OR, 'YOUR SEASON'S PERCENTAGE DROPPED TO SEASO—LAST YEAR.' OR, 'YOUR PERCENTAGE OF WINNING GAMES WAS LOWER LAST YEAR.' THAT'S—NOT OUR BASEBALL PLAYER, WHAT HE IS."

"WE'VE GOT THE MARKINGS," Street observed. "ALL WE NEED IS TO PLAY TO WIN, AND NOT FOR AVENGESES. I WANT A TEAM THAT, BY FIGHTING CAN WIN A LOT OF THOSE CLOSE ONES. A FEW YEARS BACK THE GIANTS GAINED SOMETHING LIKE 18 VICTORIES BY ONE RUN. A TEAM LIKE THAT IS A BALL CLUB. THAT TAKES CO-OPERATION, NOT PLAYING FOR AVENGESES."

• • •

"AS FOR EXAMPLE?" we suggested.

"WELL, IN ONE OF OUR GAMES HERE WITH ENEMY RUNNERS ON FIRST AND SECOND, THE BATTER LAID DOWN A SACRIFICE. SULLIVAN RAN OUT, GRABBED THE BALL AND THREW TO THIRD TO HEAD OFF THE FRONT MAN. HE FAILED, BUT I THOUGHT THE PLAY WAS THE RIGHT ONE. BUT OUR PITCHER CRABBED BECAUSE SULLIVAN DIDN'T PLAY THE SURE THING AT FIRST. THAT PITCHER, IN THE CHAMPIONSHIP SEASON, MIGHT FIGURE SUCH PLAYS WOULD TEND TO HURT HIS EARNED RUN AVERAGE, AND GET SORRY. THAT'S THE WRONG SPIRIT."

Sullivan proved he was the kind of a player who plays to win.

85 ST. LOUIS ELKS LEAVE TOMORROW FOR MILWAUKEE PIN MEET

Eighty-five members of the Elks Bowling League will leave for Milwaukee tomorrow afternoon to compete in the National Elks Bowling tournament there. Col. C. K. Summersby in charge of the group, announced today. The trip will be made on a special train of the Chicago & Eastern Illinois Railroad.

172 GET PRIZES IN CITY DOUBLES EVENT

There were 172 doubles prize winners in the annual Greater St. Louis Bowling Association's tournament which finished its thirty-five event last Sunday. Harlen Hansen and Frank Ott, who won the two-man event with 1419, topped the money winners with \$70.

Alfred Dubach and Henry Schmitt finished second with 1358 and won \$65, while Ray Parks and Ray Cotterill, with 1344, earned \$60. The winning pair also received gold medals.

A total of 703 teams competed in the doubles.

## CWRAY'S COLUMN

As the Old Sarge Sees It.

SAN ANTONIO, Tex., April 7.

GABBY STREET is in rare good humor at present, and we thought the occasion ripe for a frontal attack. After looking over his infantry and heavy artillery for one month in camp, it seemed natural to believe that the Sergeant—pardon, its "Colonel" (in Texas) now—would have a line of men.

"WHAT DO YOU THINK OF YOUR TEAM AT THIS TIME?" we asked.

"Well, we're not the best team in the league; neither are we the worst."

It was pointed out that the betting fraternity didn't agree with Gabby on that last thought; we wondered where he figured his club would finish.

"Well, I don't concede anything to the Red Sox, and you boys are all picking them to finish fourth."

"Does that mean it looks like first division?" we ventured.

"Well, it looks like with pitching we're going to be hard to beat. If we get the pitching I expect and the co-operation of the players we have the men to make it tough. We've got good hitting—four men in clean-up positions all real hitters. They're Kress, Bell, Clift and West. Mills is a dangerous hitter and every day we have run-making power. And that wins games."

• • •

"WHAT ELSE DID HE HAVE?" Gabby continued. "THE OLD SARGE HAD THAT AT HIS FINGER TIPS. HE HAD:

"THE BEST CONDITIONED SQUAD HE EVER DEVELOPED, NOT A SORA ARM IN THE LEAGUE."

The making of a fine defensive and offensive outfit.

Starting pitchers, including a left-hander, two fair catchers and a whole bunch of an outfield.

"WE'VE GOT THE MARKINGS," Street observed. "ALL WE NEED IS TO PLAY TO WIN, AND NOT FOR AVENGESES. I WANT A TEAM THAT, BY FIGHTING CAN WIN A LOT OF THOSE CLOSE ONES. A FEW YEARS BACK THE GIANTS GAINED SOMETHING LIKE 18 VICTORIES BY ONE RUN. A TEAM LIKE THAT IS A BALL CLUB. THAT TAKES CO-OPERATION, NOT PLAYING FOR AVENGESES."

• • •

WNS' GAME  
BECAUSE OF  
OLD WEATHERDowns Release  
Benny Huffman  
To Baltimore

TCHER BENNY HUFFMAN today was sent to Baltimore of the International League on option by the Chicago Casper, publisher announced. Huffman was signed by Rogers by last year after the team showed such excellent play at Hot Springs, Ark., and continued the good at the Browns' spring camp and was retained for the 1937 season. Release of Huffman leaves Browns with only two players for the 1938 season are Billy Sullivan and Jim Heath.

Special Correspondent of the Post-Dispatch.

ANTONIO, Tex., April 7.—The Chicago Cubs begin their "traveling series" with Downs here tomorrow, they the St. Louis club weakly by the loss of older Sammy West. X-ray taken yesterday following benders' mixup with line-up Monday's game with revealed that the bone had popped at the first joint on finger of his right hand, game with Toledo was because of cold weather. Older Street, who inspected and discussed its seriousness. Trainer Bob Bauman, definitely today that he not use West in the Cub starting tomorrow. Making No Chances.

broken finger's a broken finger, I'll not take chance of aggravating injury by letting West instead. Ethan Allen will left-hand pitchers and benders will be used in cases against right-hand pitchers.

while West protested, saying, "I've gotta play against myself, I want to keep in shape to see our team win." I want to keep in shape to see our team win." I shook his head in the and said: "All I hope is I'll be ready for the opening American League season April 19. Then again, unless one team has taken time out, substitutes and the scorer's horn must wait until play is resumed."

Osvald Tower of Andover, Mass., editor of the National Basketball Committee of the United States and Canada, who announced the changes, said the "brakes" were applied to allay the "apprehension of many" that the game's increased speed was detrimental to the athletes.

"All our reports, however," Tower said, "and our studies and research showed that no harm had developed from the present speed of the game."

The additional time-out had been added, he said, to provide any necessary extra rest for the players.

The same object brought insertion of optional play by quarters for the colleges. Under the new rule, games played by quarters must have two-minute rest periods between the first and second, and between the third and fourth quarters. The 15-minute half-time period was unchanged.

## COACHES APPLY "BRAKES" TO "RACEHORSE" BASKETBALL

TIME-OUTS ARE  
INCREASED; MAY  
PLAY QUARTERSSchool Games to Have  
Only One Overtime Pe-  
riod—Substitutions After  
Score Are Limited.By the Associated Press.  
CHICAGO, April 7.—The Rules Committee of the National Association of Basketball Coaches yesterday applied two "brakes" to last season's "racehorse" game.

The committee increased to five the permissible number of time-outs for the college game and provided for optional use four 10-minute quarters instead of the usual 20-minute halves.

The "three-second rule," used last season by National A. A. U. teams and recommended unanimously by the coaches, also was adopted.

Other rule changes approved included: Optional use of a four-foot, instead of a two-foot, out-of-bounds margin behind the face of backboards and barring of substitutions after a goal is made until the ball is back in play.

Rules Conform.

The outer half of the foul circle was exempted from present provisions of the "three-second" rule in the case of a player who does not have possession of the ball, bringing the collegiate regulations into accord with those of the A. A. U.

The change eliminates last season's penalty for lingering in the area by players without the ball. The rule remains unchanged in regard to players having the ball.

For high school games, next season's rules on ties will make the overtime period a "sudden death" session. The first team to score two points, either by a field goal or two foul goals, will be the winner.

However, should the team play through the three-minute extra period with only one point being scored, the team making the point will be the victor. In addition, the time between the close of regulation time and the start of the overtime will be increased from one to two minutes. Officials also will be instructed to take a time out in the second and fourth quarters provided no time out has been called by either team during the first four minutes of play.

To Allay Fears.

The practice of making substitutions during the brief interval between the scoring of a goal and putting the ball back in play, which Tower said the committee found in frequent use last season, will be banned next year. Unless one team has taken time out, substitutes and the scorer's horn must wait until play is resumed.

Osvald Tower of Andover, Mass., editor of the National Basketball Committee of the United States and Canada, who announced the changes, said the "brakes" were applied to allay the "apprehension of many" that the game's increased speed was detrimental to the athletes.

"All our reports, however," Tower said, "and our studies and research showed that no harm had developed from the present speed of the game."

The additional time-out had been added, he said, to provide any necessary extra rest for the players.

The same object brought insertion of optional play by quarters for the colleges. Under the new rule, games played by quarters must have two-minute rest periods between the first and second, and between the third and fourth quarters. The 15-minute half-time period was unchanged.

Silver Seals Take

Classic Pin Lead

Defeating the Club Plantations in two of three games and rolling a score of 3008, the Silver Seals broke a tie for first place and went into the lead in the Classic Wednesday League at the Gravols Recreation. The Seals lost the first game by one pin, 1012 to 1013, but won the next two with scores of 1015 and 981, against 912 and 880.

The Witeks, with a count of 2785, made a clean sweep of their match with the Mystery Men, who totaled 2911. The Hermanns lost two games to the Say It With Flowers and the Budweisers won two from the Alhoffs in the other matches.

High individual three games went to Fred Taff of the Witeks, who topped 645, and high single to Charles O'Donnell, Alhoffs, 268.

RESULTS.

SPARTANBURG, S. C.—General Manager Warren C. Giles, seeking to bolster the Cincinnati Reds' outfield, has made overtures to the New York Yankees for Ernie Koy. But the Ruppert Riffles' possibly with a view to Joe DiMaggio's continued holdout siege haven't yet committed themselves on the rookie.

Test for Bridges.

LAKEPLAND, Fla.—Tommy Bridges, Detroit right-hander, gets a chance today to see if a chipped elbow bone interferes with his pitching. He's slated to start against the Toronto Maple Leafs of the International League, his

SEMIFINALS OF  
OZARK SOCCER  
SERIES SUNDAYThe Cup and the Lip.  
In the recent Masters tournament in Augusta, Ga., Horton Smith missed three 18-inch putts.

HIEER up, ye dubs, oil up your clubs

And to the stars say "nuta" The Prince of putters, Horton Smith, fell down on three short putts.

Just one of those family rows see where two Senators nearly came to blows in Washington the other day. They were not members of Griffith's team, however. The baseball boys have cut out the rough stuff.

Jimmy Webb, who recently secured his freedom from the Cardinal chain gang, sold himself to the Indians. Don't know what Webb's net profits were but Cy Slapnicka said he cost the Indians plenty.

"Muddy" Ruel, coach of the White Sox, says he believes no other American League team will be able to match the Sox for speed this season. Going to make a runaway race of it, are they, Herald?

A BURST of speed is quite okay, A fact we'll not deny For runs it often paves the way— But, oh, you batting eye.

And now they are hinting at another tune-up fight for Joe Louis before his match with Schmeling. That's milk in them that coconuta.

Pitchers often win their own games with a timely hit but Bobby Jones has no luck in winning his own.

Joe DiMaggio is baseball's No. 1 holdout. Which seems to be Jake with Col. Jake, who is now listed as the No. 1 waiter-outer.

When Lou Gehrig signed it seemed to put Jake in the driver's

seat. But that doesn't mean a lot, as baseball is famous for its back seat drivers.

Tst! Tst! Strengthened by the addition of four stars of the Muny champion Schumacher club, semifinalists in the Ozark A. A. U. soccer championship tournament meet at Walsh Stadium Sunday afternoon at 2 o'clock in a double-header which should bring out some interesting football. The Zeltmans will be favored strongly to advance to the final over St. Margarets in the first game, but the second match, between Baltimorers and Moloneys is regarded as a toss-up.

The fact that Bill Schuler will be at center forward for the Mooneys' tandem, sold himself to the Indians. Don't know what Webb's net profits were but Cy Slapnicka said he cost the Indians plenty.

Jimmy Wilson pulled a Mike Ryan and pitched the ninth inning of an exhibition game down in Monroe, La. However, Jimmy has no intention of tripling in brass as manager, pitcher and catcher.

Jimmy yielded one ball, three hits, including a home, and three runs during his tenure on the mound. Not so impressive.

Gene Sarazen has taken his ball out and retired from Ryder Cup competition. Gene thought it was his turn to be captain and decided not to serve any longer as a private in the ranks. It's the old army game.

Sam Baugh made his bow at the first on the Columbus Red Birds Tuesday afternoon. From Redbird to Red Bird is a short flight.

THERE'S nothing in a name, they say.

But Slingin' Sammy Baugh No matter where he has to play The customers will draw.

The opening game against the Cardinals one week from next Tuesday, but his knee so badly he may be unable to play for some time.

Liquid Liabilities.

After Monday's exhibition at Barstow, Cal., the citizens showed their hospitality to such an extent that some of the athletes failed to side-step liquid refreshments and were feeling playful when they boarded their three Pullman cars late that night.

Six gathered in a smoking compartment and a friendly wrestling match developed. Bauers, reports said, proved to be so powerful that his five companions were needed to pin him upon the linoleum. He wrenched the knee falling.

Traynor refused to name those

first service since he hurt his arm nearly two weeks ago.

Camilli in Slump.

CLEARWATER, Fla.—Brooklyn officials, with time to reflect as the Dodgers took a day off before breaking camp tomorrow, were wondering when Dolph Camilli would be living up to his reported purchase price of \$75,000. The former Phils' first baseman has an average of .116, on five hits in 43 times at bat. He left seven men stranded yesterday, as Brooklyn lost its seventh straight to Detroit.

Youthful Age.

ORLANDO, Fla.—Owner Clark Griffith was putting the accent on youth when his Washington Senators reported here six weeks ago. Today, as the Nats squared off against the Boston Bees, rookies prospects had gone glimmering and old-timers Ossie Bluege and Goose Goslin were being counted on to play a good part of the season.

Mueller at Second.

BIRMINGHAM, Ala.—Manager Jimmy Wilson of the Phillips expects to have Emmet Mueller, up from Houston, on second the opening day—and one of his big reasons is that Mueller "eats, sleeps and plays baseball."

WIN He Play?

SWEETWATER, Tex.—It's hard to discourage White Sox Manager Jimmy Dykes from playing baseball. Now that Shortstop Luke Appling is on the hospital list, possibly until June, Chicago's pilot is toying with the idea of holding down second or third base himself.

Bills and Bears Meet at Tennis

Washington and St. Louis University tennis teams will meet to-morrow afternoon in the Bears' Field House at 2 o'clock. Both teams have been practicing for the past several weeks and are in excellent shape for the match.

Captain Larry Mullen, St. Louis Star, and Captain Harry Greenfield, Bear senior star, will meet in the No. 1 singles event. In the No. 2 singles Joe Blash, St. Louis, former St. Louis district boys champion, will meet Jack Bascom, Witek.

A little while later the Indians lost the argument and the ball game when Tobin forced it to the Giants.

Tobin explained that the teams had agreed on a ground rule that made any ball hit into the crowd a double. Tobin, who had seen the Indians pursue the ball into the crowd, protested violently. The crowd took to the mist of the confusion. Tobin conferred with Lou Kolla, the base umpire.

A little while later the Indians lost the argument and the ball game when Tobin forced it to the Giants.

Al Eberle will hold down the No. 3 notch for the Bills, while John Peterlow and Sam Evans will be it out for the third and fourth places on the Bruins' squad.

Mitts Bates will be the fourth singles player for the Blue and White. Charles Eberle will play the fifth singles match for the Bills, while Coach Artie Ebers will choose either Jack Henkem or Carl Neuerth to face him.

Mullen and Schwarze will meet in the 100-yard breast stroke, the preliminaries of which were held last week. Bob Sullivan, who had the best time in the trials, is expected to win the race.

Col. Stith Wins.

Col. Taylor Stith, 37 years old, defeated C. Bauer, 71, in their Perpetual Youth billiard tournament match last night at Peterson's.

This will be the first match of the season for both squads.

Test for Bridges.

LAKEPLAND, Fla.—Tommy Bridges, Detroit right-hander, gets a chance today to see if a chipped elbow bone interferes with his pitching. He's slated to start against the Toronto Maple Leafs of the International League, his

11,000 See Casey Pin  
Thesz at Auditorium

By Robert Morrison.

It was after midnight—the Steve Casey-Louis Thesz wrestling bout that Casey won had lasted late—and so there were not very many seated at the long white counter in the little restaurant downtown when Roughhouse Bill Nelson dropped in for lunch.

Big Bill, assistant matchmaker for Promoter Tom Fack, was in a happy frame of mind. Business was good. More than 11,000 persons had filled the Auditorium last night to see that match.

He eased into the seat on the left, ordered coffee, then leaned over and asked: "Well, how'd you like it? Wasn't that a swell match?"

Now, Bill is an old-time wrestler. He used to grapple back in the days when they took their grappling seriously back around 1916, that was. Besides that, he is employed in the promotion of wrestling. And he still takes it seriously.

And so we were relieved when he didn't wait for the diplomatic reply we were trying to frame; he went right ahead.

The Question Comes Up.

"Real wrestling that was. Just like the old days. The kind of match I like to see. You know, they're in there straining and doing their best."

Real wrestling?

It had one of those turnabout endings which might happen once in a while but which do happen entirely too often. It had thrilling action at certain moments. It had Casey as a villain and Thesz as a local favorite and carried out this theme faithfully to the very end.

Casey was jittery. Part of his jitter was probably natural. He apparently cared to take no chance with the fellow who could pin him as Thesz did in Boston when Thesz was weak from illness.

The Irishman sought refuge in the ropes quite often. The crowd booted him and, as often, cheered Thesz.

The match went on and on. A half hour passed. An hour. Customers began to squirm in their seats.

Finish in 1:11.

They didn't have long to wait. In another 11 minutes or so, Thesz, who had been having a little trouble with his air intake because of Casey's practice of strangling him, picked up the Kerrymen and whirled him around.

Ah! The end was near. It had to be near because it is nearly always near when Thesz begins to airplane stuff.

The St. Louis boy slammed Casey on the canvas. Perspiring Charles Rentrop, the referee, bounded over to the ring and announced that Casey's shoulders down.

They were on their feet again and there followed a series of slams by Thesz, who must have banged Casey to the mat four or five times.

But he who slams last slams best. And it was Casey's turn.

Real wrestling, Bill?

It had one of those turnabout endings which might happen once in a while but which do happen entirely too often. It had thrilling action at certain moments. It had Casey as a villain and Thesz as a local favorite and carried out this theme faithfully to the very end.

Painter and Sculptor Apparently  
Victim of Heart Disease;  
Modernist in Art.

NEW YORK, April 7.—Maamzeno Baccante, 51 years old, painter and sculptor, was found dead last night in his West Side studio, apparently a victim of heart disease.

The body was discovered by the landlady following a long-distance call from the artist's wife, Margaret Brisbane, also a painter, who was in Washington executing a commission. He had been dead several days.

A conservative modernist, Baccante exhibited his works at many galleries. He was born in Italy, where he sang in opera for seven years before turning to sculpture and painting. He married Miss Brisbane of Houston, Tex., in 1929. There will be no funeral services. The body will be cremated.

**PRODUCE DEALER FINED AGAIN**

William Zehner Convicted in Police Court of Fraud in Sale. William Zehner, produce dealer, 2514 McLellan avenue, Jennings, was fined \$100 today by Police Judge Edward M. Ruddy on conviction of fraud and deceit in the sale of merchandise.

The Court found that he had sold to Mrs. Charles Disterich, 3956A Lexington avenue, a bag of potatoes represented by him to contain a bushel and a half, 90 pounds, when actually it contained 75 pounds. On March 3, Zehner was fined \$30 for a similar offense, on complaint of a neighbor of Mrs. Disterich, and was fined \$25 for failure to have his scale inspected.

## HENRY I. HARRIMAN TALKS ABOUT EUROPE

Gives Views in Speech Before  
Members of St. Louis Chamber of Commerce.

The greatest danger of a general European war has passed, Henry I. Harriman, former president of the United States Chamber of Commerce, said today in a speech before the members' assembly of the St. Louis Chamber of Commerce at Hotel Jefferson.

Harriman, Boston utilities executive, who returned a month ago from a European trip during which he attended a meeting of the program committee for the International Labor Conference which will meet at Geneva in June, will address the Young Men's Division of the Chamber of Commerce tonight at the Jefferson.

No war, he said, would result from German aggression because Hitler would be able to obtain his objectives without force of arms. While the Spanish war once was a threat to peace of other nations, he said that danger probably had passed.

"When I returned from Europe on a previous trip a year ago," he said, "I felt that war was inevitable. I now feel that a great war will probably be avoided for many years; that Germany will obtain by economic pressure a domination over the small nations to her southeast; that Italy will gain recognition of her conquests; that Britain plus British loans with which to develop that country; that Spain will become an independent Fascist state, friendly to both Italy and England from the latter of whom she will receive large loans to repair the damage done by the war, and that there will finally emerge a four-party alliance between England, France, Italy and Germany, in which each will recognize the right of the other to develop according to its own chosen course without aggression of any one against any other of the four nations."

German Path of Expansion. Germany's path of expansion, Harriman said, would include Czechoslovakia, Hungary and Rumania, with the Reich obtaining by political or economic hegemony over this territory the fats, grains, petroleum, iron ore and other lacking raw materials. Annexation of Lithuania, Latvia and Estonia also might be desirable, he thought, not for economic reasons but to strengthen defense against Russia, Czechoslovakia, in Harriman's opinion, would maintain its political independence but the 3,500,000 Germans there would receive greater political power than heretofore, as alliance with Russia would be given up and the country would become a dependent of Germany. Land, he said, would be of little economic value to Germany and is important as a strong buffer zone between Central Germany and Russia.

Discussing economic conditions, the speaker said England was reasonably prosperous but that there was great social discontent in France, attended by flight of capital and a marked increase in living costs. Discontent also is prevalent in Italy, he added, because of the heavy burden placed on all classes by expenditures in the Ethiopian and Spanish wars and an adverse trade balance.

**SITUATION IN RUSSIA.**

Pointing out that Russia had attempted an industrialization which took the United States and England 100 years to accomplish, Harriman asserted that country now was unable to operate efficiently in new factories and railroads.

"This failure has, of course, been attributed to Russian rulers and their easy excuse is to claim sabotage and conspiracy with the enemy, the reason for a failure which is actually due to the inexperience of her management and labor," Harriman said. "I am convinced that Russia will greatly hesitate to enter any major war because of a fear that Russian industries and transportation cannot properly back up her armies."

Condemning Japanese aggression in China, Harriman suggested vigorous protest, which, if needed, he said should be followed by refusing to buy Japan's products or sell American goods there.

"The time has come," he said in conclusion, "when the United States must choose a middle ground in international affairs, either joining the League of Nations or attempting to live in splendid isolation. We recently passed a neutrality act which, in reality, under the cash and carry clause, compels us to give aid to nations with strong navies and a large merchant marine. The act should be modified to make its execution discretionary with the president."

**BLOOD CONTROL HEARINGS  
BEFORE HOUSE COMMITTEE**

Local Governments Object to Sharing of Cost of Projects or Giving Property Rights.

WASHINGTON, April 7.—The House Flood Control Committee considered yesterday proposals to the cost of flood control to the governments.

Many witnesses from the lower Ohio River valley, responding to questions by Chairman Whittington (Dem., Mississippi), objected to local contributions for reservoir construction and said purely local projects were hampered by existing requirements.

Delegations from West Virginia, Ohio, Kentucky and Illinois urged the committee to approve river wall projects recommended by the army engineers.

## CHICAGO REGISTRATION INVESTIGATION HALTED

Board Tells Kelly-Nash Ma-  
chine All Voters Are Prop-  
erly Recorded.

By the Associated Press.

CHICAGO, April 7.—An abrupt halt was called by the election board yesterday in its checkup of the Kelly-Nash Democratic organization's claim of 200,000 "errors or irregularities" in the printers' lists of registered voters for next Tuesday's primary.

The review began Monday on a petition by Michael L. Igoe, Senatorial candidate, and Circuit Judge John Prystalski, candidate for County Judge.

Through Chairman Alexander J. McKay the board issued a statement saying its full staff was needed for regular duties, that the board was now convinced there were no registration cards missing and that all qualified voters would be recognized on primary day.

"We must ask you," said the statement addressed to Igoe and Prystalski, "to withdraw your men, who have been watching the checkup, so as to avoid interference with the work of the board in preparing for the primary."

Judges Kimbrough Stone and John B. Seaborn concurred in the Appellate Court decision but Judge J. W. Woodrough filed a dissenting opinion in which he characterized the contention of Hecht as a "quibble," adding that Hecht well knew what the suit was about.

**MILLION UNDERGRADUATES  
POLLED ON PEACE AND WAR**

Brown U. Paper Says Vote So Far  
Indicates Opposition to Part in  
Foreign Conflicts.

By the Associated Press.

PROVIDENCE, R. I., April 7.—Announcing that more than 13,000 undergraduates of 44 colleges in 21 states opposed participation by the United States in foreign wars, the Brown University Daily Herald made public today a preliminary report of a nation-wide poll of 1,000,000 undergraduates.

The student publication said 39 per cent of those whose votes had been tabulated favored world disarmament as the "most necessary" step to peace, while 25 per cent favored current United States defense armament. Thirty-eight per cent urged that the United States remain neutral in time of war, the report added, while 24 per cent voted for this country's entrance into a revised League of Nations with broader powers.

Sixty-six per cent said they would fight if the United States were invaded, said the Herald announcement, while only 14 per cent declared they would not fight under any conditions.

## U. S. APPEALS COURT UP HOLDS MAN WHO KEPT TAX REFUND

Government Loses Suit Started 7  
Years Ago to Recover \$35,000  
From Iowa Farmers.

The refusal of an Iowa partnership to return to the Government \$35,000 alleged to have been refunded erroneously to its two members in an income tax case was upheld yesterday by the United States Circuit Court of Appeals in an opinion here yesterday.

The Court held that J. L. Hecht, surviving member of the partnership of French & Hecht, was correct in his contention that the Government had failed to preserve its claim because its summons on the partners, after a suit for recovery had been filed, failed to state the nature of the claim, the amount of money involved, or the penalty for failure to obey the summons. Since, under Iowa law, the statute of limitations for such claims is two years, Hecht declared that because of the defects in the summons the claim was outlawed.

Suit was filed against the partners in May, 1931, just a few days before the expiration of the limitation period set by Iowa statute, which, the appellate court held, the Federal courts were bound to observe. After five years of litigation, Hecht filed a motion to dismiss which was upheld by District Judge Charles A. Dewey at Davenport.

Judge Chris P. Fox of El Paso sought to learn "all possible" about Mrs. Frome and her daughter despite Mr. Frome's assertion that robbery apparently was the murderer's motive.

A young California pair, questioned at Laredo, Tex., and a man detained at Rankin, were released. Officers also eliminated as suspects three men held at Alamogordo, N. M., Cordell Ok, and Blesse, Ariz.

A question at Brownwood, was questioned five hours, but officers said they apparently had no connection with the Frome killing. A bullet fired from a .45 pistol found in the man's possession was to be examined.

Roy Jackson, district attorney at Van Horn, said truck driver Jim Millam's statement that he saw a man and a woman in a dark car following the Frome auto the day of the murders was strengthened by stories of two Van Horn citizens.

Jeanie Elliott said she saw the dark two-seated car twice. First, alone, not far from where the bodies were found. Later the machine was parked off the highway in the same locality. A man and woman were in it. Nearby was a car that appeared to be gray, the color of the Frome machine.

Jeanie Elliott said she saw the dark two-seated car twice. First, alone, not far from where the bodies were found. Later the machine was parked off the highway in the same locality. A man and woman were in it. Nearby was a car that appeared to be gray, the color of the Frome machine.

**BRITAIN ACCEPTS HULL'S BID  
TO AID REFUGEES FROM NAZIS**

Reply Handled to U. S. Ambassador  
Says Government Will Co-Oper-  
ate to Fullest Extent.

By the Associated Press.

LONDON, April 7.—Britain has informed the United States of her acceptance of the proposal of Secretary of State Hull for an international committee to aid Austrian and German political refugees.

The British reply, it was announced today, was handed by Viscount Halifax, Foreign Secretary, to Ambassador Joseph P. Kennedy yesterday.

It said the British Government "welcome the proposal, share the concern which prompted it and desire to co-operate to the fullest extent possible for the purpose of giving effect to it."

France, several other European States, and most of the Latin-American republics have accepted Hull's proposal. Italy has declined.

**Y. W. C. A. FUND CAMPAIGN**

Robert N. Arthur Chairman of Coming Drive for \$80,000.

Robert N. Arthur, trust officer of the Mississippi Valley Trust Co., has been appointed chairman of the Young Women's Christian Association \$80,000 fund campaign, to be conducted April 22 through May 6, it was announced yesterday.

Sgt. Arthur W. Page of Sudbury, was the tenth witness called by Crown Attorney John L. O'Flynn since Spencer, Wixom (Mich.), dairy farmer and former New York and Toronto baseball player, went on trial for his life yesterday.

The defense team indicated it would contend Miss Grier shot herself, perhaps accidentally, and fractured her skull by falling against the structure in the cabin kitchen.

Sgt. Page testified he examined carefully all water pipes and other projections near the body and found them covered with dust and cobwebs which had not been disturbed.

## RESIGNATION OF COAL BOARD HEAD ACCEPTED

C. F. Hosford Offered to Quit  
Some Time Ago, Follow-  
ing Row in Commission.

By the Associated Press.

WASHINGTON, April 7.—The White House announced today President Roosevelt had accepted the resignation of C. F. Hosford, chairman of the National Bituminous Coal Commission, effective yesterday. Stephen T. Early, White House press secretary, made the announcement.

Hosford originally offered his resignation several weeks ago after the members of the Coal Commission had become involved in factional disputes. Mr. Roosevelt had asked that it not become effective immediately, and it was held up until now.

Hosford originally offered his resignation several weeks ago after the members of the Coal Commission had become involved in factional disputes. Mr. Roosevelt had asked that it not become effective immediately, and it was held up until now.

Democrats on the subcommittee drafted the measure without Republican aid because they had failed for weeks to reach an agreement with the minority members.

The bill would prohibit employers engaged in interstate commerce from paying wages lower than the average in their industry.

It would create an independent board empowered to increase the minimum wage not more than 5 cents an hour in any 12-month period until the wage reached 40 cents an hour. The board could fix the length of the work-week anywhere between 40 and 48 hours.

The bill would prohibit interstate shipment of the products of child labor, defined as those made by children under 16, or 18 in in hazardous occupations.

The commission, he said, "was given a day or so to look them over, but, nevertheless, the coal prices were set and given out to the country after very great pressure by the Senator from Pennsylvania, (Guffey) and others to get the coal prices up so that people would not begin agitation."

**REVERSION OF PRICES.**

EL PASO, Tex., April 7.—Texas authorities tried today, despite a scarcity of clews, to recreate a true picture of the murders of Mrs. Weston G. Fromme of Berkeley, Cal., and her daughter, Nancy.

The Fromes, who left El Paso at noon, March 30, en route to South Carolina, were found beaten to death near Van Horn, Tex., Sunday.

Sheriff Chris P. Fox of El Paso sought to learn "all possible" about Mrs. Frome and her daughter despite Mr. Frome's assertion that robbery apparently was the murderer

# STOCK TRADE SLOWEST IN ABOUT 4 YRS; LIST MIXED

## COMMODITY INDEX AVERAGES

Other statistics showing economic trend.

### TREND OF STAPLE PRICES

NEW YORK, April 7.—The Associated Press daily wholesale price index of 32 primary commodities:

Tuesday, April 6, 1937 67.92

Wednesday, April 7, 68.14

Thursday, April 8, 68.53

Friday, April 9, 69.07

Difference of Buyers Inspires Light Offerings on Initial Improvement and Gains Are Reduced or Cancelled Subsequently.

By the Associated Press.

NEW YORK, April 7.—In one of the slowest sessions of the past four years or longer, stock market leaders today pointed in varying directions.

For the five-hour session transfers totaled 330,850 shares, the smallest volume for a full day since Sept. 4, 1934, when there was an aggregate of 308,930 shares. Only 602 separate issues changed hands. Of these there were 246 declines, 187 advances and 199 which moved neither up nor down.

The list got off to a fairly good start on the recovery side, but initial advances running to a point or so were soon reduced or canceled.

There was little to go on in the matter of spot news, and even developments that might ordinarily have been considered rather bullish failed to shake potential buyers from their lethargy.

**Gold to Pump-Priming Report.**

Reports the President contemplated recommending a \$1,500,000,000 "pump-priming" program concentrated on public works expansion as a means of halting the recession, lifting employment and revitalizing industrial sentiment, apparently left the market cold. Wall street, it was thought, was inclined to await announcement of the administration's actual plans.

The French financial crisis, wherein observers looked for the fall of the Blum Government, while inspiring no particular selling, helped keep speculative forces in neutral territory. Foreign securities markets, at the same time, maintained their equilibrium. The French franc, though, dipped in terms of the dollar.

**Bonds Are Uneven.**

The reorganization battle in Congress was a mildly retarding influence on speculative forces, brokers said.

Commodities and bonds plodded over uneven pathways. Wheat at Chicago rallied to finish up 1/2 to 1/4 cent a bushel. Corn was 1/4 off to as much up.

Steels did well at the start, but they quickly lost what little vitality they had. Numerous issues slipped a shade either way and a wide assortment was unchanged.

Resistant were General Motors, Western Union, North American, International Nickel, Westinghouse, Allis-Chalmers, Great Northern, Northern Pacific, Goodyear, Boeing and Socony Vacuum.

In areas most of the day were Sears, Roebuck, Woolworth, du Pont, Air Reduction, Eastman Kodak, Air Reduction, Harvester, Home- stake, Chase & Peake & Ohio, Deere and Goodrich.

**Philip Morris and Monsanto Chemical** were up at the start. On the down side were Commercial Investment Trust, Continental, Investors, National Steel and Union Pacific.

At mid-afternoon the French monetary unit was .01% of a cent at 3.06% cents. Sterling was unchanged at \$4.96%.

Cotton lost 25 to 45 cents a bale.

**News of the Day.**

Those watching building activity in the Engineering News-Record review which placed construction awards for March at the highest level for any similar month since 1930. They were 32 per cent greater than the same month last year and were only 1 per cent off from February.

**Industrial Reports.**

Figures of the American Automobile Association disclosed factory shipments of cars in March were some 33,000 units better than February, but were sharply under the 1937 month. For the first quarter the total was about half that of the same period last year.

Stressing troubles of steel makers was the summary of the American Iron Steel Institute estimating production of open hearth and Bessemer steel ingots in the first three months at the lowest mark since the final quarter of 1934. The aggregate was 62 per cent less than the 1937 first quarter volume.

**Day's 15 Most Active Stocks.**

Stocks, closing price and net change of the 15 most active stocks: Mother Lode \$200, 41/2, unchanged; U. S. Steel \$600, 41/2, unchanged; Anaconda \$400, 24/4, up 1/4; Central \$100, 12, up 1/2; Radio \$100, 5%, down 1/4; Chrysler \$100, 40, unchanged; Int. Nickel \$400, 42, up 1/2; Beth. Steel \$400, 43, down 1/2; Gen. Motors \$300, 28, up 1/4; Socony-Vac. \$300, 12, unchanged; Kennebec \$300, 30, unchanged; U. S. Rubber \$700, 23, up 1/4; Gossol. Edis. \$300, 18, down 1/4; Republic Steel \$300, 18, down 1/4.

**FOREIGN MARKETS AT A GLANCE**

By the Associated Press.

NEW YORK, April 7.—Stocks developed a quiet morning session, good and gilt-edged issues continued to close firm. Trans-Atlantic trades were steady with small changes either way.

**PARIS.** April 7.—Demand for international bonds in the foreign exchange market was closed higher. The market was active, as a whole, a recovery was under way. Banks were heavy. Banks of France, Royal Dutch and Swiss Canal made minor gains.

**LIVERPOOL.** April 7.—Except for a small setback following predictions of a large Argentine wheat futures market, the Argentine, wheat futures market was steady. Final prices were fed into the market by Winnipeg, reports of which for freezing rains in the American Southwest. Cotton closed quiet 4 to 6 points lower, followed by a steady opening. Prices remain under way liquidation and local selling.

# TODAY'S NEW YORK STOCK MARKET

SPECIAL ASSOCIATED PRESS WIRE.

NEW YORK, April 7.—Total sales today on the New York Stock Exchange amounted to 330,850 shares, compared with 475,760 yesterday, 1,371,030 a week ago and 1,921,330 a year ago. Total sales from Jan. 1 to date were 65,324,520 shares, compared with 169,202,686 a year ago and 192,701,153 two years ago.

Following is a complete list of transactions giving sales, high, low, closing prices and net changes.

Village in County to Decide Whether It Should Become a City.

An election will be held tomorrow in Arbor Terrace, St. Louis County, to determine whether it will change its status from a village to a fourth-class city. There will be one polling place, at 3300 Lawler drive. The city officials are to be chosen. H. C. Albrecht, present chairman of the

Formal Guard Mount, Parade and Exhibitions Mark Army Day at Jefferson Barracks.

The twenty-first anniversary of the declaration of war against Germany by the United States was observed by the Sixth Infantry at Jefferson Barracks yesterday with a public demonstration of military equipment and activities, including a guard mount and formal parade. The occasion, officially designated as Army day, was observed by posts throughout the country as well as in overseas stations.

Among the equipment exhibits were tanks, trench mortars and machine-guns. Demonstrations of Butts' manual, the calisthenic exercise series in which the service rifle is used as a wand, and of the manual of arms executed without audible commands were given for visitors, who later stood in a drizzling rain to see the guard mounting and parade.

The Sixth Infantry, one of the oldest organizations in the army, is commanded by Col. Joseph A. Atkins, who headed the reviewing party.

### ROBT. M. SWEITZER DIES; CHICAGO POLITICIAN

\$400,000 Shortage Caused Removal as County Treasurer But He Was Acquitted.

By the Associated Press.

CHICAGO, April 7.—Robert M. Sweitzer, whose long political career as Cook County Clerk and as Treasurer ended in a financial scandal, died last night. He was 69 years old. He had been ill for several months.

"Genial Bob," as he was known to thousands of Chicagoans, was county clerk for 24 years. Then he ran for county treasurer and was elected in 1934.

An audit of the County Clerk's funds in the spring of 1935 disclosed a shortage of \$414,128. Sweitzer said he would pay in full "when I know how much I owe," but it was never paid, and the County Board removed him as Treasurer.

Subsequently he won acquittal on a charge of withholding the funds from his successor but failed to win reinstatement as Treasurer.

He was born in Chicago May 10, 1868, and began business life as a \$4-a-week office boy. He attended grammar and preparatory schools here and received the degree of master of arts at Christian Brothers' College of St. Louis.

He entered politics in 1910, winning the county clerkship as the Democratic nominee. For the next quarter of a century he was a power in Chicago Democratic politics. He was his party's choice for Mayor in 1915 and 1919 but was defeated both times.

Sweitzer was made a Knight of St. Gregory in 1924 and was a member of the Knights of Columbus, Elks and Illinois Jockey Club. At one time he served as president of the Washington Park Race track.

Survivors include his widow, a son, Robert M. Jr., and two daughters, Margaret and Mrs. Roger Scott Jr. of Chicago.

**MAN WHO HAS HAD 94 BLOOD TRANSFUSIONS TO GET 2 MORE**

35 Persons Offer Aid to Victim of Aplastic Anemia Who Has Lost Weight Again.

James Hedley, 25 years old, 4383 Forest Park avenue, who has had 94 blood transfusions in four years, will enter Barnes Hospital today or tomorrow for two or three more.

Since he became a victim of aplastic anemia in 1934, Hedley has required transfusions every five or six weeks. He now weighs 125 pounds, 15 pounds under his normal weight, and is pale and weak. After a transfusion, however, he quickly regains strength. Thirty-five persons with his type of blood, No. 1, have volunteered their blood for the latest transfusions.

**RADIO TALK ON CANCER**

Dr. H. A. McCordock of Washington, D. C., discusses danger signals.

The necessity for treatment of cancer in its early stages was discussed by Dr. Howard A. McCordock of the Washington University School of Medicine yesterday in a radio talk over KDKA.

With the increased skill in diagnosis, the speaker said, there is no reason to be "terrified" by cancer or to refuse to admit the existence of its early danger signals. He spoke under auspices of the Women's Field Army of the American Society for the Control of Cancer, which is conducting a campaign against the disease.

### GUILTY PLEA NOT ACCEPTED

Judge Appoints Attorney to Represent Man in Murder Case.

Raymond Snyder of Jerseyville, Ill., indicted in March on a charge of murder, was arraigned Tuesday in Jerseyville before Judge Lawrence E. Stone of Springfield. A plea of guilty was not accepted by the court, as the defendant was not represented by counsel. Attorney G. Russell Schwarz of Jerseyville was appointed by Judge Stone to represent Snyder.

Snyder is charged with fatally stabbing his wife, Jessie Brown

Snyder during a drunken party at their home in Jerseyville Oct. 20, 1937. Her death occurred Nov. 12 at St. Joseph's Hospital in Alton.

PART THREE

ROOSEVELT HAS  
TALK WITH RAIL  
ASSOCIATION HEAD

Recommendations President Has Received for Restoring Sounder Operation Are Discussed.

## RATES, WAGES, BONDS AND CONSOLIDATIONS

Subsidy Plan 'Seems' to Be Out—Message to Congress on Subject Probably Next Tuesday.

By the Associated Press.

WASHINGTON, April 7.—J. J. Pelle, president of the American Association of Railroads, said, after a White House conference today, that President Roosevelt had expressed the hope that the railroads' troubles could be worked out without the necessity of cutting wages.

Pelle was asked by reporters whether Mr. Roosevelt had given his views on wage cuts inasmuch as there have been reports that reductions might be necessary to reduce operating costs of the nation's financially distressed railroads.

"I think the President knows how we feel about wage cuts," Pelle said. "But there was no particular discussion about that today. I think it goes without saying that the President would like to see the whole thing worked out without wage cuts."

Pelle said he went to the White House at Mr. Roosevelt's request to discuss recommendations which the President has received for restoring the railroads to a sounder basis of operations.

Problem of More Income.

Pelle said the President was greatly interested in the problem of raising the roads' net income. There are three ways, the railroad executive said, in which this might be accomplished:

1. By getting more for services, that is, higher freight rates. Pelle said, however, that this "seems to be settled, at least for the moment," indicating that there is little likelihood the carriers will ask the I. C. C. for further increases at this time.

2. By paying less for the services performed for the railroads, that is, wage cuts.

3. By saving money through consolidations. Pelle characterized this as a relatively slow method which would require some time to be worked out.

The subsidy plan of Government guarantees of rail earnings as a means of assuring adequate net income, which was proposed at a conference Mr. Roosevelt had with railroad representatives of labor leaders Monday, "seems to be out," Pelle said. This plan had been looked upon favorably by several labor leaders as a means of avoiding wage cuts or personnel reductions.

Pelle said that at the Monday conference subsidies were suggested jointly by the rail executives and by the labor group.

World Save Equities.

Pelle said the President appeared particularly interested in "saving equities" insofar as possible. Some of the reorganization plans which have been suggested as a means of reducing railroads' bonded indebtedness and thereby cutting fixed charges have proposed drastic scaling down of security holders' interests.

The A. A. B. Pelle said, has submitted to Mr. Roosevelt a reorganization plan, but he declined to disclose what suggestions were made in it. He said he had heard suggestions that Government bonds be given to bondholders of certain railroad properties, which were in jeopardy as a means of preventing losses to those bondholders, but "frankly, I don't believe they're going to do anything on that."

Mr. Roosevelt will send a message to Congress soon on the railroad situation, probably next Tuesday.

EDITORS TELL ROOSEVELT  
ABOUT FARM CONDITIONS

Loyal Areas Not Hit So Hard as Cities, They Say; Those on Land Content.

By the Associated Press.

WASHINGTON, April 7.—A delegation of agricultural editors told President Roosevelt yesterday that the economic recession had not affected rural America to the same extent as urban areas.

The delegation comprised about 45 members of the American Agricultural Editors' Association, which closed a two-day conference on farm problems.

Wheeler McMillen, president of the association, said the delegation told the chief executive that "there was a general feeling of content" in most farm regions about present conditions and the future. McMillen is editorial director of the *Country Home Magazine*, published in New York. He said farm buying power apparently had not declined so much as that in most cities.

## Chamberlain Striving to Reach British-Italian Accord Before Hitler Visits Mussolini in May

Prime Minister Said to Hope for Four-Power Pact, but Meanwhile He Has Called for Acceleration of Rearmament.

By ARTHUR E. MANN,  
Special Correspondent of the Post-Dispatch.

LONDON, April 7.—Neville Chamberlain, British Prime Minister, is striving to complete an Anglo-Italian accord before Hitler visits Mussolini in May. Mussolini is credited in official quarters here with a similar desire. Chamberlain has so far been silent regarding his next move, if such an agreement is reached. But unofficial and opposition observers of foreign affairs prophesy that he will then propose a four-power pact with France, Germany and Italy for the preservation of the peace of Europe.

The British Government professes the belief that Mussolini has been badly shaken by the German Fuehrer's annexation of Austria. Mussolini is now said to be eager for a British understanding as a means of strengthening his hand against Hitler, and his alleged discomfort over Germany's coup in Austria has been seized here as a welcome opportunity to put a dent in the Rome-Berlin axis. In opposition Labor and Liberal circles the main, if not the only, hope expressed of checking Hitler's territorial ambitions is to drive a wedge between the two dictators.

Snubbed by Hitler.

The British Government tried an other method prior to the seizure of Austria and was badly snubbed. Hitler was told informally that Great Britain was willing to discuss the question of a redistribution of colonial territory if he would give a binding guarantee not to take any action likely to lead to a European war.

The Fuehrer, in reply, is reported to have told the British to keep out of continental affairs. He added that, when he wanted colonies, he would go to the British and tell them so. That reply left Chamberlain no peaceful alternative except to try to make his peace with Italy.

As regards British relations with Mussolini, one of the chief difficulties is the Spanish problem. But before Hitler's Rome visit in May, that question, in its present form, may have been solved by a Franco victory. Chamberlain's opponents claim that the Prime Minister has all along preferred a Franco triumph to a victory by the loyalist government in Spain. That, in fact, it is said by them, was the principal difference between him and Anthony Eden. The other issue between them is said to have been Eden's insistence that Mussolini make a substantial withdrawal of Italian troops from Spain before Great Britain began negotiations with him.

If No Agreement.

Chamberlain, however, is well aware that its attempt to strengthen Britain's diplomatic and strategic position through an agreement with Italy is a gamble. If no agreement is reached, then it may be only a question of time before Great Britain has to shoot it out with Italy and Germany. This realization was evidenced by the fact that the British Prime Minister coupled his recent exposition of foreign policy with a call for a drastic acceleration of the rearmament program. He has put the country on nearly a war basis as he can do without actually declaring a state of national emergency.

Meanwhile, Chamberlain is keeping one foot in the League of Nations, largely for reasons of British domestic politics. His offer to Mussolini naturally includes due recognition of the conquest of Abyssinia.

MANUFACTURERS' ASSOCIATION  
INDORSES HIDDEN TAX DRIVE

Pledge of Co-operation Given  
Stamps Group Engaged in Penny  
Protest Campaign.

By the Associated Press.

TROY, N. Y., April 7.—Robert Baumann, president of the Taxcentines, Rensselaer Polytechnic Institute student union, engaged in a campaign to dramatize "hidden taxes," said he had received a message of encouragement from the National Association of Manufacturers.

The Taxcentines, who have been counting out pennies to pay for one-fourth of each purchase made—they say that's the amount of hidden taxes—asked the manufacturers' group yesterday for co-operation by merchants in indicating on price tags the amount of such taxes.

Baumann said he received a telegram today from James P. Seligson, director of public relations for the manufacturers' association in New York City, stating:

"We will be glad to co-operate with you in any way to inform the public of its taxes. Valentine taxes in the states make difficult the breaking down nationally of the amount of the sales price that is tax, but we would be glad to discuss it with you. Best wishes in your efforts to make the people tax conscious."

BRITISH ELECTION  
GOES AGAINST NEW  
FOREIGN POLICIES

Chamberlain Supporter  
Loses in First Test at  
Polls Since Eden Quit the  
Cabinet.

By the Associated Press.

LONDON, April 7.—A Labor party candidate won a House of Commons seat yesterday in the first by-election to test British public opinion since Anthony Eden quit as Foreign Minister in protest against Prime Minister Chamberlain's foreign policy.

Dr. Edith Summerskill defeated the Conservative candidate, C. J. Busby, by a majority of 1,621 votes in the previously Conservative constituency of West Fulham, London. She polled 16,583 votes to Busby's 15,182.

Conservatives had fought the campaign on the issue of the Government's foreign policy of seeking agreements with Europe's dictators, the issue over which Eden resigned.

The West Fulham district in the 1935 election gave Conservative Sir Cyril Cobb, who since has died, a majority of 3,483.

Statement by Victor.

Amidst labor rejoicing, Dr. Summerskill declared "I won because Czech independence, a German onslaught on that country might well precipitate a European war into which this country would almost certainly be drawn."

Strongly it is argued here that Hitler should be able to obtain the "right" which he desires for the German minority by diplomatic pressure on the Czech Government of that minority inside Czechoslovakia. Chamberlain's reference in his speech on foreign policy to "reasonable" demands of the German minority, has been interpreted here as a hint to the Czech Government not to give Germany an excuse for resorting to warlike measures.

Whistling in the Dark.

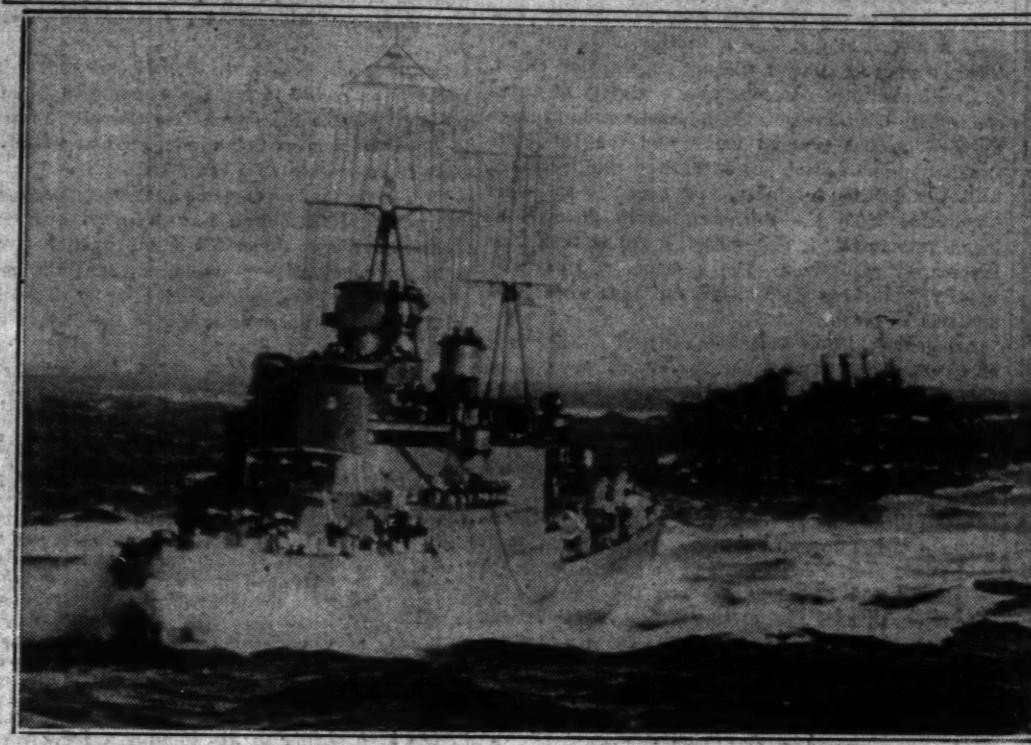

But extensive conversations with officials, members of the opposition party, and the ordinary citizen, who is more interested in sports than politics, show that there is a good deal of "whistling in the dark" about the arguments advanced to show that Britain's position is not as desperate as it appears to be to those with the perspective of outsiders. There is no doubt that all thoughtful persons here who really study the international situation are extremely conscious of this country's uneasy situation and are equally unhappy over her apparent inability to immediately do anything about it.

Most discussion of the situation inevitably leads to a common defense: that Britain's foreign policy is based, from day to day, upon the state of her preparedness, and that as her armed might increases, so her resistance to the demands and ambitions of Italy and Germany will become correspondingly stronger.

But even the possibility of waging a successful war is to Chamberlain only one whit better than fighting a losing one. In his private discussions of the question, he has been reiterating that there is no "victor" in modern war and that another world conflict would result in a Bolshevik Britain, regardless of its outcome. That, to Chamberlain, is sufficient reason for going to almost any lengths in order to avoid another Armageddon.

maneuvers. She and her sister ships are named after important cities. The Newcastle carries a dozen 6-inch guns.

Other places already visited in the crowd. As Hitler stepped from the rostrum and turned up the first earth with his spade, a forest of birch and oak trees fell with a terrific roar.

An area of 200 by 300 yards was laid open along the route of the highway. Lumberjacks and soldiers worked together to perform this impressive stunt.

One end of the clearing looked back at the end of the modern highway from Munich, with snow-covered mountains in the background. At the other end it opened to show the valley of the Saar River, to be bridged by the highway's first large viaduct on Austria soil.

"Chamberlain's childlike faith in the dictators is not shared by the people of Fulham, speaking for the rest of the nation, have no faith in the foreign policy of the National (Chamberlain) Government. The people have delivered their ultimatum back to the League," he said.

"Chamberlain's childlike faith in the dictators is not shared by the people of the country. They remember with alarm that at the very moment the National Government was asking the nation to have trust in their negotiations with Mussolini he was boasting about his troops invading Spain."

"This Government has turned its back on the League. This election has been fought on labor's demand that peaceful nations must become a chain so strong that the bullies

will be stopped from invading Spain."

At Salzburg it will join the highway from Munich, through Berchtesgaden, Hitler's mountain retreat.

"The Nazis have promised to end Austria's unemployment by such public works."

## TWO YEARS NEARER TO INFLATION?

Today we are two years nearer to possible inflation than when this advertisement was published originally.

Today the public debt is six billion dollars higher.

Today taxes are no lower.

Today business is no better.

Today unemployment is no nearer solution.

run wild as paper money becomes progressively more worthless.

The world has seen many examples of currency inflation resulting from government budgets which could not be balanced. Once the process starts and the printing presses begin, it is next to impossible to stop. As prices skyrocket, government expenses mount rapidly than tax revenues and the budget becomes progressively more hopelessly out of balance forcing the printing presses to run more rapidly until finally the currency is worth less than the paper on which it is printed.

The classic example of printing press inflation took place in Germany following the World War. Austria, France, the United States and many other countries have experienced one or more such inflations. Our expression "not worth a continental" was coined to express the public's scorn for the worthless American dollar of our inflation following the Revolutionary War.

Our country today is in no immediate danger of currency inflation. Such inflation will not come if the budget can be balanced within a reasonable period of time. But if the budget cannot be balanced, if government expenditures cannot be held within revenues, and if the government credit is destroyed, then uncontrollable currency inflation is inevitable. Balancing the budget is not a matter of political policy, it is not a matter of parties or of partisanship—it is an economic necessity—it is the most important problem before the country.

In pointing out the importance of a balanced budget we speak for several thousand beneficiaries of trust estates who would be among the first victims of destructive inflation.

MEXICO SETS UP FUND  
TO PAY FOR SEIZED OIL

Twenty Per Cent of Money  
Received on Sales of Crude  
Oil to Be Used.

By the Associated Press.  
MEXICO, D. F., April 7.—The Mexican Government announced yesterday that 20 per cent of gross receipts from sales abroad of its excess crude oil would be used toward payment for properties it expropriated from American and British companies.

The Government press department disclosed that the President had ordered the Government company, founded to handle export oil sales, to deposit 20 per cent of receipts in the National Bank of Labor Credit.

The deposit would "constitute a fund for indemnification and be used for payment for the expropriated properties," the press department said.

Payments to the companies, it added, would start "as soon as agreements are reached with the interested companies fixing the amount to be paid." It was said the Finance Ministry later would fix the percentage of domestic sales to be devoted to the same purpose.

Government sources asserted Mexico had received more than \$50 offers to buy oil since the expropriation, but none of the offers had been accepted.

The announcement was made by two foreign promoters—Francis W. Rickett of Great Britain, and Bernard E. Smith, New York stock broker, who were negotiating with Mexican officials on oil contracts.

Reliable quarters said Rickett and Smith had offered to pay 83 cents a barrel for 25,000,000 barrels of crude oil. This would total \$17,500,000. Mexican officials were said to be convinced their backing was sufficient to swing the deal.

The world market price for crude oil averages about \$1 a barrel. It was presumed Rickett and Smith would pay an export tax, currently 25 cents a barrel, making the total 88 cents per barrel.

W. R. Davis of New York City, who some months ago sold the Mexican Government \$1,080,000 worth of drilling and pipeline equipment in return for Government oil, disclosed he was negotiating for \$2,500,000 more oil from wells operated by the Government before expiration.

## LETTERS FROM THE PEOPLE

In Behalf of Block-Booking.  
To the Editor of the Post-Dispatch:  
YOUR editorial, "A Bill for Better Movies," is misleading and based wholly upon unsupported conclusions.

Anyone concluding that the Neely-Pettengill bill, or any bill to abolish block-booking, will affect the quality of pictures shown in theaters is due for a rude awakening. Block-booking is merely the wholesale selling and buying of films, a practice of convenience in every industry, and one that most theaters could not do without.

Your editorial comment presupposes that legislation is necessary to improve the quality of motion pictures. On that score, there is plenty of evidence to show that without legislation the quality of films being produced today has never been equaled. In the final analysis, public taste, supported by public support, is the one and only selector of movies. No theater can force the public to see pictures it doesn't want, and the millions who attend the movies every week show that public taste is being pretty well satisfied.

You complain that the theater owner is denied the right of selection. What makes you believe that, given that full right, the exhibitor would choose films of a higher social order? As a business man, he will select those pictures that appeal most strongly at the box office—which brings us back again to the subject of public taste.

Educating public taste is a slow and, as the movies have found, an expensive procedure. Yet contrast the films being offered today with those of even five or 10 years ago, and you will find that the movie industry has done a colossal job in uplifting its own product and by the same token, public taste.

The Mae West picture, "She Done Him Wrong" was played in 10,012 theaters. The religious drama, "Sign of the Cross" sold by the same film company in the same so-called block, played in only 8845.

Why did 116 theaters select the Mae West film and refuse to show the religious film? The answer is simple—because they felt that more people would come to their theaters. And there is the best answer to your conclusion that free selection by theater owners would lead to films of a higher social order.

HAROLD W. EVERNS,  
Manager, Loew's Theater.

Fair Questions.  
To the Editor of the Post-Dispatch:

As a former Missourian, I am watching to see how the proud and high-spirited citizens of your great State are going to take it. Are they going to tolerate Boss Pendergast to "bawl out" their Governor? Are they going to take it with docility exceeding the effrontery of the boss of Kansas City? The arrogance of Pendergast is something for Missourians to think about.

Granite City. E. E. CAMPBELL.

Americans and War Scars.  
To the Editor of the Post-Dispatch:

"BRITAIN Ready for War, Premier Declares" was a front-page headline on the very evening after Prime Minister Chamberlain had gone to such lengths as explaining to the House of Commons that Great Britain would not go to war except in defense of her own vital interests and of France and Belgium in case of an attack on either of the two countries.

The implication, of course, is as to war with Germany. Yet, because "In war there are no winners," Chamberlain is specific in declaring that "England will send no armies into Czechoslovakia"—which not only has received no threat of an invasion, but, on the contrary, has been assured that none is contemplated.

However, the obnoxious score line is by no means an isolated item on our daily menu. The news stands bristle with papers and magazines serving the same diet. Why? To what end the misleading headlines? Why fan the war spirit which once again is being engendered? Why join the campaign which led to such deadly results 20 years ago?

If travelers from abroad are to be given credence, there is more war talk in our papers in a week than they heard in months in Europe. No wonder some say our journalists are as likely to set the powder keg afire as are border incidents.

I. M. EVERSDEN.

Says Electric Rates Are Too High.  
To the Editor of the Post-Dispatch:

THE net earnings of the Union Electric Co. of Missouri for the year 1937 show a gain of 21.5 per cent above those of the previous year.

We feel that the electric rates in St. Louis are too high, and since the company's earnings have so gained, there should be a drastic reduction in the future rates.

LOUIS C. CHRISTOPHERSEN,  
President, Grand Boulevard Association.

Subsidized Transportation.  
To the Editor of the Post-Dispatch:

MOST of the states are building highways with Federal aid. It doesn't take a smart man to figure out what the rail lines are up against. It is subsidized transportation, plain and simple. I think what the railroads need more than anything else is relief from Government control. But if they must be regulated, let it be done by men who have common sense and not by politicians.

Debtors, Mo. TOM L. JOHNSON.

## NO RAILROAD SUBSIDIES.

Mr. Roosevelt displays common sense in ruling out Federal subsidies as a means of solving the railroad problem. The plan for Government aid to weak lines, as a means of meeting their costs and keeping men at work, had been discussed by railroad management and labor. But, as the President stated at his press conference Tuesday, there are many other industries that would begin asking for help from the Government if the railroads were subsidized. And it is a historical fact that a subsidy, once put into effect, cannot be stopped without superhuman effort.

The Government has sought by a variety of methods to help the railroads. The Reconstruction Finance Corporation has granted loans, and the Interstate Commerce Commission has authorized rate increases. Still the decline continues, and demands for more help come from the railroads. Such methods as loans, rate increases and subsidies are at their best the merest palliatives. The ailments of this "sick industry" are too deep-seated for such superficial methods to reach.

About one-third of America's railroad mileage is in bankruptcy and conditions are critical for a large part of the remainder. Plainly, something must be done about this fundamental industry, important not only as a transportation medium, but from the fact that its securities form a large part of the country's financial portfolio.

I recommend, therefore, that the Congress provide for the adoption of the general principle that executive and administrative functions should have single-headed responsibility and that advisory, regulatory and quasi-judicial functions should be performed by boards and commissions, thus permitting the transfer of certain regulatory functions from executive officials to existing boards or commissions and executive functions from boards and commissions to executive officials.

That Mr. Hoover said in 1932 he had said in essence even earlier in his administration. We quote from his message to Congress of Dec. 3, 1932:

All administrative activities of the same major purpose should be placed in groups under single-headed responsibility. All executive and administrative functions should be separated from boards and commissioners and placed under individual responsibility, while quasi-legislative and quasi-judicial and broadly advisory functions should be removed from individual authority and assigned to commissions. These are the fundamental principles upon which our Government was founded, and they are the principles which have been adhered to in the whole development of our business structure. They are the distillation of the common sense of generations.

An attempt was made in 1933 to carry out the essence of Mr. Hoover's idea about how the civil service administration should be improved. Representative Cochran of St. Louis introduced a bill for a single administrator to take over the functions of the Civil Service Commission, and when hearings were held, none other than Thomas E. Campbell, chairman of the Civil Service Commission under Mr. Hoover, testified in favor of it. Mr. Campbell said: "The form of the bill, in which there is the creation of a single administrator, has my full and earnest approval, because I think that from such a measure greater efficiency can be obtained."

The record is plain, and just as plain is its sharp variance from the position which Mr. Hoover now takes.

## DIPLOMATIC LIES IN OUR TIMES.

Japan has not admitted that she is engaging in a war with China, but her Ambassador to Russia has just protested to Russia against the latter's interfering in said war by sending aviators to fight in the Chinese war. If there is no war, there is no conceivable basis in international usage for a Japanese protest, for in that case the airplane involved is just a part of a routine exchange of goods and the pilot is just a tourist.

Not to be outdone in this fourth-dimensional comedy, Commissar Litvinov has replied that Russia knows nothing about this particular aviator who speaks Russian and is flying a Russian plane. As for previous unacknowledged Russians, their presence is not admitted, either, but nevertheless they have the same standing as British, American and other volunteers flying in China. And Japan, says Mr. Litvinov, has not protested to those countries.

Such is modern diplomacy. In the good old days, a lie was presented in such a way as to make it possible of belief, at least by those who had natural inclinations that way. But in a world where an intervention pact is called a non-intervention pact, simple willingness is no longer enough. One must be touched in the head, and in such a way as to understand why the distinguishing quality of blackness is always whiteness.

## THE PRICE OF MANSLAUGHTER.

Gordon Matusofsky pleaded guilty in Circuit Judge Murphy's court Tuesday to a charge of manslaughter, and, on recommendation of the Circuit Attorney's office, was sentenced to six months in the workhouse.

The offense was a traffic accident which occurred at Laclede and Euclid Oct. 22. Driving west on Laclede, Matusofsky's car collided with a taxicab in which two men were killed, the passenger, George J. Schmeder, and the cab driver, August Kroeter. Tuesday's case was that of the death of the passenger. Yesterday Matusofsky entered a plea of guilty in the death of the taxicab driver and was given a concurrent six-month sentence.

Does the punishment fit the crime? Apparently, the Circuit Attorney's office is in doubt. It has explained its action. It feels it would have some difficulty proving Matusofsky's guilt, because the principal witness it relied on, a Negro, has himself just got out of the workhouse.

There were other witnesses, so to speak, in the form of circumstantial evidence. There was the wrecked taxicab, whose doors had to be pried open to extricate the dead passenger and the dying driver. There is a stop sign at Euclid. Did Matusofsky observe that stop sign? The Negro witness was prepared to testify that he didn't—testimony supplied by the smashed taxicab and the two dead men. Before the case got to the Circuit Court, traffic charges growing out of the same accident were tried before Police Judge James F. Nangle, who commented that "the facts are the most aggravated this Court has ever heard."

The Circuit Attorney's office has avoided a difficult choice: it has chosen the easiest way. It cannot conceivably enjoy the consciousness of having done its full duty. It has, in this instance, reduced the deadly reckless driving almost to a mere misdemeanor.

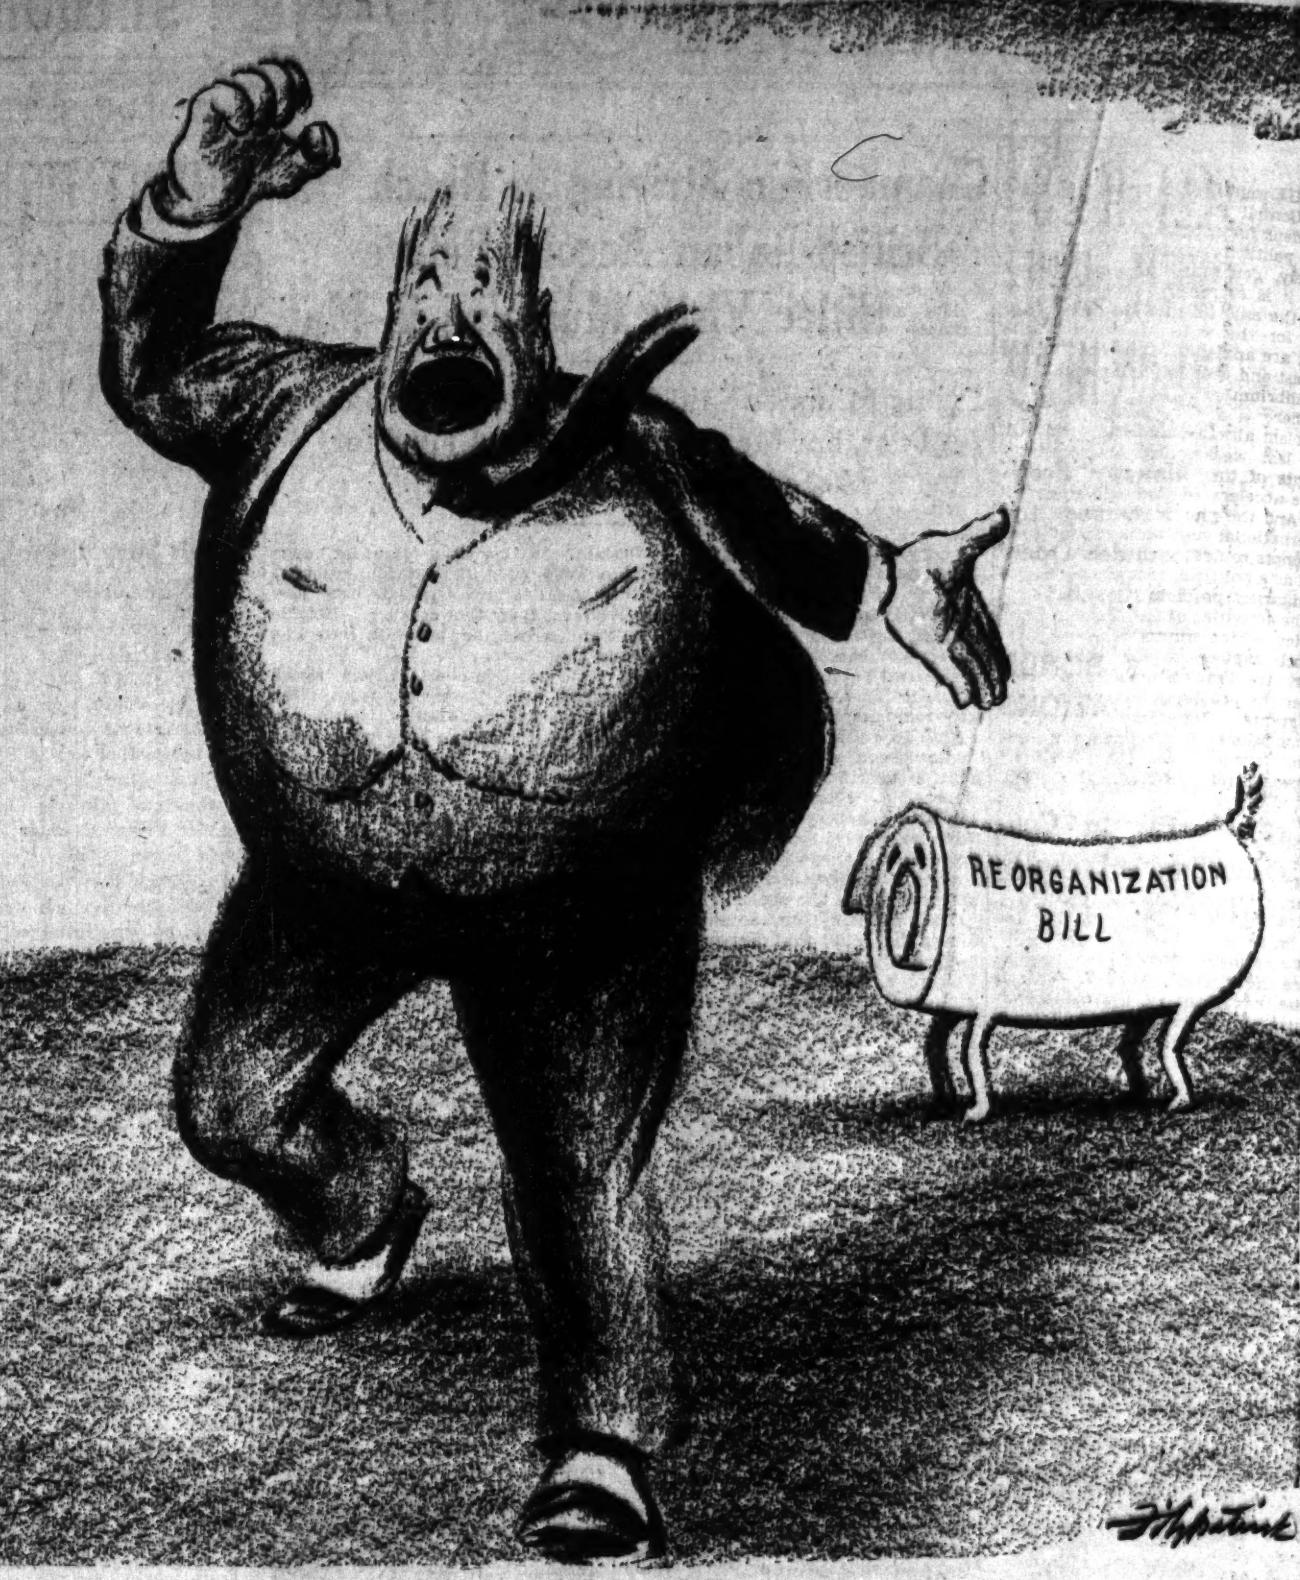

## INTERPRETING THE WAGNER ACT.

"To sign or not to sign" was the great issue left unsettled when the O. I. O. steel union's strike against "Little Steel" ended in failure last summer. The steel companies said they would negotiate with the union, but would not sign a contract, since the Wagner Act does not specifically require signed contracts. The union complained to the National Labor Relations Board that this constituted refusal to bargain collectively. The Inland Steel Corporation case, in which this matter was at issue, has been widely viewed as important to the future of collective bargaining.

The N. L. R. B. yesterday handed down a decision holding that labor agreements, if they are reached, must be signed. There is no requirement that an employer agree with union conferees, but the Wagner Act does require that an attempt at agreement be made. The N. L. R. B. now brackets refusal to sign an agreement with refusal to bargain. "If one is a violation of the act, the other is likewise," says the decision.

The practical desirability of reducing labor agreements to writing, for the protection of both management and labor, and for the avoidance of prolonged disputes among witnesses with conflicting memories, would seem to be obvious. In this case, the board found the steel company could advance no reason, "except those solely anti-union in character," for saying it would sign no agreement it might reach with the C. I. O.

The decision means that the union has won the point for which it contended in the abortive strike,

"WOLF! WOLF!"

## Propaganda in the Movies

Production by Government of motion pictures supporting New Deal objectives, and by industry of short features to combat these, pose question of extent to which propaganda should be allowed in movies; critic suggests cinema remain a medium of entertainment rather than persuasion, and that editorial features be so labeled.

Gilbert Seldes, Author of "The Seven Lively Arts," in Scribner's Magazine.

FEW months ago I wrote in these pages

an account of "The River," a brief documentary picture of the Mississippi Valley, and I meant my report to lead to action among my readers. As "The River" is totally out of the line of the usual commercial short; as it is produced by an agency of the American Government, and as it carries with it an explanation and defense of the Tennessee Valley Authority, I not only praised it for its great virtues as a picture, but suggested that those who wanted to see such a picture should decisively go to their local exhibitors and asking for it.

Now for the reaction. The issue of Variety current as I write carries the following story:

"Business Propaganda

Films to Combat F. D. R.

"Propaganda type films turned out by the administration in the last two years now are being combatized by two reels sponsored by business interests. 'Frontiers of the Future' and 'America Marching On' are both designed to bolster sentiment to afford a reply? How soon will these movie editorial begin to affect the feature picture?

Will the Government permit its enemies to use the movies? Will any powerful group be permitted to strengthen itself at the expense of others, less well equipped? And if we want to throw all propaganda out of the movie houses, what line shall we draw between propaganda and the exposition of ideas? Shall we condemn the movies as intellectual sterility, just when they seem to be awakening to a sense of their capacities?

Will the Government permit its enemies to use the movies? Will any powerful group be permitted to strengthen itself at the expense of others, less well equipped? And if we want to throw all propaganda out of the movie houses, what line shall we draw between propaganda and the exposition of ideas? Shall we condemn the movies as intellectual sterility, just when they seem to be awakening to a sense of their capacities?

I have a guide-line which I offer without too much emphasis, because the problems are too involved and the stakes are too great for any arrogant or pontifical solution. My suggestion is that we think of the effect of these editorial movies on the movies as a whole; or, in other words, their effect on the public considered as movie-goers rather than as citizens. What will a movie program be like after five years of the battle of propaganda? What will the patrons of the movie houses think and feel about their two-hour shows if 30 minutes are devoted to the discussion of partisan or lofty, with propaganda open or concealed, of important social questions?

I know that many people, with the highest motives and the noblest conceptions of society, believe that just this use of the movies is desirable. I find a demur because, at the moment, I think it most important that the movies remain popular. They can be popular without being degraded, as dozens of excellent pictures have proved. And their popularity is a weapon with which democracy defends itself, a weapon sharper and far more flexible than direct propaganda.

We can establish a few practical rules if we can persuade all the propagandists that the public wants the rules followed; we can even establish these rules if the intelligent and thoughtful fragment of the public will once be as energetic as the well-intentioned. We can, for instance, insist that the sponsor of an editorial film name himself as openly as he does on the air or in print; we can ask that the purpose of the film be clearly stated; we can, I think, manage to clamp down on lies, even if we are not able to tell the propagandists what is the last true word in sociology.

Eventually, we will have to erect a body of rules, possibly on the foundation of our prejudices, possibly on the more solid ground of social advantage. The movies have been comparatively free of political control only because they have been comparatively free of political interest; when their condition changes, we are heading straight for regulation.

Consider for a moment some of the problems: Who will decide the proper limits of propaganda? Who will prevent the issue of propaganda? Who will decide the proper limits of propaganda? Who will prevent the issue of propaganda?

## Small Pensions, Loaded Rolls

From the Kansas City Times.

THE weakness of the Missouri old-age assistance system is apparent with each issue of the checks. The checks are too small, in spite of the fact that the State and the Federal Government are putting some \$17,000,000 a year into this one type of social welfare.

Enough money is being spent to provide Missouri with an adequate pension system. But the neediest persons are not receiving adequate care. With politically overloaded rolls, the State is scattering its funds to many persons who are not in real need. Nearly half the population over 70 is receiving public aid.

Local pressure that had its way in the beginning has left inequalities in the rolls. One may wonder why St. Louis, with twice the population of Kansas City, has only an equal number on old-age assistance. Any temporary advantage for Kansas City cannot weigh against an injustice that weakens the system.

Persons who are genuinely entitled to aid under the law should receive enough to keep them in reasonable comfort. Those who are not entitled to public assistance should be removed from the rolls. This principle is upheld by the present Social Security Commission, but little has been done about it. Even this little progress has been threatened by a Circuit Court decision on a test case at Neosho. This would throw open the rolls to practically all applicants.

The pay checks this month indicate that the rolls have been reduced by some 300 persons and that the average amount of assistance has been increased slightly. Missouri is a long way from a workable and fair system of old-age assistance.

A CHEER FOR THE BRONX.

From the Brooklyn Daily Eagle.

CHILDREN of the Bronx, we read, have disowned the "Bronx cheer" as a sign of bad breeding. We are sorry, but we don't believe it. We suspect that the questionnaire by which a select group of children voted against this obnoxious but effective form of the "raspberry" was inspired by their parents and school teachers.

Furthermore, we suspect that the children went forth with the ink still wet on their fingers and practised the inoffensive insult with renewed zest. For nothing in the child world becomes of more importance as a thing proscribed. Besides which, the Bronx cheer, being the song of vocal abortion that delights the juvenile ear, would be apt to pollute even adult apparel.

No, we fear that the Bronx cheer, like the drum-piercing whistle, the yodel-shout and other trimmings of the adolescent larynx, is here to stay, and the Bronx might just as well make the best of it. And our neighbor doesn't quote at us: "He jests at scars that fester; he scolds at wounds that are old."

THIS IS EASY.

From the Kansas City Journal-Post.

THE District of Columbia, having no government of its own, is run by congressional committees in their spare time. Congress can close the taverns at midnight, enact traffic regulations, provide for garbage collection and dog enumeration. The District has never had an income tax, an oversight which Congress is hastening to correct. A pending bill provides for a 10 per cent tax on incomes. Does it apply to Representatives and Senators, some of whom virtually are permanent residents of the district and all of whom earn their living in it?

You're allowed one guess, and it's right.

THE appeal of Se Cordell Hull an dent for interna political refuge nately, generous a but it is extremely for the sake of the that are anxious to unrest and economic equilibrium.

THE appeal of Secretary of State Cordell Hull and of the President for international action to coordinate and better direct the private humanitarian agencies already in the field, and to handle the whole problem on an international basis.

That means an institution with sufficient prestige and authority to act as a diplomatic agency between the countries which are enforcing emigration and those countries which would accept immigrants, provided that the conditions under which they enter are such that they could become economic assets rather than liabilities.

Several experts who have had experience in dealing with the transfer of emigrants and capital from Germany to other countries believe that it is not impossible to reach some sort of compromise with the German Government, under which the capital of Germany and other Jews, now blocked in Germany, and still amounting to millions, may be used to finance equipment for colonization projects. This might act to the economic advantage of Germany, as well as to the economic advantage of the emigrants and the countries to which they may go.

Greater selectivity is also necessary. Most countries, including our own, could take with advantage certain kinds of workers. To an extent, also, the problem is one of re-training. Some of that has already been done, particularly with Jewish emigrants to Palestine.

It has been estimated that the application of the Nuremberg racial laws in Austria will affect nearly a million persons, or almost one-sixth of the population of that country, whose livelihoods thereby will be drastically affected. The steps that Germany has already taken since the annexation of Austria indicate that many monarchists, Catholics and persons of other groups will at least try to find refuge elsewhere.

The outcome of the war in Spain will also create a new refugee problem, inevitably, whichever way the tie is cast.

The immediate popular response to the President's appeal to all countries to join in a movement to deal with the problem, indicates that in some quarters his move has been misunderstood. There is a strong fear in all the countries still to emigrate that the barriers will be let down, and they will be flooded with newcomers at a time when many of their own citizens are unemployed.

That of course, is one of the tragedies of the refugee problem of our era. Among the men and women who are now seeking new homes are some of the finest and best-trained brains; people who are genuinely creative and whose contributions therefore to any society are far greater than the compensation they will ever receive.

A man like Dr. Neumann of Vienna, who at last account was in prison for having contributed to the Fatherland Front of Chancellor Schuschnigg, cannot, in any country, take away "somebody else's" job, because he is sui generis. He is one of the half-dozen greatest oral physicians in the world.

Actually, what prompted the President was, no doubt, a keen sense of self-preservation. The world is a place of unrest and agitation, with desperate people taking desperate measures in the attempt merely to survive; and millions of people wandering more or less aimlessly, and battering at every conceivable door, being passed from frontier to frontier, will certainly do nothing to help restore world order.

Nor can any democratic country wish its hands off the problem, if it wishes to retain its own soul. The spectacle of acute human suffering arbitrarily imposed, incurred by thousands in defense of the very ideals which are the ones we are supposed to live by, cannot be regarded with equanimity or indifference, unless we are prepared to admit that the ideas no longer have validity. A defeatist attitude toward the refugee problem becomes a defeatist attitude toward democracy itself.

Obviously, what is needed is a program and efficient organization.

## RABBI SOLOMON GOLDMAN DINNER SPEAKER HERE SUNDAY

30th Anniversary of Jewish National Fund Will Be Commemorated.

Rabbi Solomon Goldman of Chicago, member of the executive committee of the American Jewish Congress, will be the principal speaker at a banquet Sunday evening at Jewish Orthodox Old Folks' Home, 145 East Grand boulevard, commemorating the thirty-fifth anniversary of the establishment of the Jewish National Fund.

A special musical program has been arranged by Cantor Myron Glass of Indianapolis, Ind. Prof. Gustave Klausner of St. Louis University will preside at the dinner, which is sponsored by the Jewish National Fund Council of St. Louis.

Since its organization 35 years ago, the national fund has received contributions amounting to about \$24,000,000, and has established 127 colonies and settlements in Palestine, caring for an agricultural population of 50,000 persons.

## Three Win Honors at M. I. T.

Three St. Louis students at Massachusetts Institute of Technology have been placed on the Dean's list of high scholarship students for the first semester. They are Hans Bebele, son of Dr. Jules Bebele, 4207 Magnolia avenue; Marion L. Wood, son of Mrs. Carrie Wood, 730 Bell avenue, and Arnold S. Mengel, son of Mr. and Mrs. A. F. Mengel, 5638 Kingsbury avenue.

Washington U. Debate Tour.

The Washington University debating team will depart next Monday for a four-day tour during which it will compete with teams at Illinois and Wisconsin colleges. The team, composed of Eugene Friedrich and Otto von der Au, will debate with teams at Mankato, Minnesota; Illinois; Northwestern and De Paul universities; Chicago; Marquette University, Milwaukee; and Beloit University, Beloit, Wis.

## Emerging Winner—Of What?

## FOR THE BRONX.

of the Bronx, we read, have "Bronx cheer" as a sign. We are sorry, but we don't suspect that the questionnaire of children voted so disastrously. The test was inspired by their past teachers.

we suspect that the children in the Bronx still wet on their pants the ineffable insult. For nothing in the child of such importance as a

Besides which, the Bronx sort of vocal abortion that will ear, would be apt to it approval.

that the Bronx cheer, like a whistle, the yodel-shriek of the adolescent larynx, and the Bronx might just as well be "Bronx cheer" for we in Brooklyn own booted, don't forget.

IS IT EASY.

Journal Post

Columbia, having no government of its own, is run by committees in their spare time. The taverns at midnight regulations, provide for bar and dog enumeration. So has never had an income. A pending bill provides for an income. Does it apply to the permanent residents of all of whom earn their income.

one guess, and it's right.

## SPONSORS OF SCHOOL SURVEY ORGANIZE

## Will Back Mrs. Lowenhardt's Motion for Inquiry Into Operation of System.

The Committee Sponsoring a General Survey of the School System was formed yesterday at a meeting of 35 persons at Bishop Tuttie Memorial, 1210 Locust street. It will urge the Board of Education to act favorably on a motion by Mrs. Hayes Lowenhardt, last month for a comprehensive inquiry into the operation and needs of the system. The motion was laid over to next Tuesday.

Mrs. E. T. Sennsene, 4558 Pershing avenue, was elected temporary chairman of the committee, organization of which has not been completed. She declared that it should have a continuous existence and seek to retain public interest throughout a survey.

A motion was adopted to write all members of the Board of Education and the Superintendent of Instruction and secretary-treasurer, advocating the inquiry. It also was decided to seek a hearing before the Finance Committee of the board, which called its monthly meeting for this afternoon.

A varied group of persons with civic interest made up yesterday's gathering, which was called under auspices of the League of Women Voters. Miss Jeanne Blythe, president of the league, who presided, pointed out that it had been 22 months since a general survey of the school system was made. "We simply want to find out the status of affairs," she said, "and what we are getting for our money and what the children are getting for what we pay."

Extent of New Needs.

Mrs. George Gelhorn, a leader of the league, saying schools were the outstanding part of democratic government, asserted that the 85-cent school tax rate authorized in Tuttie's election might be excessive or insufficient. "We need to know whether the schools are measuring up to new needs," she remarked. It was desirable to know, she continued, what was being done in behalf of the pre-school child, the primary grades, the effort to fit high schools to changed urban conditions, the youth past high school age and adult education.

Superintendent of Instruction J. Gerling was quoted by Mrs. Gelhorn as telling a group of inquirers yesterday that he favored the survey. He told the board last month he would welcome one by unbiased educators. General surveys of the Philadelphia and Cincinnati schools brought about some changes in those cities. Mrs. Gelhorn added, and the Cincinnati work more than paid for itself by savings effected.

Mrs. Sensene related that the Cincinnati inquiry cost the city \$24,000 and the Federal Government a larger amount, while \$30,000 or \$40,000 was spent in Philadelphia.

## Subjects of Investigation.

Representing the College Club, Mrs. Lorraine Pickett listed some of the subjects of desired investigation as follows: Administrative personnel, training and certification of teachers, financing, curriculum, especially as to social studies; extension services, and the relation of the Federal Government to the system.

Dr. Llewellyn Sale, president of the Social Planning Council, asserted that cost of a survey here would be "inconsequential" compared with annual school expenditures, and that the result would more than pay for the work. He expressed the opinion that the school board members would be enthusiastic for the inquiry, but Mrs. Laura S. Edwards, chairman of the Citizens' Committee for a Free College, said she attended last month's board meeting and did not receive that impression. Treatment of crippled and otherwise handicapped children should be investigated, Dr. Sale suggested, in the belief present work was not entirely satisfactory.

Washington U. Debate Tour.

The Washington University debating team will depart next Monday for a four-day tour during which it will compete with teams at Illinois and Wisconsin colleges.

The team, composed of Eugene Friedrich and Otto von der Au, will debate with teams at Mankato, Minnesota; Illinois; Northwestern and De Paul universities; Chicago; Marquette University, Milwaukee; and Beloit University, Beloit, Wis.

Miss Jean McWilliams will return today to her home in Chicago after a visit here with Mr. and Mrs. C. D. P. Hamilton Jr., 6443 Wydowna boulevard, parents of her fiance, C. D. P. Hamilton III. She

## SOCIAL ACTIVITIES

## Luncheon Hostess

at a dinner for both visitors. She also gave a small theater party. Last Saturday night Mr. and Mrs. Alexander Fraser of the Park Plaza entertained guests at dinner, and last night Mrs. Hallie Anderson, 15 Washington terrace, was hostess at a similar party. Another dinner will be given Tuesday night by Mr. and Mrs. C. Oscar Lamy, 1 Forest Ridge.

Mr. and Mrs. Van der Linden have been in this country about a month, and have spent much of their time in California. Late next week they will leave for New York to sail for visits in England and France before returning home.

Miss Anne Jarvis, daughter of Mr. and Mrs. Thomas Jarvis, 402 Tuxedo avenue, Webster Groves, has chosen Saturday, April 30, as the date for her marriage to Glenn L. Moller, son of Mr. and Mrs. J. Loren Moller, 657 Clark avenue, Webster Groves. The Rev. James W. Bell of Seattle, Wash., a friend of both, the prospective bride and bridegroom, will come to St. Louis to perform the ceremony. He will be assisted by the Rev. G. H. Murch, who married Miss Jarvis' parents. The wedding will take place at 8 o'clock at night at the Methodist Presbytery Church.

Those selected for Mortar Board were Dorothy Moore, 3632 Cambridge avenue; Elaine Foerster, 3139 South Jefferson avenue; Elizabeth Anne Middleton, 475 East Jackson road, Webster Groves; Louise Lampert of Alton; Lola Jane Keller, 587 Westborough place, Webster Groves; Jane Edna Peckmann, 5 Iris place, Webster Groves; Margaret Smith, 5086 Kensington avenue; Bernell May Sikes of Belleville; Marie Adele Pringle, 428 Holly avenue; and Jessie Adrienne Buder, 3339 Eminence avenue.

Omicron Delta Kappa selected Harry Brooker, 4779 Delor street; Verden Draper, 5710 West Florissant avenue; Butler Bushfield, Sigma Alpha Epsilon house; William Becker, Sigma Alpha Epsilon house; Robert Reinhard, 4742 Arsenal street; Robert Byards, 4246 Arsenal street; Robert Barron, 5386 Barron avenue; Ralph Bradshaw, 3973 Wyoming street; Eugene Friedrich, 14 Seminary terrace; Evan Wright, 707 North Forest avenue, Webster Groves; and Paul Wilhelmi, 208 Edwin avenue, Kirkwood.

**MRS. JAMES E. SMITH FUNERAL SERVICES FOR WIDOW OF HARDWARE EXECUTIVE TOMORROW.**

Funeral services for Mrs. Sallie Bryant Smith, who died yesterday of heart disease at the home of her son-in-law and daughter, Mr. and Mrs. William C. Bitting Jr., 5240 Westminster place, will be held at 9 o'clock tomorrow morning at the Bitting home with burial in Belletontown Cemetery.

The work of the United States Supreme Court's Advisory Committee on Civil Procedure will be described by Dean Charles E. Clark of the Yale University School of Law in a lecture at 8:30 o'clock Monday night in January Hall, on the Washington University campus.

Prior to the lecture Dean Clark, who is a member of the advisory committee, will be entertained at a dinner at the University Club given for him by the school faculty and the law school committee of the Washington University's advisory committee.

The lecture, open to the public, is the beginning of a plan to invite one or more of the outstanding figures in American jurisprudence to Washington University each year to lecture on legal subjects, Dean Joseph A. McClain of the Washington University Law School, said.

**MRS. E. A. KIESSELHORST DIES**

Clayton Woman Succumbs in Los Angeles, Cal.

Mrs. Edwin A. Kieselhorst, 12 Southmoor Drive, Clayton, died yesterday at Los Angeles, Cal., where she had gone six months ago because of ill health.

Her husband and other members of the family operated the Kieselhorst Piano Co., 1010 Olive street, which was discontinued in 1930. Surviving besides her husband are three sons, Earl H. Sidney E. and Wallace W. Kieselhorst, who now are in Los Angeles.

**Edward Haley Funeral Saturday.**

Funeral services for Edward Haley, mechanical supervisor of the Missouri Pacific Building, Olive and Thirteenth streets, who died of an unbroken lung at Barnes Hospital yesterday, will be held at 2:30 p.m. Saturday at the Parker mortuary, 16 West Lockwood avenue, Webster Groves. Burial will be in Oak Hill Cemetery, Kirkwood.

Mr. Haley, 53 years old, had been employed in his last position for 10 years. Previously he had been a stationary engineer for the Board of Education. He lived at 6005 Enright avenue and is survived by his wife.

**Michigan U. Fellowship Winner.**

Chester L. Neudling, son of Mr. and Mrs. George W. Neudling, 4064 Quincy street, has been awarded a fellowship at the University of Michigan for next year. He is 21 years old and a graduate student in classical languages at the University of Iowa.

## HONOR SOCIETIES PLEDGE 22. WASHINGTON U. STUDENTS

Women Tapped by Mortar Board, 12 Men by Omicron Delta Kappa at Ceremony.

The benevolence and chivalry record of St. John's Methodist Episcopal Church, St. Louis, is set forth in the church's new yearbook, in an historical article written by the Rev. Dr. Ivan Lee Holt, pastor since 1918.

Institutions aided by St. John's congregation include Kingdom House, social settlement on South Eleventh street; Barnes Hospital, and Methodist Home for Children. Churches which it has assisted are St. Paul's, Marvin Chapel, Wagoner Place, Lafayette Park, Shaw Avenue, Cabanne, Carondelet, Grand Avenue and University churches, in St. Louis, and St. John's in Szechuan, China. In the 20 years of Dr. Holt's pastorate, the congregation has raised for its own expenses, regular benevolences and special gifts, a total of \$1,600,000.

St. John's Church was founded in 1884, and its first building at Locust street and Ewing avenue was built in 1886. The present church at Kingshighway and Washington avenue was built shortly before the World's Fair of 1904. It cost \$220,000, with furnishings, and the \$272,000 educational building to Mrs. Susie C. Singleton, were added in 1928.

**MRS. JAMES E. SMITH FUNERAL SERVICES FOR WIDOW OF HARDWARE EXECUTIVE TOMORROW.**

Funeral services for Mrs. Sallie Bryant Smith, who died yesterday of heart disease at the home of her son-in-law and daughter, Mr. and Mrs. William C. Bitting Jr., 5240 Westminster place, will be held at 9 o'clock tomorrow morning at the Bitting home with burial in Belletontown Cemetery.

Mrs. Smith, 73 years old, was the widow of James E. Smith, former first vice-president of Simmons Hardware Co., president-emeritus and one of the founders of the Mississippi Valley Association, and long a champion of waterways development. He died in 1938 at the age of 85. Also surviving is a son, James E. Smith Jr. of San Francisco.

**HOLY WEEK AT CATHEDRAL**

Palm Sunday, Tenebrae and Good Friday Services.

Palm Sunday will be observed by Mrs. Sallie Bryant Smith, who died yesterday of heart disease at the home of her son-in-law and daughter, Mr. and Mrs. William C. Bitting Jr., 5240 Westminster place, will be held at 9 o'clock tomorrow morning at the Bitting home with burial in Belletontown Cemetery.

Mrs. Smith, 73 years old, was the widow of James E. Smith, former first vice-president of Simmons Hardware Co., president-emeritus and one of the founders of the Mississippi Valley Association, and long a champion of waterways development. He died in 1938 at the age of 85. Also surviving is a son, James E. Smith Jr. of San Francisco.

**PUPILS' POEMS TO BE READ**

These Are Originals by 23 High School Students.

Poems written by 23 high school students will be read tonight at the College Club, 5428 Delmar boulevard. The students and their parents have been invited to the reading, which was arranged to encourage the writing of original poems in high schools.

J. Hutton Hynd of the Ethical Society will read the poems.

**A. M. CURTIS LEAVES HOSPITAL.**

Arthur M. Curtis of Springfield, Missouri member of the Republican National Committee, who has been at St. Luke's Hospital with a fractured spine, was taken home yesterday in an ambulance. His condition is improved. He fell March 26 when walking from his office to his automobile in Springfield.

**Michigan U. Fellowship Winner.**

Chester L. Neudling, son of Mr. and Mrs. George W. Neudling, 4064 Quincy street, has been awarded a fellowship at the University of Michigan for next year. He is 21 years old and a graduate student in classical languages at the University of Iowa.

Loaves must be cooled before using. Turn all loaves of bread on a wire rack or on the inverted baking pan or them on a cloth. This causes steaming and makes crust soggy.

When a soup contains fish it is usually called a "bisque" and the kind of fish has nothing to do with the name. The suggestions made here for soups with salmon all might be called salmon bisques.

There are two styles of including salmon in soup. The first one is to mash the fish to a fine paste and then add it to a cream base; the second is to leave the fish in pieces so that it shows up in flakes. As far as the attractiveness and flavor are concerned it makes very little difference which style is used, so suit yourself.

The simplest way to make a salmon bisque is to start with canned salmon and add a liberal amount of cream to it, either mashed or in pieces. Cream of mushroom, creamy corn chowder, pea, asparagus, lima beans and puree of beans are the canned soups especially adapted to blend well with the salmon.

Or, you may like to try making a chowder type of soup. Chowder means a fish soup, but it usually is associated with more potatoes and onion in the soup. Select the kind of canned soup you wish and then add some cubed potatoes and a liberal amount of sliced cooked onions. Extra milk may be added to the soup. Instead of potatoes you may use hominy. Remember to use the oil on the salmon as it is full of flavor and food value.

### LEFTOVER FISH MAY BECOME TASTY DISH

Here too they may be planned and combined with other foods for second day meals.

We don't cook fish often enough during the year to be concerned about leftovers arising from fish dinners. With the Lenten season in full swing and the markets full of a variety of fish and sea foods we may be tempted to try the larger kinds and plan definitely for fish leftovers.

Fish is high in nutritive value, not only because it is a protein food but also because of the vitamins and minerals which it contains. Cod, salmon and halibut are rich sources of vitamin A, D and G, while shell fish and salt water fish are sources of iodine.

You can be sure you are getting fresh fish if you select those with red gills and close scales. Eyes should be bright and flesh firm and elastic. To cook fish with the least odor and loss of flavor, use a high heat at first and then reduce it. Whether you boil, fry or bake it, this rule holds good. The high temperature sears the surface and retains the meat juices and flavor.

In order to eliminate the aftermath, that is the fish odor which persists in clinging to dishes and utensils, add a little vinegar to the water in which they are washed.

Here are some fish recipes which make tasty meals of leftovers. Canned fish may be substituted. Baked Fish in Tomato Cups. Six tomatoes.

One and one-half cups flaked fish.

One-half cup bread crumbs.

One tablespoon minced onion.

One teaspoon Worcestershire sauce.

Two tablespoons melted fat.

### LENTEN SEASON CALLS FOR NEW AND COLORFUL DESSERTS

New dessert recipes are especially welcome during the Lenten season. Here is one that is colorful and tasty: Pear Pie Granadina.

Three or four fresh pears. One-half cupful granadine syrup.

One-half cupful water.

Two tablespoonsfuls quick cooking tapioca.

Unbaked pastry crust.

Combine syrup, water and tapioca. Heat slowly to steaming point and tapioca is softened. Pour over pears. Turn into pastry crust and bake at 425 degrees, a hot oven, until pears are tender; in about 30 minutes.

One-half teaspoon salt.

One-eighth teaspoon pepper.

One tablespoon chopped parsley. Cut a thin slice from the top of each tomato and scoop out the center. Combine fish, bread crumbs, the cut tomato pulp and the seasoning and place in the tomatoes. Bake in a covered casserole in a hot (450 degree) oven for 10 minutes and then uncover until brown. Serve from the casserole, or remove to a platter and garnish with watercress. They may also be placed around the edge of the platter with a mound of cooked vegetables as beans, broccoli or carrots in the center. Serves six.

Fish Creole in Rice Ring.

One-half medium size onion.

One-half cup mushrooms.

Two tablespoons fat.

One-tablespoon flour.

One cup mushroom broth.

One cup water.

One-quarter teaspoon salt.

One-eighth teaspoon pepper.

One-quarter teaspoon thyme.

One bay leaf.

Two pimientos, chopped.

Two cups cooked fish.

Rice ring.

Lemon.

Shrimp.

Cook onions and mushrooms and saute in fat for three minutes, stir in the flour, and when well blended, gradually add the liquid, then the seasonings, stirring constantly until thick. Add the fish, which may be tuna, salmon, shrimp, leftover fish, or a mixture of fish.

Serve in a rice ring, garnished with lemon and shrimp. Serves six.

Rice Ring.

Boil or steam two cups of rice in salted water. Drain and add two tablespoons of butter and place in an eight-inch buttered ring mold.

Allow the mold to stand in a warm place for half an hour, or bake in a 375 degree oven for 10 minutes.

Unmold on a platter and fill with fish Creole.

Fish Salad.

One-half cup tuna or other fish.

One hard-cooked egg, sliced.

One-third cup diced celery.

Two tablespoons chopped sweet pickles.

One tablespoon chopped pimento.

One-eighth teaspoon salt.

One-eighth teaspoon paprika.

Two tablespoons lemon juice.

One-third cup salad dressing.

Mix half the dressing with the rest of the ingredients. Chill. Serve in a bowl of crisp lettuce and top with the remaining dressing.

Spanish Egg Cutlets.

Four tablespoons vegetable shortening.

Five tablespoons flour.

One-half teaspoon celeryl salt.

One-half teaspoon paprika.

Dash of nutmeg.

One cup milk.

One tablespoon parsley, chopped.

Three tablespoons pimento, finely cut.

One tablespoon onion, minced.

Eight hard-cooked eggs, finely cut.

One-half cup sifted bread crumbs.

One egg, slightly beaten with one tablespoon water.

Melt shortening in top of double boiler.

Add flour and seasonings and blend. Add milk and cook until smooth and thick, stirring constantly. Remove from fire. Add

egg, parsley, pimento and onion, and blend. Spread mixture in shallow pan and chill in refrigerator until stiff. Cut into cutlets with two and one-half inch biscuit cutter.

Roll in flour, then in beaten eggs, then in crumbs. Fry in hot fat or shortening (375 degrees)

one inch deep in heavy frying pan until brown. Drain on absorbent paper. Serves six to eight.

PICK UP MEAT COURSE AND APPETITE WITH RELISH

Meat goes the same old round unless it is picked up with a relish of some kind. Here is one made of apricots:

Pickled Dried Apricots.

1 pound dried apricots.

Water.

Two cups sugar.

Six tablespoons vinegar.

Twenty-four whole cloves.

One-half teaspoon mustard seed.

Two sticks cinnamon.

Cook the apricots gently in boiling water to cover for 10 minutes.

Add sugar, vinegar and spices.

Cook until the fruit is tender but still holds its shape. Fill sterilized jars (use small ones), cover with syrup and seal as usual.

**ORANGE PIE**  
One cup water.  
One cup orange juice, strained.  
One and one-third cups sugar.  
One-half cup flour.  
Two tablespoons cornstarch.  
One-fourth teaspoon salt.  
Three egg yolks, well beaten.  
One-fourth cup lemon juice, strained.  
One baked pastry shell.  
Heat the water and the orange juice to scalding in the top of a double boiler. Combine the sugar, flour, cornstarch and salt, and carefully stir these into the hot liquid, cooking for about 10 minutes, or until thick and smooth. Spoon out a little of the hot sauce and stir it slowly.

**DELICATE SOUFFLE**  
MAY USE LEFTOVERS

**LET BAKED APPLES GO EXOTIC WITH A BLEND OF FLAVORS**

**B**AKED apples will go exotic at a moment's notice if you let them. These derive their flavor from a delicate blend of ingredients.

**HICK BAKED APPLES.**  
Four large baking apples.  
Four tablespoons honey.  
Four tablespoons almonds, blanched and chopped.  
One teaspoon butter.  
Two tablespoons butter.  
Peel top half of apple and remove core without piercing. This will keep all apple juice and honey from escaping as the apple cooks. Mix together butter and honey and pour a tablespoonful into each apple. Spread a little of the mixture over the top to glaze it. Add a teaspoon of chopped almonds and dot with butter. Place in a shallow baking dish and pour half a cup of water around the apples to prevent burning. Bake in a moderate oven (375 degrees) for one hour, or until tender. Serve with whipped cream.

**CAULIFLOWER SOUFFLE.**  
This souffle is baked in a moderate oven (350 degrees, about 30 to 40 minutes). You will need the following ingredients:

One head cauliflower, cooked.

Two tablespoons butter.  
Two tablespoons flour.  
One-half cup milk.  
One-fourth teaspoon salt.  
Speck cayenne or pepper.  
Two eggs, separated.  
One-fourth to one-half cup grated cheese.

Place well seasoned cauliflower florets into baking dish. Meanly prepare sauce of butter, flour and milk in customary manner. Stir in cheese, yolks and seasonings. Cool, then fold in stiffly beaten egg whites. Pour over vegetables and bake until puffy and delicately browned. It will settle slightly upon removal from oven. To test this dish for doneness, insert a cake tester or toothpick in the center. If the souffle is done, you will not be able to detect any of the mixture remaining on the "pick." Serve from the baking dish.

This recipe is suitable for serving four to six people, and a three to four cup shallow casserole is suitable for baking. If placed in a shallow casserole, the sauce will have more brown crust.

Other vegetables besides cauliflower may be used. A combination of several vegetables is very satisfactory. The flavors blend as the dish is cooking resulting in a souffle which enlists the family's approval. For a complete meal serve cauliflower souffle with a tart fruit salad and any favored breadstuff. Angel food cake with a custard sauce for dessert will complete the meal very nicely.

**THESE COOKIES WILL KEEP FOR WEEK-END PICNIC**

The surest way of drinking in all we can of the miracles of spring is to plan a picnic every week-end. A batch of cookies made prior to this occasion will fit in with any picnic scheme that develops. These cookies will keep well.

**RAISIN MALT COOKIES.**  
One cup seedless raisins.  
One cup butter.  
One and one-half cups sugar.  
One-half cup malted milk (dry).  
Four eggs.  
Four cups sifted flour.  
One-half teaspoon salt.  
Three-fourths teaspoon soda.  
Two teaspoons vanilla.  
One cup chopped nuts.  
Rinse raisins, drain, dry on a towel and chop. Cream butter; add sugar and malted milk and cream thoroughly. Add well-beaten eggs and mix. Add flour sifted with salt and soda and mix. Add raisins, vanilla and nuts and blend. Drop by small spoonfuls onto ungreased cookie sheet, about one inch apart. Bake in a hot oven (400 degrees) 10 to 12 minutes.

Makes about five dozen medium sized cookies.

**SHRIMP VEGETABLE DISH**  
One can shrimp.  
One-half cup bread-crumbs.  
One-half cup grated cheese.  
One cup peas.  
Three-fourths cup string beans.  
One tablespoon onion, chopped.  
One-teaspoon salt.  
Pepper.

Two eggs, beaten.  
One and one-half cups milk.  
Mix all of the ingredients together. Turn into a greased baking dish and bake in a moderate oven about one hour.

**DUMPLINGS**

One and one-half cups flour.

One-quarter teaspoon salt.  
Three teaspoons baking powder.  
Three-quarters cup milk or water.  
Mix and sift dry ingredients. Stir in milk or water and beat to a batter. Drop a tablespoon of batter at a time on top of the pieces of chicken. Cover and boil 10 to 15 minutes.

**SPICED STRING BEANS.**

One-half cup vinegar, one teaspoon mustard seed, one teaspoon sugar, one-half stick cinnamon, one small piece bay leaf, one-half teaspoon salt, one-eighth teaspoon cayenne, one-half cup string beans. Simmer vinegar and seasonings together for 10 minutes. Cut beans into small lengthwise strips, add boiling water, bring to boil, do not cook until tender. Drain beans, add hotspiced vinegar. Allow to cool, stirring occasionally.

**CHILD'S SELFHELP.**

A towel rod placed low enough on the bathroom wall for the small child to hang up his own towel and washcloth usually delights him and helps to make him more independent and tidy.

THURSDAY, APRIL 7, 1938

**SPAGHETTI MEAT SAUCE.**  
One pound chopped beef or veal, one-half cup olive oil, one clove garlic, one green pepper, chopped; one onion, chopped; one quart canned tomatoes, three-fourths can tomato paste, two teaspoons salt, sugar and water. Let simmer one and one-half hours, stirring occasionally to prevent sticking to the pan. Serve with cooked, drained spaghetti, topped with grated cheese.

**SPAGHETTI MEAT SAUCE.**  
One pound chopped beef or veal, one-half cup olive oil, one clove garlic, one green pepper, chopped; one onion, chopped; one quart canned tomatoes, three-fourths can

Tenants who plan to move are watching the Post-Dispatch Rental Column to find homes suited to their needs.

On many a meal it's a cake that holds the stage. All eyes are on the bride as she comes down the aisle. And it's a thrill to have a youngster to huff and puff on his own cake.

But no matter how occasion, a cake is just something to completely satisfy. And it's good to eat — with a good fine, even grain. Making a topnotch cake is an airy angel food or following the rule for each particular cake. These rules differ with each cake. And, according to the cake, the ingredients are in the proper whites and yolks the many spring meals.

Because of their spongy texture, these cakes require mixing and baking with fat. In order to a grained sponge cake, at room temperature, whites will whip up to a greater volume when they are used from the refrigerator. See to it, also, that the bit of egg yolk in the beaten and that no egg beater. If any kind into the white, it will get the stiff foam a sponge cake. And by amount rather than The number of eggs it make a cupful will vary with the size of each.

Since the air beater

## Sponge Cakes Are Ideal Springtime Desserts

Made Without Butter or Shortening They  
Take Advantage of Season When  
Hens Are Most Active.

On many a mealtime occasion white leavens this kind of cake, which holds the center of all the mixing is done gently and quickly in order not to lose any of this air. And when the mixing is through, the cake is baked immediately so that the air has no chance to escape before it does its part in making the cake light.

Air is Leaven

Much of the success of an angel food cake depends on the treatment of the egg whites—beating them to the right stage before combining them with the other ingredients. Most cooks prefer to use a rotary egg-beater for this. It gives a foam that is finer, although slightly less in volume, than does a flat egg-beater.

The meringue-method of mixing an angel food seems to give best results. In this, the salt is put in with the egg whites at the start. Then after the eggs have been beaten until they are frothy, the cream of tartar is added. Both the salt and the acid cream of tartar helps keep the foam stable—that is, keep it from going back to its natural watery state as it stands. And the cream of tartar helps to make the cake more tender, greater in volume and whiter.

Beat the egg whites with the cream of tartar until they form into soft, rounded peaks when the beater is removed. The whites are glossy, moist and still somewhat foamy. Beating the whites beyond this stage will make the cake coarse.

Both angel food and plain sponge cakes are good desserts in themselves. But often cooks use them as a base for other desserts—com-

plete help to make the egg foam stronger so that less air is lost during the rest of the mixing. Then fold in the flour, thoroughly mixed with the rest of the sugar, with a gentle, folding motion.

After the flour and sugar are completely folded into the mixture, bake the cake immediately, preferably in a tube pan. The oven should be at a temperature of about 325 degrees Fahrenheit. This temperature gives the interior a chance to set before the outside shrinks and becomes tough.

In sunshine cakes and plain sponge cakes where egg yolks are also used, the method of combining is somewhat different. For these, beat the yolks separately, until they are thick and lemon-colored. Then gradually add half the sugar and flavoring and beat them in thoroughly.

Beat the egg whites and fold in the sugar to make a meringue just as in angel food. Then fold the yolk mixture into the whites and add the flour gently into the combined egg and yolk mixtures.

Pour into an ungreased baking pan and put into an oven of about 325 degrees Fahrenheit.

To remove either angel food or sponge cake from the pan, invert them first to cool. Then, before they are entirely cold, take them out.

Many other similar variations

may be devised by the imaginative cook. Some like the flavor of the sponge cake better if it is lightly toasted. Others have special ways in which they combine sponge or angel food cakes to make use of fruits in season and the family's favorite sauces.

Following is a basic recipe for plain sponge cake:

Plain Sponge Cake.

One cup sifted flour.

One cup (four or five eggs).

One cup sugar.

Two tablespoons lemon juice.

One teaspoon lemon rind, grated.

One-half teaspoon salt.

Sift the flour three times. Beat the egg yolks until thick and lemon-colored; gradually add half the sugar, beating thoroughly, and then add the lemon juice and rind. Beat until thick. Beat the egg whites and salt until they start to peak and will still flow. Fold in the remainder of the sugar to make a meringue. Pour the yolk mixture over the whites and fold it into them gently. Then fold in the flour. Pour into an ungreased pan and bake in a slow oven (about 325 degrees) for from 50 to 60 minutes.

Plain Sponge Cake Recipe.

There are several ways to vary basic angel food or plain sponge cake recipes. One simple variation is a cocoa sponge or cocoa angel food. Replace one-fourth cup of flour in the recipe by one-fourth cup of cocoa. Sift the cocoa with the flour.

In a plain sponge cake recipe it is possible to substitute liquid and baking powder for one or two of the eggs. Two tablespoons of milk or water and one-half teaspoon of baking powder may be substituted for each egg omitted from the recipe. Sift the baking powder with the flour and add the liquid before folding the egg whites into the batter. With this substitution the cake may be baked at a slightly higher temperature—about 340 degrees Fahrenheit.

Both angel food and plain sponge cakes are good desserts in themselves. But often cooks use them as a base for other desserts—com-

plete help to make the egg foam stronger so that less air is lost during the rest of the mixing. Then fold in the flour, thoroughly mixed with the rest of the sugar, with a gentle, folding motion.

After the flour and sugar are completely folded into the mixture, bake the cake immediately, preferably in a tube pan. The oven should be at a temperature of about 325 degrees Fahrenheit. This temperature gives the interior a chance to set before the outside shrinks and becomes tough.

In sunshine cakes and plain sponge cakes where egg yolks are also used, the method of combining is somewhat different. For these, beat the yolks separately, until they are thick and lemon-colored. Then gradually add half the sugar and flavoring and beat them in thoroughly.

Beat the egg whites and fold in the sugar to make a meringue just as in angel food. Then fold the yolk mixture into the whites and add the flour gently into the combined egg and yolk mixtures.

Pour into an ungreased baking pan and put into an oven of about 325 degrees Fahrenheit.

To remove either angel food or sponge cake from the pan, invert them first to cool. Then, before they are entirely cold, take them out.

Many other similar variations

may be devised by the imaginative cook. Some like the flavor of the sponge cake better if it is lightly toasted. Others have special ways in which they combine sponge or angel food cakes to make use of fruits in season and the family's favorite sauces.

Following is a basic recipe for plain sponge cake:

Plain Sponge Cake.

One cup sifted flour.

One cup (four or five eggs).

One cup sugar.

Two tablespoons lemon juice.

One teaspoon lemon rind, grated.

One-half teaspoon salt.

Sift the flour three times. Beat the egg yolks until thick and lemon-colored; gradually add half the sugar, beating thoroughly, and then add the lemon juice and rind. Beat until thick. Beat the egg whites and salt until they start to peak and will still flow. Fold in the remainder of the sugar to make a meringue. Pour the yolk mixture over the whites and fold it into them gently. Then fold in the flour. Pour into an ungreased pan and bake in a slow oven (about 325 degrees) for from 50 to 60 minutes.

Plain Sponge Cake Recipe.

There are several ways to vary basic angel food or plain sponge cake recipes. One simple variation is a cocoa sponge or cocoa angel food. Replace one-fourth cup of flour in the recipe by one-fourth cup of cocoa. Sift the cocoa with the flour.

In a plain sponge cake recipe it is possible to substitute liquid and baking powder for one or two of the eggs. Two tablespoons of milk or water and one-half teaspoon of baking powder may be substituted for each egg omitted from the recipe. Sift the baking powder with the flour and add the liquid before folding the egg whites into the batter. With this substitution the cake may be baked at a slightly higher temperature—about 340 degrees Fahrenheit.

Both angel food and plain sponge cakes are good desserts in themselves. But often cooks use them as a base for other desserts—com-

plete help to make the egg foam stronger so that less air is lost during the rest of the mixing. Then fold in the flour, thoroughly mixed with the rest of the sugar, with a gentle, folding motion.

After the flour and sugar are completely folded into the mixture, bake the cake immediately, preferably in a tube pan. The oven should be at a temperature of about 325 degrees Fahrenheit. This temperature gives the interior a chance to set before the outside shrinks and becomes tough.

In sunshine cakes and plain sponge cakes where egg yolks are also used, the method of combining is somewhat different. For these, beat the yolks separately, until they are thick and lemon-colored. Then gradually add half the sugar and flavoring and beat them in thoroughly.

Beat the egg whites and fold in the sugar to make a meringue just as in angel food. Then fold the yolk mixture into the whites and add the flour gently into the combined egg and yolk mixtures.

Pour into an ungreased baking pan and put into an oven of about 325 degrees Fahrenheit.

To remove either angel food or sponge cake from the pan, invert them first to cool. Then, before they are entirely cold, take them out.

Many other similar variations

may be devised by the imaginative cook. Some like the flavor of the sponge cake better if it is lightly toasted. Others have special ways in which they combine sponge or angel food cakes to make use of fruits in season and the family's favorite sauces.

Following is a basic recipe for plain sponge cake:

Plain Sponge Cake.

One cup sifted flour.

One cup (four or five eggs).

One cup sugar.

Two tablespoons lemon juice.

One teaspoon lemon rind, grated.

One-half teaspoon salt.

Sift the flour three times. Beat the egg yolks until thick and lemon-colored; gradually add half the sugar, beating thoroughly, and then add the lemon juice and rind. Beat until thick. Beat the egg whites and salt until they start to peak and will still flow. Fold in the remainder of the sugar to make a meringue. Pour the yolk mixture over the whites and fold it into them gently. Then fold in the flour. Pour into an ungreased pan and bake in a slow oven (about 325 degrees) for from 50 to 60 minutes.

POTATO PUFFS ARE CHANCE  
TO SURPRISE FAMILY

If your family is one of those which feel that the meal is not complete without potatoes in some form or other, you probably rotate between potatoes mashed, boiled, baked or fried. But there is a chance to spring a surprise in the potato department.

## Potato Puffs.

One-half cup sifted flour. One and one-half teaspoons double-acting baking powder. One-quarter teaspoon salt. Dash of white pepper. Two eggs, well beaten. One cup mashed potatoes. Sift flour once, measure, add baking powder, salt and pepper, and sift again. Add eggs to potatoes, beating well; add flour. Drop from teaspoon into deep fat (385 degrees) dipping spoon each time in hot fat before dipping into mixture. Turn puffs frequently during frying. Cook one to two minutes, or until golden brown. Drain on ungreased paper. Makes 12 small puffs.

To vary the recipe, add one-quarter cup chopped cooked ham or broiled bacon to batter.

## Chafing Dish Supper.

Quickly prepared kitchen or chafing dish suppers, well suited to impromptu refreshments, are always ready for use in cans. Creamed sea foods such as shrimp, crab, salmon or tuna, with ripe olives cut into chewy wedges, makes a popular entree for such occasions. Add extra seasoning to the white sauce, small amounts of dry mustard, paprika, Worcesterhire sauce, and a mere dash of onion juice. Serve on crisp toast points.

COMBINE FLAVORS IN  
LUNCHEON DISHES

Food Leftovers May be Served at Midday Meal to Tempt Appetites.

It is too bad that the world has no more time than it does to enjoy leisurely luncheons for luncheon dishes, as we are pleased to think of them, have a charm and character all their own.

The typical luncheon dish is a true concoction of ingredients and flavors brought together and blended into a harmonious whole. A bit of this and that and two dashes of something else and lo! a thing apart for sheer goodness.

There are enough home keepers at their post at high noon even in these fast-moving times to keep alive the tradition of luncheon. Families gather again or friends come in and a party is made of it. At any rate, luncheon is served.

It is a light meal and almost dainty, but no one can accuse it of being unsatisfying to the midday appetite. It looks, on the contrary, are usually deliciously like so many important things that come in small packages.

This must be the reason why creamy things and things au gratin and dainty morsels concealed between crust or blended with our favorite extenders top the list of luncheon firsts. They are so easily made and the ingredients are always at hand.

They should be cooked over a low flame and as it sets around the sides, it should be lifted and the pan tipped a little so that the uncooked mixture will flow underneath. Then the pan should be shaken over the fire to brown the omelet slightly. It is then ready to fold and turn out on a serving plate. With the same ingredients it takes a little longer however to mix and cook a fluffy omelet as you will see by the recipe below.

CONVERT SOUR CREAM  
INTO KITCHEN TREATS

Delicate Crumbs and Textures  
Assured in the Use of  
This Dairy Product.

Sour cream, soured cream, cultured cream, or salad cream, call it what you wish, it still means the start for something good to eat. There are many homemakers, no doubt, who think of using this product only when the cream on hand becomes sour. With modern refrigeration methods this doesn't happen often, and so you and your family may be missing many treats unless you know that sour cream is now a modern dairy product. It is made from pasteurized cream, carefully ripened with pure culture under controlled conditions. This insures a uniform product each time you order sour cream from your dairyman or grocery store.

Satisfactory results in cooking are assured whereas when using cream that has soured at home, it may be thick one time and thin another, thus good results in your finished products are doubtful.

Here is a recipe for sour cream refrigerator rolls. The dough may be stored in the refrigerator for as long as five days, you may wish to take parts of it and make rolls several times during these days. No rolls for breakfast, luncheon or supper are always a delight, and a stock of this sour cream dough on hand will solve the problem of what to serve when unexpected guests arrive. It requires a minimum amount of time and labor to prepare and no long hours of watching as in the old days of hand baking.

**Sour Cream Refrigerator Rolls.**

One cake compressed yeast.  
One-half cup sugar.  
Three-fourths cup butter.  
One-half cup milk, scalded.  
Two eggs.  
One cup dairy made sour cream.  
Four and one-half cups sifted flour.

One and one-half teaspoon salt.  
Crumble the yeast into a mixing bowl; add sugar and stir together until yeast liquefies. Let stand about 20 minutes. Meanwhile melt the butter in scalded milk. Beat eggs. Add sour cream; blend well with yeast and sugar mixture. Add lukewarm milk and butter and flour at once. Beat eight or 10 minutes. Place dough in covered dish and allow to stand over night in refrigerator before using. The dough may remain in refrigerator as long as five days without deterioration.

The next day, let dough rise in warm place to double its original bulk, or more. Knead in one and one-half cups more flour. Roll out into two sheets about one-fourth inch thick. Spread with thin layer of sour cream, sprinkle with brown sugar and add a few nut meats. Roll lengthwise; cut like a jelly roll in slices one and one-half inches thick. Place in buttered muffin tins lined with brown sugar, nut meats, and a dot of butter. Set in a warm place to rise to double their bulk. Bake at 400 degrees for 25 minutes, then reduce heat to 350 and bake about 10 minutes longer. Yield: Two dozen rolls.

When only part of the dough is taken from refrigerator at a time, divide the amount of flour for kneading accordingly.

Here is a cookie recipe calling for soured cream.

**English Biscuits.**

Sift flour, measure two cups and sift again with one-half teaspoon soda, one teaspoon baking powder and one-half teaspoon salt. Add two cups oatmeal. Cream one cup shortening and one cup brown sugar, add two unbeaten eggs one at a time, and blend. Add one-half cup candied fruits, cut fine, one cup raisins and one cup sliced Brazil nuts. Add one-third cup soured cream, then dry ingredients and mix well. Place in refrigerator overnight, or for several hours, then drop by teaspoons on greased cookie sheet. Bake in moderately hot oven (400 degrees) 12 to 15 minutes.

**Spiced Apple Salad.**

Six or eight apples, one cup cottage cheese, one-quarter cup chopped walnuts, one cup sugar one cup water, one cup cinnamon, drops (red hot), mayonnaise. Heat water, sugar and cinnamon drops until candy is dissolved. Pare and core apples, place in syrup cover and cook very slowly until tender but not broken. Turn over during cooking so that they will not become mushy on the bottom. Remove carefully from the syrup and allow to cool. Chill thoroughly and fill centers with cheese and nuts mixed with enough mayonnaise to moisten. Arrange on crisp lettuce and serve with mayonnaise.

**Indian Curry Sauce.**

One cup finely chopped onion. Three ounces butter. One tablespoon curry powder. One and one-half pints light cream. One cup meat broth. Two tablespoons chutney, chopped fine.

Smother onions in butter until yellow. Add the curry powder and stir continually for a few minutes. Add the broth and boil for 20 minutes. Add the cream, boil 20 minutes and then strain. Add one teaspoon salt and a drop of lemon juice. The chutney is stirred in just before serving. This makes one quart of sauce.

To remove the water mark which forms on the bathroom tumbler, fill it with sour milk or buttermilk and let stand overnight.

and get doubly delicious results

READ below what cooking experts say about Spry's amazing creaminess. No wonder you can mix a cake in half the time. No wonder Spry cakes are so fine-grained and velvety. So rich and flavorful, too. For purer All-vegetable Spry lets you get full flavor value from your other ingredients.

Notice the fine, delicate flavor Spry pastry and fried foods have, too. They're so delicious every crumb is eaten, so digestible a child can have them. Spry doesn't smoke when you fry. Doesn't need to be kept in the refrigerator. Stays fresh indefinitely right on the kitchen shelf. So buy the big economical 3-lb. can and don't wait. Try Spry today!

**Spry**  
The new, purer  
All-vegetable  
shortening

TRIPLE-CREAMED!

2 cups Spry  
1/2 cup sugar  
1/2 cup shortening  
1/2 cup milk  
1/2 cup water  
1/2 cup flour  
1/2 cup brown sugar  
1/2 cup chocolate  
1/2 cup nuts  
1/2 cup raisins  
1/2 cup candied fruit  
1/2 cup cream

Combine Spry, sugar and vanilla. Add sugar gradually and cream until light and fluffy. So quick and easy with triple-creamed Spry! Add eggs, one at a time, beating thoroughly after each addition. Notice what a smooth, fluffy batter you get. No wonder Spry cakes are so light and fine-grained! Add melted chocolate and nuts.

Add baking powder and soda to flour and sift 3 times. Add small amounts of flour to creamed mixture, alternately with milk, mixing after each addition until smooth. Pour batter into two 8-inch layer pans greased with Spry. Bake in moderate oven (350 F.) 30 to 35 minutes. But remember, use Spry. Spread Primes Cream Icing between layers and on top and sides of cake. Sprinkle with grated chocolate as shown in picture.

**PRIMROSE CREAM ICING**

2 tablespoons Spry  
1/2 cup sugar  
1/2 cup water  
1/2 cup milk  
1/2 cup cream  
1/2 cup orange juice  
2 tablespoons scalped cream (about 1/2 cup)

Combine Spry, sugar and vanilla. Spry makes your frosting smooth and creamy—keeps it fresh and moist. Add 1/2 cup sugar gradually, creaming until light and fluffy. Add egg yolks and blend. Add remaining sugar and beat until frosting is smooth and creamy. Add hot cream and beat well. Add just enough cream to make a nice spreading consistency. Makes enough frosting for tops and sides of two 8-inch layers.

(All measurements in these recipes are level.)

In 3-lb., 1-lb. cans. Also in the big 6-lb. family size.

(Clip and save this Spry recipe.)

## Quick Mayonnaise.

Mix two tablespoons vinegar or lemon juice, one teaspoon salt, one-fourth teaspoon paprika, one-fourth teaspoon mustard (if you like the flavor) and two egg yolks. Add two cups salad oil gradually, beating constantly with a wire whisk or rotary egg beater. When thick and all the oil has been added, add one tablespoon boiling water and beat vigorously until well mixed. Turn into two jelly glasses and cover with waxed paper and replace the lids. The boiling water seems to keep the mayonnaise from separating as it sometimes does.

## Split Pea Soup.

One pound split peas, one-fourth pound salt, one onion, stuck with a few cloves, one teaspoon red pepper pod, salt, three and one-third cups evaporated milk. Pick split peas over carefully. Wash and soak several hours in three quarts of water. Drain. Add two quarts boiling water, bacon, onion and red pepper pod. Boil until split peas

are tender. There should be about two and one-half quarts pulp and liquid. Add milk and salt to taste, about one and one-half teaspoons. Makes three and one-fourth quarts soup.

**For Quick Icing.**  
Melt some chocolate bars, over low heat, add a little cream and spread on cake. Cut with a hot knife.

THURSDAY, APRIL 7, 1938

## ORCHARDS FOUR WEEKS AHEAD OF SCHEDULE

Moisture Ample for Crops in Most Districts of State.

Ampic rainfall and prolonged periods of mild temperature have resulted in favorable crop conditions in most districts of the State, the Weather Bureau here stated in its weekly report today. Frosts in northwest areas have caused only minor damage to fruit trees.

Reviewing weather and crop conditions during the period of October 1937 to March 1938, the bureau said: Dry weather in October and November, especially in the northwestern quarter of the State, was unfavorable for seedling and for germination of wheat and other grains.

The cold period in November and the first half of December were also unfavorable, resulting in poor stands in considerable areas.

Wheat was backward until the last of January, when mild weather and needed moisture came. It then improved decidedly, but still was in only fair condition in the northwestern counties at the end of February.

The extreme mildness and the ample moisture of March caused rapid advance of all vegetation, and wheat became good to excellent except for bare spots in the northwestern counties. Fruits were in bloom about four weeks ahead of normal. Sowing of spring oats had been almost completed by the end of March.

Although heavy rains fell in central and southern portions during the last few days of March, the first five days of April were without rainfall of much consequence. The St. Joseph area and the section to the northward thereof is still in need of rain to give a normal supply of subsoil moisture. Elsewhere in the State moisture is ample.

Frosting temperatures and frost on the mornings of April 1, 2 and 3, with as low as 20 degrees in parts of the northwestern section on the second, caused considerable damage in spots to peaches, plums, and cherries, but on the whole no serious damage is indicated by reports. It is believed that apples were not much hurt.

Wheat is now mostly in good condition, with some excellent, but in some localities, principally in the northwestern quarter, many fields show bare spots. The most advanced wheat is about six inches high and some is jointing. Rye, barley, and pastures are reported in fair to good condition for the most part. Spring oats are mostly up to good stands. Preparations for corn planting are well advanced.

A fruit dressing is an unusual stuffing which blends excellently with shoulder of lamb and turns this economy cut into a roast fine enough for company dinner.

Cushion Style Shoulder of Lamb With Fruit Dressing.

One lamb shoulder, boned. Two cups bread crumbs.

Six cooked apricots, diced.

Six cooked prunes, diced.

One small orange, chopped.

One egg, beaten light.

Salt and pepper.

Have the bone removed from the lamb shoulder. Sew on three sides, leaving the fourth side open for dressing. Make a dressing of the bread crumbs, fruits and beaten egg. Pile this into the cavity made by removing the bone from the shoulder. Sew or skewer the edges together. Place the stuffed lamb shoulder on a rack in an open roasting pan and roast in a slow oven (300 degrees) until done. Allow 40 to 45 minutes per pound for roasting.

Other dressings may be used to give this lamb cut variety. Quite different from the fruit dressing, but equally good is a sausse dressing.

Sausage Dressing.

One-quarter pound bulk sausage.

Two tablespoons grated onion.

Two tablespoons chopped parsley.

One cup bread crumbs.

Salt and pepper.

Stock or water.

Fry the sausage with onion and parsley, stirring constantly until the meat is cooked enough so it separates into particles. Add the crumbs and seasonings and enough liquid to make a moist dressing. While hot, pack into the lamb shoulder. Sew or skewer the edges together. Place the stuffed lamb shoulder on a rack in an open roasting pan and roast in a slow oven (300 degrees) until done. Allow 40 to 45 minutes per pound for roasting.

Other dressings may be used to give this lamb cut variety. Quite different from the fruit dressing, but equally good is a sausse dressing.

Stuffed Pickled Peppers.

Stuffed pickled peppers often are called mango pickles. The real mango is a tropical fruit and grows on a tree.

Tropical Mango.

Continued From Page One.

of Europe dare not risk further aggression."

Dr. Summerskill's victory was the second for the Labor party this year.

In February before Edens' resignation R. R. Stokes won the Ipswich seat from a Conservative.

Labor has not lost a seat in a local election in more than two years. It has won in eight of 45 contests.

Chamberlain entered the Fulham campaign by writing a letter to Busby on foreign policy, which was used by the Conservatives as campaign material.

Lifting of Embargo Urged.

A deputation from the General Council of Trades Unions' Congress called on Foreign Secretary Halifax yesterday to urge lifting of Britain's embargo on shipment of arms to the Spanish Government.

Halifax reiterated to the delegation that Britain was maintaining a "hands off" policy.

A group of labor members of Parliament called a conference for April 22 to discuss methods of helping the Spanish Government. Invitations were sent to political, religious and peace societies.

The Amalgamated Engineers' Union, which balked at the Government's request for co-operation to speed up armament production, appealed to workers to give voluntary overtime on behalf of the Spanish Government.

The union declared that overtime work would be used to produce non-armament goods, such as ambulances, for immediate shipment to Spain.

The Government asked both Spanish factions to be tolerant in the treatment of political prisoners and hostages in the event of further Government retreats in Northeastern Spain.

The Spanish Government was asked to prevent shooting of "acts of revenge" on political prisoners, and insurgent authorities were told that the British Government hoped they would maintain strict discipline in newly-conquered districts.

In a new demand that the Spanish Government be guaranteed the right to buy arms, President Arthur Horner of the South Wales Miners Federation pledged 125,000 members to try "to bring about defeat of reaction beginning with our own national Government."

Speaking at the annual conference of the federation, Horner said, "we are disgraced before the world. Britain, once the home of the free, is now the pillar whereon world reaction leans. Victorious Fascism, flushed with blood, may turn upon us yet. Only a united people can save us."

## DAILY MAGAZINE

PART FOUR

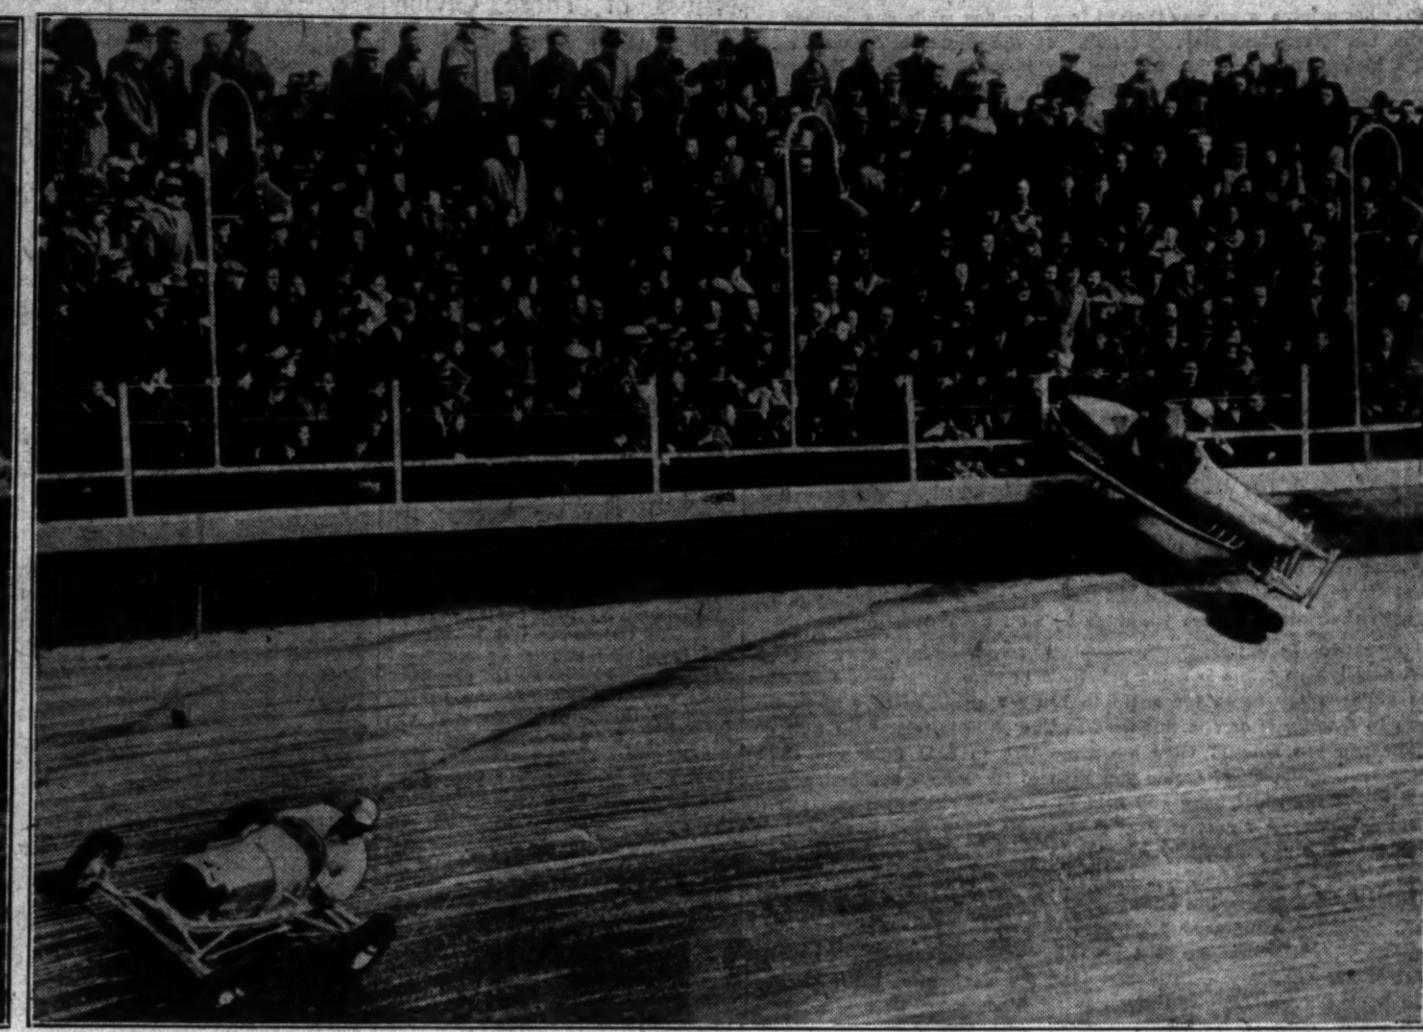

ST. LOUIS, THURSDAY, APRIL 7, 1938.

PAGES 1-8D

**ARMY DAY** George Budde Jr., four years old, experiments with a machine gun at Jefferson Barracks while Private J. Mann looks on. The gun was part of the equipment displayed yesterday during observance of Army Day.

—By a Post-Dispatch Staff Photographer.

**HEADED FOR A SPILL** Miniature racing car driven by Vern Orenduff bouncing into the guard rail at the Nutley (N.J.) track. The car struck the rail and somersaulted down the track, slightly injuring Orenduff.

**KING MULE** He was crowned at the Columbia (Tenn.) mule market festival by Norma Pearl Perkins (left) and Freda Jane Journey.

—Associated Press Photo.

**NEW ZOO STUNT** Clarabelle, Marian and Vi, Forest Park Zoo trained elephants, giving a preview of one of the stunts they will perform in this summer's circus. They are drinking sweetened water from metal bottles.

—By a Post-Dispatch Staff Photographer.

**FORMER T V A HEAD** Dr. Arthur E. Morgan, dismissed as chairman of the Tennessee Valley Authority by President Roosevelt, working in the garden of his home at Yellow Springs, O.

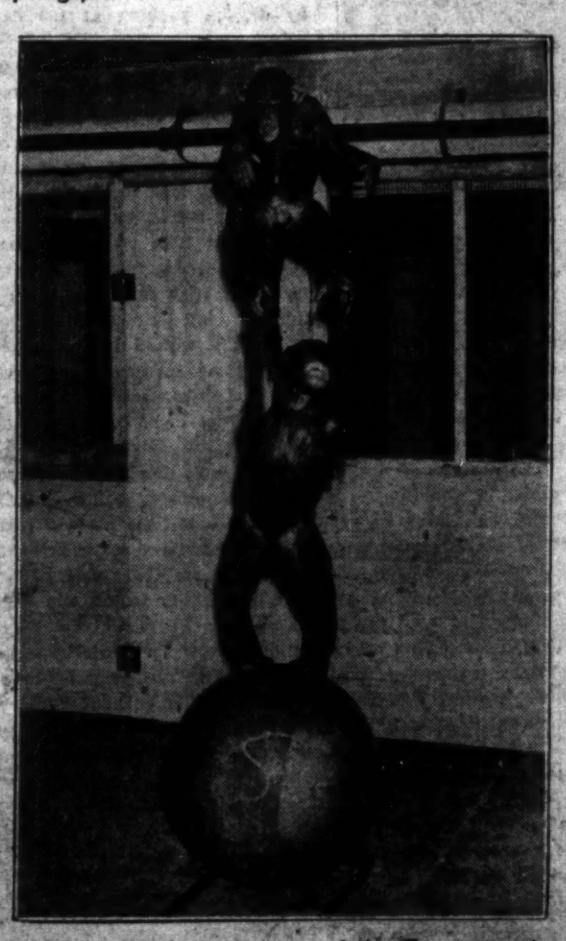

—Wide World Photo.

**SPRING REHEARSAL** Jackie and his troop of trained chimpanzees are busy at the Forest Park Zoo putting the final touches on their act for the summer season. Here Jackie is leaping into the air from a spring-board.

It is one of his new stunts, and he lands on a large wooden ball on which he balances. The troop of chimpanzees will start public performances as soon as the weather permits, probably early in May.

Here Lady, feminine star of the Zoo troupe, is balancing Jimmie while she walks on the wooden ball. Another new stunt in the chimpanzee show.

—By a Post-Dispatch Staff Photographer.

## WELL, I'LL TELL YOU—By BOB BURNS

THERE'S nothin' as small as a man blamin' his short-  
comings on a woman, but it looks like if a man's  
weak enough he'll do it no matter how high a station he  
occupies.

I read the other day of a man who absconded with  
several million dollars, and he said he did it to please a  
woman's vanity. In the same paper I read about a man  
bein' arrested for petty larceny. The judge says, "This  
is the fourth time you have broken into that dress shop  
and stolen a dress."

The man says, "No, Judge, I broke in once and stole  
a dress and then my wife made me take it back and  
change it three times."

(Copyright, 1938.)

# ON BROADWAY

with

Walter Winchell

NOTES Made at 6 in the Morning: Nancy Sewall of the Swanky Set says her ermine wrap was stolen from her box while she was seeing the Lunt-Fontanne play, "Seagull," at the Shubert Theater. . . . FDR's income from all his articles, we recently reported, would be about \$90,000. . . . The White House denied it. . . . Liberty paid \$30,000 for two articles, which run in three sections. . . . The newspapers and syndicates are paying \$50,000. . . . It is not known how much the book will bring. . . . And so \$90,000 was close enough, Mr. Early! . . . The fire in the Savoy-Plaza recently was the third mysterious blaze in recent weeks. The New Yorker had one, as did the Park Central. Newsweek has a poll of 24 leading economists—in government and private industry—who've answered specific questions on what lies ahead of American business for the next three months. Their answers show that present scare predictions are baseless. . . . Doug L'Ami and Virginia French will tell you how a "smart" spot hatchet girl gave him a terrific slap and ordered him out—because he brought matches from a rival night club into the place! . . . In the Revolution here already? . . . That colored gal who won \$150,000 on Battleship panicked them on the air when she said: "Ah'll bet the Gubamint don't have as much fun with their share of the winnings as ah'll have with mine!"

WALTER WINCHELL

A new low in crime is being practiced in New York by a man who gives children ten cents for a tip to bring a package to a fictitious person in tenements or apartments. . . . The child is told: "But how do I know you are honest? Give me something to hold until you come back. Your signet ring? Or do you wish to leave your spectacles with me?" . . . If the specs have any gold in them, the stranger can sell it for a few coins. A signet ring of gold might bring \$1. . . . Of course, the petty crook has disappeared by the time the child returns.

Ivor Brown, when he was recently here, dispatched a column called: "Looking Around New York" to his newspaper in London, The Observer. . . . His January 23rd piece has just come to this desk. He reported: "It is surely a little odd that the darling of the city, and perhaps of the continent, is Mr. Charlie Macarthur, who is a radio ventriloquist, complete with dummy."

Eddie Garr tells of the small-time agent in the Strand Building who phoned an actor-client the other day. . . . "Come over at once and see about a three-day engagement in Fort Jervis," he screamed. "And if you bring along a corned beef sandwich," he advised, "it will be to your advantage."

Reno and all other U. S. divorce centers will lose their abrogation trade if the Appellate Division upholds the New York Supreme Court ruling that Paul Leviton is legally divorced from Nina Pierson as the result of their overnight stay in Mexico. This is not to be confused with mail order divorces which will still be illegal regardless of the outcome of this case. Divorcees can cut down a six week's stay in Reno to a week-end in Mexico. . . . The midtown sector, by the way, hears that a well known divorcee, who divorced her former Administration husband, is plotting to have it set aside! She tells intimates "it was a mistake" . . . Her intimates believe she now realizes it was his prestige which got her into fashionable homes—and that since she aired him—she is as welcome as smallpox.

Pare ("The River") Lorentz in McCall's for April still knows how to chuck bombs at actors. . . . Reviewing "A Yank at Oxford" (starring Robert Taylor), he sets forth: "Two of the English players—Vivian Leigh, as the college widow, and Edmund Gwenn, as a testy don—give superb performances, but Mr. Taylor, being Mr. Taylor, is content to be himself."

## Inaccurate Reporting

By Logan Clendening, M.D.

PEOPLE who write medical news for the newspapers and magazines often get very close to the truth in spite of the fact that they never have treated a patient or been in an operating room in their lives, but exactly for that reason they often just miss the truth. For instance, I find the following statement:

"Most advanced hospitals now utilize a method of preserving mother's milk (often needed in a hurry for premature babies) for periods up to one year. The milk is drawn from the donors into sterile containers, then poured into metal molds kept by dry-ice packing at 109 degrees below zero."

Of course, no advanced hospitals do any such thing, because it is perfectly easy to feed a premature baby for a while on water and sugar and after that an artificial mother's milk. The problem of the premature baby is not feeding, but breathing.

Another statement:

"Surgeons have realized since the time of Lister that the air of the operating room is a dangerous source of wound contamination."

This is the kind of a statement that emanates from people who goggle at an operating room from afar. Practical surgeons gave up the idea that the air contaminates a wound before Lister died, and practical surgeons know that if their instruments, towels, etc., are sterile and their hands are clean and uncontaminated, their percentage of wound infection is less than 1-1000 of 1 per cent.

And still another:

"Hospitals in several large cities have established 'serum exchanges' by which life-saving serums for pneumonia, diphtheria, measles and other diseases may be preserved for indefinite periods without loss of their germ-destroying powers. The serums are frozen solid at 100 degrees below zero, then 99.9 per cent of the water present is sucked off in a vacuum, leaving dry serum crystals which are sealed in containers."

My comment on this piece of newspaper medicine is that it is unnecessary to have serums for diphtheria and pneumonia because true antitoxins for these diseases are available without preserving human serum. In other words, they can be obtained from ordinary diphtheria antitoxin and pneumonia antitoxin. The kind of serum this writer is talking about is a convalescent serum from a patient who has had the disease. In the case of measles, he is right. Convalescent serum has been used in measles, which makes his batting average for accuracy 43-1-3 per cent. That is all right in the National League but not for medical science.

Here is the reducing diet for tomorrow:

**BREAKFAST**—Stewed apples, puffed wheat, glass of milk, black coffee.

**DINNER**—Shrimp salad with celery, lettuce and mineral oil mayonnaise; one slice gluten bread and golden spread butter, floating island (egg, milk, vanilla and saccharin), coffee.

DR. CLENDENING.

## Correct Form In Invitations To Weddings

Names of Those Giving  
Reception Are Listed—  
Large Church Gatherings.

By Emily Post

EAR MRS. POST: My parents are giving me my wedding, but my grandparents are lending their big house for the reception. We live in an apartment in the same town. When having the reception invitations engraved, is their name included on the reception invitation, and what can we do to let those on my fiance's list know that we would like their answers to be sent to our address rather than to the one given for the reception?

Answer: If your parents are really giving the reception; that means if they are ordering the food and the decorations and undertaking all the expense of it, the invitation is engraved in their names, your grandparents' address alone given as that for the reception. In the lower left corner of the invitation should be engraved "Kindly send response to" and then your own address. If the invitations to the house were sent out in your grandparents' names it would mean only one thing: that they were really giving the entire reception; in other words, paying for it.

Dear Mrs. Post: Our family is not very well off, but in spite of this fact we can't see what objection there would be to my having a simple wedding in church. The invitation list of both families is long, but as our church is large everyone can be invited to the church. The reception afterward will be for immediate families only. Mother has raised the question, however, concerning the taste of people in our known modest circumstances, sending out so many engraved invitations to the ceremony. She feels that even though having 50 people at the church would cost the same as having 500—except for the cost of invitations—we might be criticized for what could to some people seem a conspicuous display. Will you give us your opinion?

Answer: It is quite all right to ask as many people as you like to the church. The difference between the display and the simple wedding is one of decoration. In other words, if the whole church were elaborately decorated with flowers this would seem a good display. But to merely have palms on the chancel, which, as every one knows, are rented from a florist, and to have flowers only on the altar, makes it entirely suitable since as you say the expense goes no further than the number of invitations. After all, sending announcements to these same people would cost just as much.

(Copyright, 1938.)

Pear Pastries

Cook six Bartlett pears, pared and cored, until tender and then press through a sieve. (Canned pears may be used, if desired, and just put through a sieve.) Add to the pulp one cup powdered sugar, the grated rind and juice of one lemon, a pinch of baking powder, the stiffly whipped whites of two eggs. Line muffin tins with a rich pastry and fill with the pear mixture. Bake in a moderate oven until the pastry is done. A dab of whipped cream atop makes them particularly attractive.

Cream cheese and chopped watercress make a very attractive pinwheel sandwich.

These nine are needed for body growth and health: calcium, phosphorus, potassium, sulphur, sodium, chlorine, magnesium, iron and iodine. Ten or more others contribute to our continued well-being. Among them are fluorine, silicon, manganese, copper, arsenic and aluminum. But don't be alarmed. We do not demand that you go into a mathematical dither in order to compute exactly how much of each mineral you must have in your everyday diet. Nothing at all like that.

We'll take the easiest way.

Leading nutrition experts—all university authorities—say that if we keep up to the mark our supply of calcium, phosphorus and iron, the rest of the mineral family will take care of themselves. Let's concentrate on those three: calcium (for bones and teeth); phosphorus (for bones and teeth); and iron (for blood growth and the oxygen-carrying properties of the blood). These three are tricky minerals in which we are apt to be lacking unless we use judgment.

But when we know that they are to be found abundantly in fruits,

we should eat them. Let's concentrate on those three: calcium (for bones and teeth); phosphorus (for bones and teeth); and iron (for blood growth and the oxygen-carrying properties of the blood). These three are tricky minerals in which we are apt to be lacking unless we use judgment.

But when we know that they are to be found abundantly in fruits,

we should eat them. Let's concentrate on those three: calcium (for bones and teeth); phosphorus (for bones and teeth); and iron (for blood growth and the oxygen-carrying properties of the blood). These three are tricky minerals in which we are apt to be lacking unless we use judgment.

TS and DYES

Dear Martha Carr:

QUESTION that has been causing quite an argument between my aunt and myself concerns the Queen of Holland and the former Kaiser. My aunt says that the Queen married the former Kaiser, and I say she did not.

B. N.

Letters intended for this column must be addressed to Martha Carr at the St. Louis Post-Dispatch. Mrs. Carr will answer all questions of general interest but, of course, cannot give advice on matters of a purely legal or medical nature. Those who do not care to have their letters published may enclose an addressed and stamped envelope for personal reply.

Dear Mrs. Carr:

CAN you tell me what date Good Friday came on in 1902? Also when you write good-bye to somebody, how do you spell it? Can you tell me a way to get rid of blackheads around the nose?

MRS. F. S.

Good Friday, 1902, was on March 28. The preferred spelling is as above, good-bye, although sometimes it is spelled good-bye. You will have to send me a self-addressed and stamped envelope so I can send you my leaflet for the treatment of blackheads.

Dear Mrs. Carr:

AM 15 years old, tall, and have been told good-looking, and I am developing a good figure. I would like to be popular but when I walk into a crowd with boys in it they soon leave, making me feel as if they don't want to be around me. I have learned to dance, go for sports, have a shotgun and like movies. I also like my school work and my teachers say I am above the average in most subjects. I also draw. Can you tell me why the boys don't like me? They are always dancing or talking with my girl friend.

D. S.

Your trouble may be that you are two anxious to please the boys, and not independent enough. At 15, when a girl is worried about being popular, she is inclined to try and be too much a charmer. Try being a little more aloof, more indifferent to whether the boys want to be around you or not, and it may interest them. Perhaps your girl friend, if she really is a friend, can give you some advice. Also, you may send me a self-addressed and stamped envelope and I will send you a leaflet on popularity.

Dear Mrs. Carr:

HAVE been married two years. My trouble is I have to go out and bring home the bacon while my husband hangs around the corners. I tell him to try and get a WPA job, but he won't do that. I know he still loves me but I am tired of living this kind of life. A fellow I thought a lot of before I married knows my husband doesn't care for work and tells me any time I break up he would like to help me out. You might think this baby talk but I am tired of working every day and when I get home, having to clean the house and get supper. I was only 17 when I married and I admit I didn't know much, but I surey have learned a lot about married life and I am tired of it all.

DISGUSTED WIFE.

Your husband certainly should not let you support him, without making a determined effort to do his share. I think you should at least take a determined stand that since he has so much spare time on his hands, he can at least take care of the house and take some of the burdens from you that way. Perhaps an ultimatum that no help, no meals for him, would bring the matter to a head. But certainly you would not improve matters by pouring your troubles into the ears of this other man who “would like to help you out,” and is sitting by waiting for you to leave your husband. When you speak of that, it sounds as if perhaps much of your resentment at your husband is not because of his loafing, but because you are trying to find an excuse to listen to the other man. Personally, I do not think he can be a very strong person if he is trying to interfere in a marriage, and that you had better think twice before you believe too much. You seem to think you have made one mistake; do you want to make another? You might ask advice of the Court of Domestic Relations, in the Civil Courts Building, Twelfth and Market boulevards.

Dear Mrs. Carr:

We have a Sunday before Palm Sunday examination for our confirmation class, and a Palm Sunday confirmation. Is it proper to give the children the jewelry for the examination or for the confirmation? We are Lutheran.

WILLIAM B.

If by the jewelry you mean the confirmation gift, that is given on Palm Sunday, the day of the actual confirmation. The examination is merely a preliminary to the other.

O.

AM a girl 15 with hopes of becoming a classical singer; but my parents can't afford to pay for my lessons. So I am coming to you for information. A famous singer once said, if you cannot afford lessons, join a good choir. Can you tell me of any good choir in St. Louis that I could join? Thanking you in advance.

ANXIOUS.

Inquire at the Girls' Club, Christ Church Cathedral, 1210 Locust street, about singing lessons.

Cook-Coos By Ted Cook

Q. &amp; A. DEPARTMENT. Dead Mine, Bella. Do you not think that the successful man should give his wife more credit?—Serious.

Vishinsky called the defendants

“Foxes and swine”—thus adding insult to execution.

Anyway, if we were going to

shoot craps we would rather play with Capone than with Vishinsky. Less chance of loaded dice.

BRAGGING AGAIN.

(Classified Ad.)

I HAVE BEEN A DRUNKARD and a lazy good for nothing in this community, and admit it. But I can come back strong. Who'll give me a job? Box 234.

And when Simone Simon recently

went to the hospital one newspaper

headlined the item:

Simone Simon Has

Pneumonia-Pneumonia.

Demanding death for 19 of the 21 defendants in Russia's treason trials, Prosecutor Vishinsky cried: “We cannot leave such people alive. They can do so much in America with Al Capone who kill and kidnap people they want to get out of the way. But Russia, thank God, is not America.”

FAMOUS LAST WORDS.

But, Herr Hitler! Herr Goering is a bigger man than you are!
